13. *Planting trees.*—This has been carried out, more or less, in each district, with varying results. In Monghyr, whole lengths of road have been let out to contractors for payments-by-results. The Chairman reports this is still a tentative system, but I think, as most of the contracts were given out in 1882, that enough experience has been gained to allow of the results being judged. On one road, Ramghur to Seikhpoora, it has been a complete failure. On the Tirhoot road the trees are reported to be doing well. On the Patna road No. 13, and Sugrampore road No. 16, the results cannot be said to be satisfactory. Everywhere the smallest seedlings have been put in which will require one or two years' more care and maintenance than proper-sized trees from nurseries, and the Committee have made themselves responsible for a very heavy future annual expenditure, the amount of which they have no means of judging. The maintenance of existing trees on the roads in the south of the district has not been satisfactory.

In Bhagulpore, two-years old trees from nurseries are only planted out and maintained departmentally. These are well looked after. Many planted out three to four years ago now require no maintenance : all planted are strong and flourishing, and it is only to be regretted the Committee were unable to allot more funds for planting out from the well stocked nurseries. I strongly urged some further moderate allotments.

In Purneah and Maldah, the existing trees have been fairly maintained, but nothing worth mentioning has been done in planting out. In these districts, with so much uncultivated land and jungle, this is a work which I am not inclined to press on much, until the state of communications are much more complete than at present.

In the Sonthal Pergunnahs, the trees are planted out from nurseries, maintained departmentally, are well cared for and thriving, and a fair length of road has been newly planted out. Below is an abstract of trees planted out and maintained. :—

NAMES OF DISTRICTS.	Number planted out during 1882-83.	Total number maintained during 1882-83.	REMARKS.
Monghyr	1,545	18,150	
Bhagulpore	1,184	11,861	
Purneah	349	2,517	
Maldah	None.	3 miles.	
Sonthal Pergunnahs	(20 miles) 3,000	9,500	

14. *Accounts.*—The year commenced with a balance in hand of Rs. 47,389, including an unnecessary heavy balance in Maldah of Rs. 20,956 : fair working balances in Purneah and Sonthal Pergunnahs, and an insufficient balance in Monghyr and Bhagulpore, in which districts work was, more or less, retarded for want of funds at the commencement of the year. The year closes with a balance in hand of Rs. 1,04,227 : Monghyr again has an insufficient balance for working purposes. Bhagulpore and Purneah have fair working balances, and Maldah and Sonthal Pergunnahs heavy balances of Rs. 21,554 and 59,196 respectively. The heavy balance in Maldah was on account of work estimated for not having been carried out : that in the Sonthal Pergunnahs on account of Government grants given late in the year, which could not be utilized until estimates were prepared and sanctioned.

The suspense accounts are heavy in the districts of Monghyr, Bhagulpore, and Purneah. In the Sonthal Perguunahs only has all expenditure been finally booked up to the end of the year. These large suspense heads are probably chiefly for work done, but not finally measured, paid for, or booked, but, until detailed, render nugatory any comparison of actual expenditure under head of "repairs" and "original" works.

The usual abstracts of accounts accompany, as follows:—

Abstracts giving the totals of receipts and expenditure in this division; the same showing details under the various heads; expenditure on works in the different districts; the expenditure on village roads, and the balance in hand at the close of the cess year.

15. *Establishment.*—The only change in establishment has been in Purneah, where the District Engineer, Mr. Roberts, took six months' leave last September, and Baboo Nogendra Nath Chatterjee, B.C.E., was appointed to act for him. The establishment throughout is reported to have worked well. The District Engineers have now a complete knowledge of their districts, and deserve credit for the many improvements made, and for their steady attention to their work, especially considering the very uncertain nature of their present appointments.

To the Divisional Superintendent my best acknowledgments are due for the interest he takes in the work. I cannot wish better for my division than that his services may long be retained here.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act, passed by the Lieutenant Governor of Bengal in Council, received the assent of His Honor on the 17th March 1884, and having received the assent of His Excellency the Governor-General on the 22nd April 1884, is hereby published for general information :—

ACT No. II OF 1884.

An Act to amend the Calcutta Tramways Act, 1880.

Preamble.

WHEREAS it is expedient to facilitate the construction and regulate the working of Tramways within such portions of Calcutta as are not situate within the local limits of the town as defined in the Calcutta Municipal Consolidation Act, 1876, and to make due provision for their general management, supervision, and control; and whereas it is necessary to amend the Calcutta Tramways Act, 1880, for the purposes aforesaid: It is hereby enacted as follows:—

Construction and commencement of Act.

1. This Act shall be read with, and taken as part of, "The Calcutta Tramways Act, 1880." And it shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Definition of "Calcutta."

2. "Calcutta" includes all places within the local limits of the Ordinary Original Civil Jurisdiction of the High Court of Judicature at Fort William in Bengal, but not the area included within the fortifications of Fort William.

Tramways constructed beyond local limits of the town to be subject to Local Government.

3. All tramways constructed in Calcutta, but situate beyond the local limits of the town as defined in the Calcutta Municipal Consolidation Act, 1876, shall be subject to the general management, regulation and control of the Local Government: and the Local Government shall in this behalf exercise all the rights, powers, functions and authorities which would, under the provisions of the Calcutta Tramways Act, 1880, have been exercised by the Corporation, if such tramways had been constructed wholly within the local limits of the town as defined by the Calcutta Municipal Consolidation Act, 1876.

Corporation not to have control in respect of tramway outside limits of the town.

4. Nothing in this Act shall be construed so as to give the Corporation any control, power, or authority in respect of any tramway or part of a tramway constructed outside the limits of the town as defined by the Calcutta Municipal Consolidation Act, 1876.

Retrospective effect of Act as to tramways already constructed.

5. Penalty for default in furnishing return.

100. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required to do so, or knowingly makes a false or incorrect return, shall be liable to a fine not exceeding twenty rupees, and to a further daily fine not exceeding five rupees for each day during which he shall omit to furnish a true and correct return; and whoever hinders, obstructs, or prevents any Commissioner or any person appointed by the Commissioners as aforesaid, from entering, or inspecting, or measuring any such holding, shall be liable to a fine not exceeding two hundred rupees.

Provided that, if there be on a holding any building or buildings, the actual cost of erection of which can be ascertained or estimated, the annual value of such holding shall in no case be deemed to exceed an amount which would be equal to seven and a half per centum on such cost, in addition to a reasonable ground rent for the land comprised in the holding:

Provided also that where the actual cost so ascertained shall exceed one lakh of rupees, the percentage on the annual value to be levied in respect of so much of the cost as is in excess of one lakh of rupees shall not exceed one-fourth of the percentage determined by the Commissioners under Section one hundred and two.

The total amount of the rates shall be payable by the owner of the house, who shall thereafter be entitled to deduct from the rent which he pays for the land such proportion of the rate so paid by him as is equal to the proportion which such rent bears to the annual value of the holding.

If the owner of the house and the owner of the land do not agree in respect of the proportion of the rate so deducted by the owner of the house, the Commissioners shall, on the application of either party, make an award declaring the amount payable by each, and such award shall be final.

Tax due from non-resident owner may be recovered from occupier and deducted by him from his rent.

105. 106. Whenever, from the circumstances of the case, the levy of the rate on any holding in the Municipality would be productive of excessive hardship to the person liable to pay

the same, the Commissioners at a meeting may reduce the amount payable on account of such holding, or may remit the same.

113. Any person who is dissatisfied with the amount assessed upon him, or with the valuation or rating of any holding,

Procedure upon review.

114. Every application presented under the last preceding section shall be heard and determined by not less than three Commissioners, who shall be appointed in that behalf by the Chairman. On payment of tax, Commissioners to give a license.

135. On receiving the amount of the tax due as aforesaid, the Commissioners, or some person authorised by them in that behalf, shall give to the person paying the same a license for the several carriages, horses, and other animals for the period in respect of which the amount is received.

Such license shall be for the current half-year and no longer.

Carriage, &c., liable to tax although the owner be absent.

136. Penalty.

137. Whoever keeps, or is in possession of, any carriage, horse, or other animal, without the license required by any of the three last preceding sections, shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, exclusive of the amount so payable.

138. The Commissioners, at their discretion, may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages or animals for hire, for a certain sum to be paid for the carriages or animals so kept by such person, in lieu of the tax at the rates specified in any order made by the Commissioners under sections one hundred and thirty-one and one hundred and thirty-two.

139. The Commissioners shall, from time to time, cause to be prepared and entered in a book, to be kept by them, and to be open to the inspection of any person interested therein, a list of the persons to whom, during the then current half-year a license has been given, and of the carriages, horses, and other animals in respect of which they have paid the tax.

140. The Commissioners, or any person authorized by them in that behalf, may, at any time between sunrise and sunset, enter and inspect any stable or coach-house, or any place wherein they may have reason to believe that there is any carriage, horse, or other animal liable to the tax, for which a license has not been duly taken out.

And the Commissioners may summon any person whom they have reason to believe to be liable to the payment of any such tax, or any servant of such person, and may examine such person or servant as to the number and description of the carriages, horses, and other animals in respect of which such person is liable to be taxed.

Refund of tax in certain cases.

141. On proof being given to the satisfaction of the Commissioners that a carriage, horse, or other animal for which a license has been taken out for any half-year has ceased to be kept or to be used within the Municipality during the course of such half-year, the Commissioners shall order a refund of so much of the tax for the half-year as shall bear the same proportion to the whole tax for the half-year as the period during which such carriage, horse, or other animal has not been kept or used in the Municipality bears to the half-year; but no such refund shall be allowed unless notice be given to the Commissioners within one month of the time when such use of such carriage, horse, or other animal ceased, and, except for special cause shown, the Commissioners shall pass no order for refund until after the close of the half-year in respect of which the refund is claimed.

Any person becoming possessed of any cart which has not been registered for the then current period of registration, shall register the same within one month from the date on which he may have become possessed thereof, and the Commissioners shall grant registration in any such case on payment of such amount of the fee as shall bear the same proportion to the whole fee for the current period of registration as the unexpired portion of the current period of registration bears to the whole of such period; and such fee shall be calculated from the date on which such person may have become possessed as aforesaid.

Transfer of ownership.

145. When the ownership of any registered cart is transferred within any period of registration, it shall be registered anew within one month of the transfer in the name of the person to whom it has been transferred, and a fee not exceeding four annas shall be paid for every such last-mentioned registration.

Penalty.

After such seizure, the Commissioners shall forthwith issue a notice in writing that after the expiration of ten days they will sell such vehicle and animals by auction at such place as they may state in the notice; and if any registration fee, together with the cost arising from such seizure and custody, remains unpaid for ten days after the issue of such notice, the Commissioners may sell the property seized for payment of the said fee, and of all expenses occasioned by such non-payment, seizure, custody and sale.

The surplus sale proceeds (if any) shall be credited to the Municipal Fund, and may be paid on demand to any person who establishes his

right to the satisfaction of the Commissioners, or in a Court of competent jurisdiction.

237. Before beginning to build or rebuild any house not being a hut, the person intending to build or rebuild any such house shall give notice thereof in writing to the Commissioners, and shall accompany such notice with a general description of the building which he intends to erect, and of the provision he intends to make in respect of drainage and latrine accommodation.

Notice to be given to Commissioners by persons intending to build or rebuild any house not being a hut.

238. Within fourteen days after the receipt of the notice mentioned in the last preceding section, the Commissioners may refuse to sanction the building of the house, unless it be shown to their satisfaction that proper provision is, or can be made, for drainage and latrine accommodation within the holding or in the neighbourhood thereof.

Commissioners may refuse sanction to the building of a house not to be provided with drainage and latrine accommodation.

239. The Commissioners may also, if they see fit, within fourteen days after the receipt of the notice mentioned in section two hundred and thirty-seven, require the person giving such notice to submit to them a plan showing the width of the foundation walls and the level of the lowest floor of such house by reference to some level ascertained under the direction of the Commissioners, and the Commissioners may direct that such house shall not be begun to be built without their sanction.

Commissioners may call for a plan of the width of foundation walls and the level of the lowest floor.

240. Within fourteen days after receiving the plan mentioned in the last preceding section, the Commissioners shall either signify their approval of the proposed levels and width of the foundation walls, or shall fix other levels and width of foundation walls in lieu thereof. If within fourteen days after receiving the plan as aforesaid, the Commissioners fail to signify their approval or disapproval of the levels and width of foundation walls shown in such plan, or to fix other levels and width of foundation walls, the person giving notice may, unless sanction has been refused under section two hundred and thirty-eight, proceed to build or rebuild the house in accordance with the levels and width of foundation walls shown in the plan:

Provided that the house be otherwise built or rebuilt in accordance with the provisions of this Act.

On failure of Commissioners to signify approval or disapproval of the plan within fourteen days, the house may be built in the manner laid out in the plan.

or if such house is built, or begun to be built after refusal of and without sanction under section two hundred and thirty-eight;

or if, when a plan has been required under section two hundred and thirty-nine, the house is built or begun to be built before such plan has been approved, or before the expiration of fourteen days after the submission of such plan;

or if, after the Commissioners have directed that the house be not begun to be built without their sanction, the said house is built or begun to be built without such sanction;

or if, when levels and width of foundation walls have been fixed by the Commissioners, the house is built or begun to be built in accordance with levels and foundation walls other than those fixed;

or if the house is built, or begun to be built, in any other respect contrary to the provisions of this Act,

the Commissioners may cause such house to be altered or demolished as they shall see fit.

Commissioners may cause house built without notice, &c., or contrary to provisions of Act, to be altered or demolished as they shall see fit.

242. The Commissioners may prohibit the owner of any new house to let the same for occupation, until the drainage and latrine accommodation of such house shall have been inspected and approved by the municipal officers appointed for the purpose.

New house to be approved before occupation.

243. It shall not be lawful for any person to erect a hut, or any range or block of huts or sheds, or to add any hut or shed to any range or block already existing, or to enlarge any existing hut, without previous notice to the Commissioners; and the Commissioners may require such huts or sheds to be built so that they may stand in regular lines, with a free passage or way in front of and between each line, of such width as they may think proper for ventilation and to facilitate scavengering, and with such number of privies, and with such means of drainage, as to them may seem necessary, and at such a level as will admit of such drainage, and with a plinth at least two feet above the level of the nearest street.

Erection of new huts to be under the control of the Commissioners.

244. If any such huts or sheds be built without giving such notice to the Commissioners, or otherwise than as required by the Commissioners, the Commissioners may require the owners of the land on which such huts and sheds are built, and the occupiers of such huts and sheds, to take down and remove the same within one month, or to effect such alterations as they may deem necessary.

Power to direct removal of huts built without notice.

Of Sanitary Measures with regard to Blocks of Huts.

245. Whenever the Commissioners at a meeting are satisfied, from inspection, or by report of competent persons, that any existing block of huts within the Municipality is, by reason of the manner in which the huts are constructed or crowded together, or of the want of drainage and the impracticability of scavengering, attended with risk of disease to the inhabitants or the neighbourhood, they may cause the locality to be inspected by two Medical Officers, who shall make a report in writing on the sanitary condition of the said block of huts; and shall specify, if necessary, in the said report, the huts which should be removed, the roads, drains, and sewers which should be constructed, and the low lands which should be filled up, with a view to the removal of the said risk of disease.

Expenses may be recovered by instalments or remitted in case of poverty.

247. The Commissioners at a meeting may order that any expenses payable in respect of any work done by them in consequence of the failure of the owners or occupiers to execute such work when required to do so under the last preceding section, shall be recovered by instalments from the person liable to pay the same; or if it should appear to them that the said person is unable by reason of poverty to pay the same, may order the same, or any portion thereof, to be paid out of the Municipal Fund.

Sale of huts.

248. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be sold separately, if such sale can be effected, and the proceeds shall be paid to the owner of the hut, or, if the owner be unknown, or the title disputed, shall be held in deposit by the Commissioners, until the person interested therein shall obtain the order of a Civil Court of competent jurisdiction for the payment of the same.

Markets, slaughter-houses, &c., to be properly drained.

249. Every owner, or occupier, or farmer, of any place for the sale of meat, poultry, fish, or vegetables, or of any slaughter-house, within the limits of a Municipality, shall cause such drains to be made therein as shall be considered sufficient by the Commissioners, and (if required so to do by the Commissioners) shall cause all the floors and drains to be paved with stone or burnt brick, and shall also cause a supply of water to be provided, sufficient for keeping such place or slaughter-house in a clean and wholesome state.

Sale of unwholesome food or drink.

250. Any Magistrate, on the application of the Commissioners or any of their officers setting forth that there is just cause to believe that any article which has been rendered or has become noxious or unfit for use as food or drink for man, is in the possession of any person for the purpose of being sold, or offered or exposed for sale, within the limits of a Municipality, as food or drink for man, may grant a warrant to enter upon the premises of such person, and to search for and seize such article.

And if it appear to the said Magistrate that the same is noxious or unfit for such use, he shall order it to be forfeited and disposed of in such way as to him shall seem proper.

Power to Commissioners to enter and inspect markets, shops, &c., and to seize unwholesome articles exposed for sale.

251. The Commissioners, or any person authorized by them in that behalf, may at all reasonable times enter into and inspect any market, buildings, shop, stall, or place used for the sale of meat, poultry, fish, vegetables, corn, bread, flour, wine, spirits, butter, ghee, or other food or drink, or as a slaughter-house, and may examine any of the aforesaid articles of food or drink which may be therein; and in case any of the aforesaid articles of food or drink appear to be intended for the food or drink of man, and to be unfit for such food or drink, may seize the same.

And if it appear to a Magistrate that any of the aforesaid articles of food or drink is unfit for the food or drink of man, he shall order the same to be destroyed, or to be so disposed of as to prevent its being exposed for sale or used for such food.

252. No shop or place shall be kept for the retail sale of drugs recognized by the British Pharmacopœia, not being also articles of ordinary domestic consumption, unless the same shall have been registered in the office of the Commissioners. The Commissioners shall, upon registration, grant the keeper of such shop or place a license which he shall be bound to display in some conspicuous part of his premises.

Certificated dispensers.

No person shall compound, mix, prepare, dispense, or sell any drug in any such registered shop or place unless he be duly certified as a fit person to be entrusted with such duties under rules made for that purpose by the Local Government:

Provided that the provisions contained in the second clause of this section shall not come into operation until after the expiration of a period of six months from the publication of a notification to that effect in the *Calcutta Gazette* by the Local Government.

Nothing in this section contained shall be construed to apply to the sale of drugs used by practitioners of indigenous medicines, whether recognized by the British Pharmacopœia or not, when such drugs are not sold in a shop or place where medicines recognized by such Pharmacopœia are dispensed upon prescription.

Inspection of drugs.

253. The Commissioners, or any person authorized by them in that behalf, may at all reasonable times enter into and inspect any place kept for the sale of drugs, or in which drugs are sold, and if they have reason to suspect that any drug in the said place is adulterated, or by reason of age or the effect of climate has become inert or unwholesome, or has otherwise become deteriorated in such a manner as to lessen its efficacy, to change its operation, or to render it noxious, may remove the same on giving a receipt therefor, specifying the nature and quantity of the drug removed, and its approximate value; and if it appear to a Magistrate that the said drug removed as aforesaid is adulterated or has become inert, unwholesome, or deteriorated as aforesaid, he may order the same to be destroyed, or to be so disposed of as to him may seem fit.

The said water-rate shall be paid by the occupiers of the holdings by quarterly instalments in advance.

Valuation, assessment, and collection of water-rate.

280. The annual value of holdings shall be the value determined by the Commissioners for the imposition of the rate on holdings under the provisions of Part IV of this Act, or if no such rate on holdings be imposed, the annual value shall be ascertained and determined in the manner provided in that Part. And the provisions of sections ninety-six to one hundred and nine (both inclusive), and one hundred and twelve to one hundred and thirty (both inclusive), shall *mutatis mutandis*, and so far as they are not inconsistent with the provisions of this Part, be applicable to the assessment and collection of the water-rate.

Occupier paying water-rate may deduct one-fourth from rent due to owner.

281. Whenever the person by whom the water-rate shall have been paid, or from whom the said rate shall have been recovered, is not the owner of the house or land in respect of which the water-rate shall have been assessed, such person may recover from the owner one-fourth of the water-rate so paid or recovered, and may deduct the same from the rent payable by him to such owner.

When house is unoccupied, owner to pay one-fourth of water-rate.

282. Whenever any house or land has been unoccupied during an entire quarter, the owner of the said house or land shall pay to the Commissioners one-fourth of the sum which would have been payable as water-rate by the occupier if such house or land had been occupied.

283. Whenever any quarterly instalment of the water-rate shall have been paid in respect of any house or land, and such house or land shall, during the quarter for which such instalment shall have been paid, cease to be occupied, the person who shall have paid such water-rate shall be entitled to be repaid by the Commissioners three-fourths of such sum as shall bear to the amount paid by him the same proportion which the residue of the quarter bears to the entire quarter:

Provided that notice shall have been given in writing to the Commissioners of such house or land being unoccupied, and that the application for refund be made within six months next after the date on which the house or land ceased to be occupied.

The date on which the said notice is delivered at the office of the Commissioners shall, for the purposes of this section, be deemed to be the date on which the house or land ceased to be occupied.

Rate payable on house being re-occupied.

284. Whenever any house or land which shall have been unoccupied shall begin to be occupied during any quarter, there shall be forthwith payable by the occupier in respect of such house or land a sum calculated at one-fourth of the rate that would have been payable if the house or land had been occupied during the entire quarter for the period during which the house or land was not occupied, and the full rate for the residue of the quarter.

And such occupier shall be entitled to deduct from the rent, or otherwise recover from the owner, one-fourth of the water-rate that would have been payable if the house or land had been occupied during the entire quarter.

Owner to pay water-rate in certain other cases.

286. The provisions of sections three hundred and twelve, three hundred and thirteen, and three hundred and fourteen shall be applicable to this Part, provided that the owner shall not be entitled to recover from any occupying tenant more than three-fourths of the water-rate that would but for this proviso be recoverable by him under the said sections.

In any Municipality to which the provisions of this Part shall be extended, the Commissioners shall provide a supply of water within the limits of the Municipality; and for this purpose it shall be lawful for them to cause such mains and pipes to be laid, and such tanks, reservoirs or other works to be made and constructed, as shall be necessary for the supply of water in the chief public streets; and they may also erect in all such streets sufficient and convenient stand-pipes or pumps for the use of the inhabitants of the Municipality for domestic purposes.

What are not domestic purposes.

288. A supply of water for domestic purposes shall not include a supply of water for animals or for washing carriages, where such animals or carriages are kept for sale or hire, or a supply for any trade, manufacture, or business, or for watering gardens or roads, or for any ornamental or mechanical purpose.

Pressure at which water must be kept.

289. The Commissioners at a meeting shall determine what pressure of water shall be maintained in their service pipes and mains, and during what hours such pressure shall be continued: and any rule made under this section shall be published in such manner as the Commissioners may direct, and shall not be altered except with the sanction of the Commissioners at a meeting.

Communication pipes, &c., to be made of required dimensions, and at expense of householder.

290. In any Municipality in which this Part shall have been introduced in the manner provided in section two hundred and twenty-two it shall be lawful for the Commissioners from time to time to submit to the Local Government, for its sanction, a plan for lighting with gas any portion of any area situate within the municipal limits, whether so lighted already or not, such portion of the said area having been previously defined by the Commissioners at a meeting held for that purpose. The Local Government shall cause the plan to be published for one month in the *Calcutta Gazette*, and the Commissioners shall publish it in the vernacular within the limits of the Municipality; and after such publication, and after consideration of any objections which may be raised to it, or alterations suggested in it, the Local Government may, if satisfied that the lighting proposed in the plan is proper and sufficient, sanction such plan, or may refuse its sanction thereto, or may return it to the Commissioners for alteration in certain particulars to be specified by it, and when altered may sanction it as altered. The Local Government shall cause its sanction to any plan to be notified in the *Calcutta Gazette*, and shall at the same time cause the plan sanctioned to be published in the said *Gazette*.

Lighting-rate not exceeding three per centum may, after sanction of plan, be imposed on holdings.

309. After notification by the Local Government in the last preceding section mentioned, it shall be lawful for the Commissioners to impose an annual rate not exceeding three per centum of their annual value upon all holdings situated within such portion of the said area for the purpose of defraying the whole expense of lighting:

Proviso as to portions already lighted.

Provided that, as regards any portion of the said area already lighted with gas, for the future lighting of which a plan shall have been sanctioned by the Local Government under the provision of the last preceding section, if it shall appear that the estimated proceeds of the said rate at three per centum will not be sufficient to defray the whole expense of such lighting, it shall be lawful for the Commissioners to impose a rate sufficient to defray the whole expense of lighting such portion.

Rate payable by occupiers quarterly in advance.

310. The rate imposed under the last preceding section upon holdings shall be paid by the occupiers thereof by quarterly instalments in advance; but no rate shall be leviable until the lamps in the portion of the area to be lighted shall have been lighted; nor shall any rate be leviable for any quarter or portion of a quarter antecedent to such lighting.

And the provisions of sections ninety-six to one hundred and nine (both inclusive), and one hundred and twelve to one hundred and thirty (both inclusive), shall *mutatis mutandis*, and so far as they are not inconsistent with the provisions of this Part, be applicable to the assessment and collection of the lighting-rate.

312. If any holding shall be occupied by more than one tenant holding severally, or shall be of less annual value than one hundred rupees, it shall be lawful for the Commissioners to recover the rate from the owner of such holding.

313. Whenever any rate shall be recovered from any owner of any holding under the provisions of the last preceding section, it shall be lawful for such owner, if there shall be but one occupying tenant of such entire holding, to recover from such tenant the entire amount of the rate which shall have been so paid by such owner; and if there shall be one occupying tenant of a part of such holding or more than one occupying tenant of such holding, then to recover from such tenant or each of such tenants, such sum as shall bear to the entire amount of rate which may have been so recovered from such owner, the same proportion as the value of the portion of such holding in the occupation of such tenant bears to the entire value of such holding, subject, however, to the provisions of the next succeeding section.

314. Every owner who, under the provisions of the last preceding section, may be entitled to recover any sum from any occupying tenant of any holding or of any portion thereof, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to such owner by such tenant in respect of so much of such holding as may be in the occupation of such tenant.

Owner may recover rate so paid as rent.

315. Every occupier shall be liable to the lighting-rate for the time of his occupation. When any person shall have been an occupier for a part only of any quarter, he shall be liable only for so much of the rate for that quarter as may be proportionate to the number of days during which he shall have been an occupier.

If the occupier fail to give such notice within such period, he shall be liable to the rate assessed on such holding for the whole quarter, although he may have occupied for a part only of such quarter; and in cases to which the provisions of section three hundred and twelve apply, the rate assessed on such holding for the whole quarter shall be recoverable from the owner, if such owner has failed to give notice that such holding is unoccupied, within seven days from the date on which it ceased to be occupied.

Notice of cession of occupancy to be given within seven days.

316. When the name of the owner or occupier of any holding is not known, it shall be sufficient to designate him, in any notice served or proceeding held under this Part, as the owner or the occupier of the holding on which the rate is assessed, and without further description.

Unknown owner or occupier how to be designated.

317. If the Commissioners deem it necessary for the purposes of this Part to raise, sink or otherwise alter the situation of any gas-pipe or other gas-work laid in any portion of the said area, they may from time to time, by notice in writing, require the person to whom any such pipe or work belongs, or under whose control it may be, to cause forthwith, or as soon as conveniently may be, any such pipe or work to be raised, sunk or otherwise altered in position, in such manner as the Commissioners may direct:

Situation of gas-pipe or other gas-work to be altered at the expense of the Commissioners.

Provided that such alteration be not such as permanently to injure such pipe or work, or to prevent the gas from flowing as freely and conveniently as before; and the expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the Commissioners out of the Municipal Fund as well to the person to whom such pipe or work belongs as to all other persons.

318. If the person to whom any such pipe or work belongs, or under whose control it may be, do not proceed forthwith, or as soon as conveniently may be, after the receipt of such notice, to cause the same to be raised, sunk or altered in such manner as the Commissioners require, the Commissioners may themselves cause such pipe or work to be raised, sunk or altered as they may think fit:

If owner, &c., neglect to make alterations, the Commissioners may cause the same to be made.

Provided that such works be not permanently injured thereby, or the gas prevented from flowing as freely and conveniently as before.

319. The provisions of this Part shall apply, so far as may be possible, to any scheme which may be adopted by the Commissioners of any Municipality for lighting the Municipality under any system involving the laying of pipes or wires or other similar apparatus.

RESOLUTION ON THE REPORTS OF THE OPIUM AGENTS OF BEHAR AND BENARES FOR 1882-83.

REVENUE DEPARTMENT—MIS. REVENUE.

Darjeeling, the 30th April 1884.

RESOLUTION.

READ—

A letter from the Secretary to the Board of Revenue, No. 89B, dated the 11th February 1884, submitting the reports of the Opium Agents of Behar and Benares for 1882-83.

The working of the Opium Department in both Agencies was thoroughly investigated during the year by a Commission consisting of the Hon'ble H. J. Reynolds and Messrs. Duthoit and Forbes, and a very valuable report was submitted by these gentlemen, which is now receiving the Lieutenant-Governor's attention. Mr. Rivers Thompson hopes shortly to lay before the Government of India his views on the many important questions discussed and the reforms suggested by the Commission.

2. The past season was in both Agencies, as regards yield, the most unfavourable that has occurred for many years. The quantity of land engaged

for, the quantity sown, the net quantity actually cultivated, and the outturn in each Agency in the last two years, are compared in the following statement:—

Season.	Area engaged for.	Land sown for cultivation.	Net cultivation.	Produce at 70° consistence.
Behar.	Bighas.	Bighas.	Bighas.	Mds. s. c.
1881-82	4,77,619	4,75,459	4,60,382	49,440 4 1
1882-83	4,63,827	4,66,772	3,94,232	27,073 34 5½
Increase	.....	.....	.....	.....
Decrease	13,792	8,687	66,150	22,366 9 11½
Benares.				
1881-82	4,50,474	3,98,478	3,80,659	51,449 7 2
1882-83	4,28,541	4,12,625	3,98,952	42,213 5 10½
Increase	.....	14,147	9,293	.....
Decrease	21,933	.....	.....	9,236 1 7½

Behar, it will be observed, shows a falling off under every head, resulting in the serious loss of over 22,366 maunds in the produce, while in the Benares Agency, also, notwithstanding an increase in the net cultivated area, the outturn declined by 9,236 maunds. Of the total cultivation in Behar, 1,96,590 bighas lay south and 1,97,642 north of the Ganges. The whole of the former area was irrigated, but only 91,581 bighas of the latter had the benefit of irrigation. The decrease of cultivation was in the proportion of 43,213 bighas in the North Gangetic to 22,937 bighas in the South Gangetic districts, and the Agent accordingly concludes that the latter districts, with their larger facilities for irrigation, are more favourable for poppy cultivation, and that we must look to them alone in future for an extension of our operations. It is doubtful, however, that canal irrigation is altogether favourable to the poppy: and for this and other reasons, the Lieutenant-Governor does not think the Agent's views on this point free from doubt. The figures for the Benares Agency are, on the whole, not unsatisfactory; and it is evident that the falling off in produce was entirely due to the very unfavourable conditions of the season. The decrease in settlements is attributed by the Agent to greater care in rejecting applications for advances for lands which the ryots were evidently not in a position to cultivate, while there was an increase both in the area sown and the area actually cultivated.

3. The season began most favourably in the Behar Agency, but matters were entirely changed by the occurrence of bad weather in January and subsequently, leading to a widespread development of blight and destruction of the crops. In the Mozufferpore kothee only 43 maunds of produce were gathered against 379 maunds in the previous year; in Hazeepore only 238 maunds were collected out of an estimated outturn of 2,000; and in Alliganj only 811 maunds out of 7,300 expected by the Sub-Deputy Agent. The districts south of the Ganges did better, but really good crops were obtained only in Hazaribagh and Monghyr. The Benares Agency experienced similar weather, while, in addition to the injury done to them by blight, the crops suffered a good deal in places from caterpillars, hail and frost. Some portion of the produce is also stated to have been lost in consequence of the exudations from the forward plants having been washed away by rain while the opium was being collected. The effect of the weather on the average produce per bigha was, as might be expected, of a marked character in both Agencies. In Behar the average was reduced from 4 seers 4¾ chittacks in the previous season to 2 seers 12 chittacks, and in Benares from 5 seers 2¾ chittacks to 4 seers 1½ chittacks. Under such circumstances, it is satisfactory to know that the prospects of the current year's crop are favourable, and that the outturn is expected to go some way towards making up for last year's deficiency.

4 The total quantity of produce available for manufacture in the Behar Agency comprised the season's outturn shown in the above statement, and 4,349 maunds of Benares opium of 75° consistence transferred to Patna, and from this amount 16,090 chests of provision opium were manufactured against 26,022 chests in the previous season. The number of chests of excise opium manufactured during the season was 802 (130 maunds of produce being left in hand

for manufacture at the date of the Agent's report) against 2,222 in the previous year. At the Ghazipore Factory 22,124 chests of provision opium were manufactured from the produce of the Benares Agency, and a considerable quantity of excise opium was prepared from Malwa produce in accordance with the scheme to which reference is made further on.

5. Of the total quantity of opium sent in to the Factory as good in the Behar Agency, only 26 maunds received from two divisions were so bad as to justify confiscation, against 4 maunds 7 seers in 1881-82. Besides this, 298 maunds 34 seers were sent in as adulterated, of which 8 maunds 34 seers were confiscated against 19 maunds 25 seers in the previous year. These results show an improvement, notwithstanding a slight increase in the quantity of the produce on which mulcts and fines were imposed. In the Benares Agency, on the other hand, the quantity of impure produce which escaped detection by the Sub-Deputy Agents shows a very large excess over that of the previous season, being 712 maunds 23 seers against 99 maunds 19 seers. The quantity detected by them was 68 maunds 35 seers against 74 maunds 12 seers, and 15 maunds 29 seers were confiscated. It is stated that the nature of the season rendered the separation of pussewah from the produce more difficult than usual.

6. As a consequence of the extensive failure of the crops in the Behar Agency, the outstanding balances of the advances made to cultivators were very heavy during the year. They amounted at first to Rs. 5,58,887, but were reduced by the end of the year to Rs 2,40,474. The Lieutenant-Governor is glad to have the assurance that the standing orders of the Government in regard to the realization of these advances were observed, and that the collections were made judiciously and with due regard to the circumstances of the defaulters The balances of the Benares Agency were not so large, and of the total amount (Rs. 1,85,158), Rs. 1,08,169 have since been recovered. The policy which should be followed by the Government with respect to these advances has been discussed by the Opium Commission, and the matter has recently been submitted by the Lieutenant-Governor, with his opinion, for the consideration of the Government of India, in anticipation of the review to be submitted on the general questions raised in the Committee's report on the future administration of the Opium Department.

7. There was a large increase during the year in the amount paid in Bengal as rewards to informers in opium cases, which is attributed to increased vigilance on the part of the Excise Department. The Behar Agent, however, doubts whether the system under which such large rewards are given to informers is a good one, and observes that "it has, no doubt, raised up in some districts professional informers, who think it no harm to bolster up a weak case by false evidence, and who rendered themselves a terror to ignorant cultivators more than to the unscrupulous dishonest smugglers who regularly trade in smuggled opium." The Board have not expressed their opinion on this point, and the Lieutenant-Governor is not aware how far the Agent's opinion is supported by the experience of the local officers; but abuse is, no doubt, likely to result from insufficient discrimination in the grant of rewards, and the Lieutenant-Governor desires to call the attention of the Inspector-General of Police and the Magistrates and Police officers of all opium districts to the Agent's remarks. In the Benares Agency a smaller sum than in the previous year was spent in rewards, and the Agent reports also a falling off in cases under the Opium law in the North-Western Provinces and Oudh, this decrease being, he thinks, due to the passing of sentences of rigorous imprisonment in most cases, and to greater activity on the part of Police and Opium officers. It is satisfactory to notice that, notwithstanding the reduction in prosecutions under the Opium law, sales of excise opium have increased in almost all districts.

8. The Lieutenant-Governor is glad to learn that success has attended the plan of permitting cultivators to construct aqueducts across canal distributaries for the purpose of conveying well-water to their fields, to which sanction was given last year, the preference of the ryots for well to canal water for poppy cultivation having been shown, on enquiry, to be reasonable. The Sub-Deputy Opium Agent of Tehta reports that the tar-tree shoots have

been a great boon to the cultivators, and have prevented hundreds of bighas from going to sugarcane, for which canal water is suited. The cost of these shoots and aqueducts is borne by the Government, and Rs. 3,040 were expended on them in the Tehta and Patna Sub-Agencies during the year. The expenditure has been fully justified by the saving to poppy of a large area which would have been used for other crops, if canal water only had been available for irrigation, and the new system should be extended to other localities where the cultivation of poppy suffers from the competition of crops for which canal water is suitable. The amount advanced for the construction of wells in the Behar Agency amounted to Rs. 39,019 against Rs. 30,309 in the previous year, and 151 pucca and 5,408 kutcha wells were constructed, while a large number of wells were repaired. The extension of the well system of irrigation appears, however, to make little or no progress in the Sub-Agencies immediately north of the Ganges, except Alliganj (Sewan), and the Lieutenant-Governor is disposed to agree with Mr. Kemble that, notwithstanding the insecure tenure on which the ryots generally hold their lands in those divisions, the Sub-Deputy Agents might do more towards encouraging the construction of wells by offering advances to and helping those tenants who are not liable, owing to causes which have been thoroughly discussed in connection with the Tenancy Bill, to be ejected at will from their holdings. The advances for wells in the Benares Agency also show an increase over those of the previous year, and applications for them are stated to be steadily increasing.

9. The quantity of pussewah delivered by the cultivators was 116 maunds against 196 in the previous year in the Behar Agency, and 46 maunds against 20 in the Benares Agency. The influences of the season were unfavourable to the experiment, sanctioned last year, of encouraging the delivery of this fluid, by raising its price from Rs. 2-8 to Rs. 3-8 a seer, but both Agents speak well of the effect of the measure so far. The experiment should certainly be continued during the present season.

10. The concessions which have been made to the opium cultivators of Nepal, in the shape of commission and travelling allowances, apparently account for the further increase in the quantity of opium received from them. The deliveries amounted to 628 maunds last year, this being the largest quantity received within the past ten years. The Lieutenant-Governor entirely approves of the rule made by the Board in connection with the complaint that the indulgence granted to the Nepal cultivators had been in some cases abused. A rigid rule on the subject would be unwise. It will suffice to leave it to the discretion of the officer conducting the weighments to refuse travelling allowances to men whose presence at the weighments was not really required, and who, it may be safely assumed, have attended merely for the purpose of drawing these allowances. The arrest of a number of these cultivators by the police in Tirhoot for carrying opium without a license was a regrettable occurrence, and the Lieutenant-Governor desires to learn, as soon as possible, what measures have been taken, as a result of the correspondence which has passed on the subject between the Board, the Inspector-General of Police and Agent, to prevent the recurrence of such proceedings.

11. The question whether the cultivation of poppy has lost its popularity and is in danger of being supplanted by the growth of other crops of greater value to the cultivators has been much discussed of late years; and the general tendency of opinion in the Opium Department has hitherto been that the cultivators were manifesting an increasing disposition to devote their best lands to the potato, the sugarcane and other paying crops, leaving the inferior soils only for poppy. The Opium Commission, however, who have examined the question, share in no degree the fears of those who predict the gradual decline of poppy cultivation under the growing competition of other crops. While admitting that the opium producers of both Agencies, and especially those of Behar, have been disheartened by the successive bad seasons from which they have suffered of late years, they have nevertheless arrived at the general conclusion "that there is no actual competition of other crops with the opium poppy at present to be dreaded." This is a question which affects large interests, and which the Lieutenant-Governor will consider fully in connection with the Commission's report.

12. The Lieutenant-Governor regrets that the experiment of sowing indigo on poppy lands, to which Mr. Donald Reid, a planter of the Alliganj Sub-Agency, has given his attention, could not be thoroughly carried out during the year, owing to his absence from India. If one crop cannot be cleared from the ground before the land is required for another, it would seem likely that the competition of Government and European planters for the same land would very often lead to undesirable complications. The Agent, however, has promised an enquiry into the subject, and the results of that enquiry will be awaited.

13. A full report was lately received from the Board regarding the substitution of Malwa for Bengal opium in the manufacture of the excise drug with the view of setting free for exportation the Bengal produce hitherto used for excise purposes. The scheme has been in operation now for two years, and the results having been very satisfactory, its continuance for another year has been sanctioned. The drug thus manufactured met with some objection from excise dealers, in the first instance, on account of its oily flavour, due to the custom of mixing oil with their opium prevalent among the Malwa cultivators, and of the loss of weight which it suffered by keeping; but measures have since been taken, with considerable success, to extract the oil from the drug in the course of manufacture, and orders have also been issued for compensating the dealers for the loss of weight, which have fully removed the objection on that ground. The quantity of Malwa opium purchased last year was 4,000 maunds at 90° consistence, and the excise opium manufactured was utilized for the supply of the North-Western Provinces, Oudh, the Central Provinces, Assam and Burmah. Great credit is due to Mr. Rivett-Carnac for the successful working of the scheme, and the thanks of the Government of India and of this Government have already been conveyed to him.

14. Experiments as to the best mode of storing and packing provision opium were continued during the year, and a report on them has recently been received from the Board. With the exception of storing opium balls on open racks in the factories till required, and the use of tin-lined chests, regarding which further trial is advisable, none of the methods have yielded satisfactory results, and the Lieutenant-Governor has decided not to proceed further with the experiment

15 The outturn of the saw-mill at the Patna Factory was not satisfactory during the year, the number of chests having fallen short of that of the previous year by 7,596. This result is attributed to a portion of the machinery not having been available for work for over two months, owing to the substitution of a new for an old vertical frame, and to the failure in the supply of emery discs used for sharpening the saws. The Board of Revenue should see that proper arrangements are made to obviate the risk of any similar failure in future. It is satisfactory to note that the supply of mango chests by contractors had been very good up to the date of report. The Lieutenant-Governor also observes that the stock of timber, planks and chests at the Factory was sufficient, after providing for this season's demand, for 81,739 chests and 31,213 compartments.

16. The control of the Department by the Board has been efficient, and the Agents also deserve the thanks of the Government for the work done during the year. The Lieutenant-Governor notices also the favourable mention made of the Principal Assistants and of Messrs. Tytler, Turnbull, Cosserat and Hastings by their respective Agents.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

ANNUAL REPORT ON THE CALCUTTA COURT OF SMALL CAUSES, FOR 1883.

RESOLUTION.

JUDICIAL.

Dated Darjeeling, the 30th April 1884.

READ—

The Report of the Judges of the Small Cause Court of Calcutta for 1883.

The year under report was the first in which the Presidency Small Cause Court Act XV of 1882 was in force throughout.

2. The following statement will show the number of suits which came before the Court, and the disposal of them during the last three years :—

	1883.	1882.	1881.
Pending from the previous year	1,557	1,333	1,288
Instituted during the year	26,027	29,553	34,108
Total ...	27,584	30,886	35,396
Decreed in favour of plaintiff after contest ...	3,859	4,397	5,185
Ditto ditto without contest ...	7,478	8 141	9,326
Dismissed after trial	1,352	1,358	1,431
Nonsuited or withdrawn	920	1,641	2,398
Compromised	9,599	11,040	12,586
Dismissed for default of plaintiff	2,514	2,704	3,085
Dismissed uncontested	61	48	52
Pending at close of year	1,801	1,557	1,333
Total ...	27,584	30,886	35,396

The working of the new procedure has thus resulted in an apparent decrease of 3,526 suits as compared with 1882. In that year Act IX of 1850 was in force for the first six months, and the present Act during the last six, and there was a decrease of 4,555 suits as compared with 1881, the last complete year under the former Act. Comparing, therefore, the institutions of the last year of the old procedure (1881) with the first year of the new procedure (1883), it appears that there has been a decrease under the latter of 8,081 suits. Part of this very large decrease is undoubtedly merely nominal. As pointed out by the Judges, investigation under section 278 of the Civil Procedure Code, of claims to and objections to attachment of property attached in execution of a decree, are no longer treated as interpleader suits. They are tried as ordinary cases, but are not shown as such in the returns The number of these claims last year was 323. Again, under the old procedure, parties nonsuited under sections 42 and 53 of the Act frequently re-instituted their suits, and these were shown as fresh cases. The practice of nonsuit being abolished, these can come on the file only as applications for restoration and re-hearing. Making allowance, however, for these nominal reductions caused by changes in the law, it is plain that, so far as the years above-mentioned afford the means of comparison, there has been a great and real decrease in the number of suits instituted since the new Act has come into force. This is chiefly remarkable in the suits of values up to Rs. 10. These have fallen from 10,776 in 1882 to 8,387 in 1883, a decrease of 2,389. In the next class, that of values up to Rs. 50, there has also been a considerable diminution, the number in 1882 being 12,130 and in 1883, 11,020. The same decrease is noticeable, though to a smaller extent, in all the other classes except in that of over Rs. 1,000; there would naturally be an increase in this class, as the Act extending the Court's jurisdiction was in force during the whole of 1883, but only during six months of 1882. A similar result followed the introduction of the Act in Madras, and its provisions have had, it is now plain, a distinct effect in discouraging suitors for small amounts. Under Act IX of 1850 the procedure was summary, and the Court was empowered to make and alter rules of practice. The speedy disposal of cases was thus much facilitated. The jurisdiction of the Court, which then embraced suits up to Rs. 500, was afterwards extended, first under Act XXVI of 1864 up to Rs. 1,000, and ultimately under the present Act to Rs. 2,000. The simple procedure laid down in

section 26 of Act IX of 1850 for the institution of suits has now been altered, and the provisions of sections 36, 37 and 41 of the Civil Procedure Code made applicable to the Small Cause Court, with the exception of clause *b* and the last paragraph of section 37. It is believed that the difficulties entailed upon suitors by these sections had mainly conduced to the decrease in the institution of suits, particularly of those of the smaller values. Petitions have been received from certain merchants and other inhabitants of Calcutta complaining of inconveniences. These complaints were briefly—

(1.) That in consequence of the extension to the Court of section 36 *et seq.* of the Code of Civil Procedure, suitors were no longer able to transact their business through the agency of their relatives, managers, servants or accredited agents, or of certified mukhtears of the Court, but were compelled either to appear in person or to employ a pleader.

(2.) That in the Court a stamp of the value of one rupee had to be used for powers-of-attorney instead of a court-fee stamp of the value of eight annas, as in the mofussil.

(3.) That suitors were no longer able to keep a decree alive by suing on the judgment of the Court, or by taking out execution before the expiry of three years

(4.) That plaintiffs experienced difficulty in drawing out from the Court money in which they were jointly interested.

There were also complaints regarding the appointment of pleaders as agents and the excessive fees demanded by them as such.

Some of these complaints appeared to the Lieutenant-Governor on investigation to be based on no sufficient grounds to justify interference; but later enquiries show that suitors were really inconvenienced by being compelled to appear in person or by pleader, unless residing beyond the limits of the Court's local jurisdiction; and that the law requiring a stamp of one rupee on powers-of-attorney, instead of eight annas, bore heavily on the poorer suitors. A notification reducing this duty to eight annas has already been issued by the Government of India. A rule relaxing the severity of sections 37 and 41, Civil Procedure Code, has been proposed by the Chief Judge of the Small Cause Court, and on the approval of it by the High Court, the necessary notification will be issued. The Lieutenant-Governor hopes that, with this relief and a better understanding of the new procedure, the smaller suitors will again have recourse to the Court.

3. The Lieutenant-Governor regrets to observe that in spite of the very large decrease in the number of suits instituted, the arrears have continued to increase; that the average number of days' duration of contested suits has risen from 54·8 to 71·5; and that the number of cases pending more than three months at the close of the year was 359, while in the year preceding it was only 228. The proportion of contested suits, whether decreed in favour of plaintiffs or dismissed after trial, to the total number of suits pending during the year, is nearly 19 per cent., almost exactly the same as in the previous year; yet the actual number disposed of was above 10 per cent. *less* than in 1882. The general explanation given by the Court is that the work has not decreased to the extent which might be inferred from the figures merely, as many applications, shown in former returns as cases, are no longer so shown, while the new procedure throws in certain respects additional work on the Court There has been also a large increase in the number of institutions in suits of values over Rs. 1,000, which has added considerably to its labours The Lieutenant-Governor is willing to accept the explanation, but he would be glad if some arrangement could be made by which all the miscellaneous work of the Court could be fully represented. As matters appear upon paper at present, less work has been done by the same number of Judges in 1883 than in preceding years; and though there may be no ground for supposing that the increase of arrears is due at all to want of attention on the part of the Judges, it is impossible, upon the facts which the report contains, to press on the Government of India the recommendation for the appointment of an additional Judge, or any increase to the pay of the present Judges.

4. The total value of the suits instituted in the Civil and Revenue Courts in the Court of Small Causes was Rs. 19,89,465, being Rs. 1,61,122

more than in 1882. Yet a decrease took place in the number of suits of every description, except of title and other suits of values not exceeding Rs. 500, and of suits of values not exceeding Rs. 5,000. The increase in the preceding year amounted to nearly a lakh of rupees. It seems, therefore, likely that a more frequent recourse will be had to the Court for the disposal of causes of the higher values, the inconveniences and expenses which harass the smaller not affecting the richer suitors to the same extent, even if those inconveniences and expenses were to remain unremoved. Parties will probably also avail themselves to a larger extent of the provisions of section 20 of the Act, to bring within its simpler procedure suits beyond its ordinary limited jurisdiction.

5. The forms of statistical returns prescribed by the Government of India, by Resolution Nos. 384-87, dated 14th March 1883, will for the future supply all the necessary information given by statements 1 to 6, and the latter may for the future be omitted from the annual report.

6. A note should be made in the body of future reports, regarding the number and average value of suits tried by consent of parties under section 20 of Act XV of 1882, and also regarding the manner in which the work of the Court was distributed.

ORDER.—Ordered that a copy of the above Resolution be communicated to the Judges of the Calcutta Court of Small Causes.

Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

CALCUTTA,
The 7th May 1884.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE WEEK ENDING 2ND MAY 1884.

THE past week has been similar in its meteorological features to the previous week. Pressure was generally above the normal amount, temperature below the average of the period, and the atmosphere slightly disturbed. This was mainly due to the fact that southerly and easterly winds prevailed steadily over the whole Province with the exception of the Shahabad and Gya districts of South Behar and Chutia Nagpur. Thunder-storms with rain hence occurred at intervals in Bengal and Orissa and gave moderate rain, less in amount than last week, and more unequally distributed.

Atmospheric pressure.—The barometer was very high at the beginning of the week under review and very considerably above the normal height. It was about an eighth of an inch above the mean of the day on the 26th in all parts of the Province. It fell slowly and steadily through upwards of a fifth of an inch until the 30th, when it was slightly below the average height. It then began to rise and was rising at the end of the week. The mean pressure of the week was hence above the average throughout the Province by nearly the same amounts as last week. The excess was greatest in East Bengal, North Behar, and probably North Bengal, for which it averaged ·05″. In South Behar, South-West Bengal and Orissa pressure was ·03″ in excess, and in Chutia Nagpur ·01″. Pressure was, relatively to the remainder of the Province, lowest in Chutia Nagpur and the western districts of South-West Bengal.

Temperature.—The temperature of the week was generally below the average of the period in consequence of the continuance of moist sea winds over the greater part of the Province, and the occasional occurrence of thunder-showers. The effects of these conditions were least marked in Behar and Chutia Nagpur, where temperature consequently increased to some extent. Higher maximum in shade thermometer readings were recorded in Behar and West Bengal than during the preceding week. The following are the highest temperatures at all stations where the maximum exceeded 105° during the week :—

Gya	...	...	108·8° on the 30th April.
Midnapore	...	...	107·9° „ 1st May.
Chyebassa	...	...	107·9° „ 2nd „
Dehree	...	...	107·5° „ 29th, 30th April and 2nd May.
Raniguni	...	...	107·3° „ 2nd May.
Bankipore	...	...	105·6° „ 1st „
Chapra	...	...	105·5° „ 2nd „
Arrah	...	...	105·4° „ 30th April and 1st May.
Cuttack	...	...	105·4° „ 30th April and 2nd May.

Temperature generally increased in the western districts of the Province until the 30th, after which it varied little. Over the greater part of Bengal the fluctuations of the temperature depended almost entirely upon the occurrence of rain.

The mean temperature was considerably below the average in Bengal and North Behar. In Central and East Bengal the deficiency ranged from 1½° to 4° and averaged 2½°. In North Behar it was 3°. In the western districts of South-West Bengal, Orissa (excepting False Point), Chutia Nagpur, and South Behar the mean temperature of the week varied very slightly from the normal, but was generally in defect

Winds.—They were generally the same in direction as were established during the preceding week. Southerly winds prevailed in South-Bengal, south-easterly winds in East Bengal, and easterly winds in North and Central Behar. Winds were variable in direction in the Gya and Shahabad districts of South Behar and in Chutia Nagpur. Westerly winds, the continuation of the dry winds of Upper and Central India, however, predominated.

Humidity.—The air was more humid than usual in all parts of the Province, except the Gya and Shahabad districts and Chutia Nagpur. The following are the lowest humidities observed during the week in these districts :—

Dehree	...	...	...	8 per cent. on April 30th.
Hazaribagh	...	...	...	9 „ on May 1st.
Gya	...	...	...	11 „ on April 28th.
Ranchee	...	...	...	16 „ on „ 28th.
Chyebassa	...	...	...	21 „ on May 1st.

Rainfall.—The rainfall of the week occurred under similar conditions to that of the preceding week. It fell most abundantly in the neighbourhood of the hills in East and North Bengal. The Chittagong, Noakholly, Comillah, Mymensingh, Furreedpore, Bogra, Pubna, Rungpore, Julpigori and Darjeeling Hill districts received from fifty to a hundred per cent. more rain than the normal. The Moorshedabad and Nuddea districts in South-West Bengal received several heavy showers which gave rainfall slightly in excess. Over the remainder of Bengal and in Orissa the rainfall was moderate in amount. The Purneah district in North Behar received fair rain, which gave it an average slightly in excess. It fell, however, mainly in the neighbourhood of the hills.

Over the remainder of Behar and in Chutia Nagpur no rain, with the exception of a few light showers of no importance, fell. In consequence of the unusually heavy rain of the previous week, the rainfall of the month is in excess in all districts of Bengal and Orissa, excepting the 24-Pergunnahs, Howrah, and Hooghly, where it is very slightly below the average, and in the Purneah district of North Behar. It is below the average generally in Behar and Chutia Nagpur, in which the weather was unusually dry.

General rain fell in East and North Bengal, and the northern and eastern districts of South-West Bengal, on the 26th, 27th, and 28th. During the next two days showers occurred in Orissa. On the first of May heavy thunder-showers occurred in the northern districts of East Bengal. The second was a day of general rainfall over nearly the whole of Bengal. The only rainfalls exceeding two inches registered during the week were—

3·57	inches at	Serajgunge on the	2nd May.
2·65	,,	at Chandpore ,,	2nd May.
2·5	,,	,, ,,	26th April.

2·25	,,	at Brahcrunbaria

and 2·1	,,	at Netrokona ,,	1st May.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

THE first class Municipalities in Bengal presented, during the week ending 19th April 1884, a birth-rate of 22·2 per 1,000 of population, against the same proportion in the preceding week ending 12th April; and a death-rate of 44·6 per 1,000, against 45·5 per 1,000. A reduction is thus seen in the number of deaths registered.

(2) The Municipalities which returned the highest proportions of births and deaths were—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Serampore	39·2	Beauleah	99·8
Santipore	38·5	Jessore	79·6
Durbhanga	38·5	Bhagulpore	76·0
Ranaghat	36·0	Utterpara	75·5

		Patna	51·0
		Howrah	48·7
		Burdwan	44·2
		Kishnaghur	34·1
		Santipore	33·3
		Dacca	32·4

(3) The mortality from the principal diseases (mentioned below) contrasted with the death-rates from the same causes in the preceding week, stands as follows :—

	Ratio per mille during the weeks ending—	
	19th April 1884.	12th April 1884.
Cholera	13·0	15·2
Small-pox	5·6	6·2
Fever	14·2	12·5
Bowel-complaints	4·4	3·9
Injury	·3	·2
Other causes	7·0	7·5

The noticeable features indicated by the above figures are that, in comparison with the outcome of the preceding week, there was a sensible abatement in the death-rates from cholera and small-pox, particularly from the first-named disease, and an increase of mortality from fever and bowel-complaints.

(4) Excluding the casualties from violence which were nowhere noticeably great, the above-mentioned diseases proved most fatal to life in the following Municipalities :—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other causes*	Ratio per mille.
Beauleah ...	73·5	Bhagulpore ...	38·1	Purneah ...	45·0	Patna ...	11·4	Purneah ...	17·3

Beauleah, Jessore, the Suburbs of Calcutta, Howrah, Utterpara, Kishnaghur and Serampore appear to have suffered inordinately from cholera; Bhagulpore, Gya and Patna from small-pox; and Purneah and Ranaghat from fever.

(5) The death-rates under the heads of *Sex*, *Class* and *Age* stands as noted below :—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community taken in February 1881 was not reliable, owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·2° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

GENERAL REMARKS AND EXPLANATIONS

In comparison with the traffic of last March, as against that of the month under review, a steady and satisfactory increase has to be recorded under almost every item of traffic. The principal increases are in food-grain, miscellaneous, piece-goods, and salt. On the other hand, however, the decrease in jute and gunny, which commenced in last December, continues, and counterbalances any good resulting from the increase under all other heads. Taken together the falling off under these two staples amounts to the considerable figure of 8,315·08 tons. The gross weight lifted during the month is 15,506·86 tons against 21,526·49 tons, leaving a decrease of 6,019·63 tons as the result.

Increases.

Ale ... ... Tons 2·94

At this time of the year the Commissariat despatches of this article commence.

Food-grain . ... Tons 541·51

Despatches in paddy and seeds account for this increase. The traffic in rice has fallen off both upwards and downwards. The following figures will explain this:—

	March 1883.	March 1884.
	Tons.	Tons.
Rice	2,039 23	997·46
Paddy	498·23	1,100·99
Seeds	105·40	1,085·92

Ginger ... ... Tons 104·82

After many months of depression the traffic in this article appears to be reviving.

Miscellaneous ... ... Tons 245·27

A considerable quantity of machinery stores, &c., have been coming forward.

Piece-goods ... ... Tons 73·80

Though there appears to be but little demand for the mofussil, advantage is being taken of the present dry weather to replenish local stocks.

Railway material ... ... Tons 1,037·19

As usual, stores for the Dinagepore Extension and Locomotive Coal make up this increase.

Salt ... ... Tons 351·91

Large stocks in Calcutta and favourable prices are naturally stimulating this traffic.

Tea ... ... Tons 1·17

It is probable that this is a sample consignment of the new crop.

Decreases.

Gunny-bags ... ... Tons 1,284·21

So long as the jute market remains in its present depressed state, this industry cannot revive.

Jute .... Tons 7,030·87

There has been little or no change in the prospect of this traffic. The market remains without animation.

Sugar ... ... Tons 9·19

The market remains unchanged.

Tobacco ... ... Tons 5

The heavy traffic done in this staple last month will account for this small falling off.

NOTIFICATION.

The 7th May 1884.—In the notification, dated the 9th August 1883, published at page 724, Part I of the *Calcutta Gazette* dated the 29th idem, the boundary between the districts of Sylhet and Hill Tipperah was by an oversight described as terminating at the Chatterchoora or Kaylalyan Hill Station. To rectify this mistake, the Lieutenant-Governor now declares that the following is the correct boundary between the districts of Sylhet and Hill Tipperah :—

The common boundary between Sylhet and Hill Tipperah commences westward at the Khueajuri nuddee, and from that river to Iktiarpur masonry pillar is as laid down on the Revenue Survey Maps of seasons 1860-61. Thence it extends eastward to a point on the Lungai river due west of the Chatterchoora or Kaylalyan Hill Station, as defined on the maps of seasons 1860-65, and marked on the ground by *pucca* pillars ordered by Government letter No. 1265, dated the 31st March 1865, from the Secretary to the Government of Bengal, to the Surveyor-General of India. Thence the Sylhet boundary beyond this river extends eastward to the Chatterchoora or Kaylalyan Hill Station, as defined on the Revenue Survey Maps of seasons 1860-65.

Report by the Comptroller-General on Savings Banks in India for the year 1882-83 and its appended statements.

ORDER.—Ordered that the Report (omitting paragraph 9) and its appendices be published in the *Gazette of India* for general information.

No. 115, dated 28th December 1883.

From—E. T. ATKINSON, Esq., Officiating Comptroller-General,
To—The Secy. to the Govt. of India, Dept. of Finance and Commerce.

I HAVE the honour to submit my report on Savings Banks in India for the year 1882-83

2. I have nothing special to report, except that Post Office Savings Banks were established during this year, and transfer to them of depositors from District Savings Banks were freely permitted under Financial Department Resolution No. 1460, dated 2nd June 1882. These, however, have not occurred to any great extent, as will be seen from the subjoined statement.

Transfers from Post Office Savings Banks to District Savings Banks.	Balance which would have existed on 31st March 1883, but for transfers to Post Office Savings Banks.

3. The number of banks open at the close of 1881-82 was 362 and at the end of 1882-83 350, the decrease of 12 being on account of the amalgamation of two Railway Banks with others and the closure of another, and to the reduction of nine Regimental Banks owing probably to the presence of a smaller European force. The particulars given in the margin indicate the number of District Savings Banks open in each Province, and the total number of Presidency, Railway, and Regimental Savings Banks in India.

Financial Despatch from the Secretary of State, No. 46, dated 27th January 1881, directing that the Comptroller General be requested to prepare annually a report comparing the accounts of the last year with the Budget of that year and with the accounts of the preceding year, with explanations of any important variations, and requesting an expression of the views of the Government of India regarding the expediency of delegating the duty of making an appropriation audit to the Comptroller General or to another officer free from all administrative functions.

Despatch from the Secretary of State, No. 103, dated 23rd March 1882, replying to the Despatch from the Government of India, dated 1st October 1881.

Despatch from the Government of India, No. 278, dated 8th September 1882, containing the final proposals of the Government of India on the subject of an annual appropriation audit.

Despatch from the Secretary of State, No. 401, dated 21st December 1882, conveying his approval of the recommendations made by the Government of India in the Despatch No. 278, dated 8th September 1882, above quoted.

RESOLUTION.—The question of the expediency of establishing in India an independent appropriation audit, to supplement the existing departmental audit, was raised by the Committee appointed in 1880, by the Secretary of State for India, to inquire into the system of military account and estimate in India. This question was connected rather with the general system of accounts in India than with that of the military accounts; but as the matter had come to the notice of the Committee, they submitted recommendations on the subject to the Secretary of State. The Committee were not unanimous in opinion, but the recommendation made in the body of their report was to the effect that the appropriation audit should be made by the Comptroller General.

As a complete audit in detail of every charge against the vouchers was effected by the local and departmental account officers, and as abstract statements of the results of this departmental audit were submitted month by month to the Comptroller General, the Committee were of opinion that the Comptroller General should carry out the appropriation audit from the materials thus supplied to him, and that he should be required to submit an annual comparison and report to the Governor General in Council.

In reply to the objection that by reason of his being entrusted with certain executive and administrative functions the Comptroller General could not be regarded as an altogether independent auditor, it was observed that, owing to the circumstances of the country, the Comptroller General did not, like the Auditor General in England, audit the accounts with vouchers, but could only exercise the functions of appropriation auditor by reviewing the results after examination of the materials received from his Sub-Accountants, and for this purpose it was considered that the office of Comptroller General as at that time established was sufficiently independent.

2. In forwarding the report of the Committee to the Government of India, the Secretary of State requested that the Comptroller General should be instructed to prepare annually a report comparing the accounts of each year with the estimates for that year and with the accounts of the preceding year, with explanations of any important variations; the report to be considered by the Government of India and forwarded with such remarks as might seem necessary to the Secretary of State for India. At the same time the Secretary of State requested an expression of the opinion of the Government of India regarding the expediency of delegating the duty of conducting the appropriation audit to the Comptroller General, or to another officer free from all administrative functions.

The recommendations which were made in the first instance by the Government of India involved the appointment of a separate and independent Auditor General with a staff of subordinate auditors at a total cost of rather more than one and a half lakhs of rupees per annum. On further consideration, however, doubts were felt regarding the applicability to India of the principle which regulates the appointment of an Auditor General in England. In the United Kingdom the supplies are annually voted by Parliament, which exercises a very jealous control over the Executive Government in the disposal of those supplies, and requires that an officer, independent of the Executive Government,

shall report to it whether the law has been in all cases observed, and the moneys distributed according to the intention of the House of Commons. In India the case is different, as the allotment of supplies is made by the Governor General in Council, and it is, primarily for his satisfaction that an appropriation audit is needed, in order that he may have brought before him in a clear and precise manner any deviations which have occurred in the expenditure of the year from the original intentions of the budget. It was evident that this object could be attained without the appointment of an officer independent of the Government of India, and without incurring the considerable expenditure involved in the appointment of a separate officer; as the report was to be made to, and for the information of, the Governor General in Council, there was no object to be gained by the appointment of an officer who would be wholly independent of the Government of India.

3. On reconsideration of the whole subject, and with reference to the wishes of Her Majesty's Secretary of State for India, the Government of India finally recommended, and the Secretary of State sanctioned, the following arrangements:—

I.—The appropriation audit should be made by the Comptroller General, who, in order to give due prominence to his special duties of audit, should be designated Comptroller and Auditor General.

II.—The Comptroller General should be relieved of the executive work which he performed in his capacity of Accountant General in respect of the treasuries classed under "India."

III.—The Comptroller General should be authorized to undertake a test audit in any of the offices of Account and Audit under the Government of India, whenever he deemed it desirable to do so.

IV.—An addition should be made to the staff of the Comptroller General to enable him to carry out the above duties.

V.—The various Accountants General (including those of the Military and Public Works Departments) or heads of Departments of audit and account should be required to submit annually an appropriation audit report to the Auditor General, who would compile his report from the materials supplied to him and forward it to the Government of India.

4. In pursuance of these arrangements, the Governor General in Council is now pleased to formally appoint the Comptroller General to be Comptroller and Auditor General, and to direct that each Accountant General, including in the term the Military and Public Works Accountants General, and each head of a separate Audit Department, shall prepare and forward to the Comptroller and Auditor General each year an appropriation audit report of the Province or Department of which he compiles the accounts.

Two officers have already been appointed to class I of the enrolled list of the Financial Department, of whom one, under the title of Comptroller of Indian Treasuries, will have charge of the duties connected with the treasuries immediately under the Government of India, the examination and audit of the daily cash transactions of the Government with the Bank of Bengal at Calcutta, the accounts and expenditure by offices and establishments serving directly under the Government of India, and the accounts of interest of the public debt.

The second of these officers, under the title of Deputy Auditor General, and the former Inspector of Local Accounts, who will now receive the same title of Deputy Auditor General, will be employed on the duties of test audit and inspection.

5. The offices and accounts of the Controllers of Military Accounts (including their Examiners), of the Examiners of Public Works Accounts (including Telegraph), and of the Comptroller to the Post Office, have already been declared to be open to the inspection of the Comptroller General and his inspecting officers, and similar authority is now delegated to the Auditor General and his staff. The Comptroller and Auditor General, in person or by his Deputies, is not merely entitled to inspect the offices and accounts in question, but also to make a test audit of so much of the accounts of any office as he may consider necessary; and the auditing or inspecting officer is entitled to enter any branch of the office, to call for any documents, and to ask for any information he may require for the purposes of his audit or inspection, and it will be the duty of the heads of all departments to supply such information, and to afford every reasonable facility for making a test audit.

The arrangements indicated in these last paragraphs have in fact already been brought into operation, and the offices of the Controller of Military Accounts, Bengal, and of the Accountant General, Madras, have already been audited.

6. The following duties will remain with the Comptroller and Auditor General, in addition to his general duty of supervising and directing the work of the Civil Accountants General and Comptrollers:—

(1) Compilation of the Central Accounts, both monthly and yearly.
(2) Compilation of estimates and comparison of current facts therewith.
(3) Appropriation audit.
(4) Audit and inspection of all offices of Account.
(5) Management of the Paper Currency Department.
(6) Control of *personnel* of Civil Department of Account.

(7) Resource—that is, the providing of money both by increasing the balances as a whole, and by transferring them to the points whence they are required.
(8) Management of the Public Debt, now including Stock Notes.
(9) Accounts of the District Savings Banks.
(10) Adjustment of accounts of Guaranteed Railways.
(11) Account with London and with the Colonies.
(12) Management of Reserve Treasuries and of the Bank balances.
(13) Central accounts and custody of securities held in trust by Government officers.
(14) General direction of coinage and mint operations.
(15) Verification of deposit, advance, and other debt balances.
(16) Collection of mutual accounts of accounting officers.
(17) Audit of such accounts as Administrator General's and other Law Officers', and Emigration Agencies of Colonies.
(18) The Accounts of the Forest Department.
(19) Examination of accounts of Service Funds.

ORDERED, that this Resolution be communicated to the several Local Governments and Administrations, the Comptroller General, the several Accountants General and Comptrollers, the Military Department and the Public Works Department.

Ordered also, that the Resolution be published in the *Gazette of India* for general information.

Abstract of a report by the Chairman of the District Road Cess Committee, Bankoora, on the Committee's operations for the cess year 1882-83.

THE road cess was levied at the maximum rate in the district during the year under report. It was on the whole realized without much difficulty. Out of the actual demand of Rs. 39,776, from cess on lands and mines, Rs. 36,775 were realized up to the end of the year, leaving a balance (inclusive of Rs. 9 remitted) of Rs. 3,001 unrealized, of which Rs. 1,675 were outstanding against the Ghatwali, and Rs. 1,317 against the revenue-paying and revenue-free estates. Partial revaluations under the Cess Act IX (B.C.) of 1880, are still in progress in this district.

Twelve non-official members of the District Committee, having failed to attend six consecutive meetings ceased to be members under section 115 of the Act. Seven of them, however, have been reappointed by Government, and three new members have also been appointed in the place of two deceased, and one unwilling to continue on the list. The attendance of the non-official members was not satisfactory.

Six (one official and five non-official) members of the Branch Committee of Bishenpore have become disqualified members, having been absent at six consecutive meetings. The attendance of the other members has been reported by the Chairman of the Branch Committee to be satisfactory.

The following are the works of important nature that were executed under the head "Original Works" during the year:—

Indas and Kotulpore Road.—The construction of this new line of communication was commenced in January 1882. The total estimated cost of the work as sanctioned by Government was Rs. 9,893. Up to the end of the year under report the Committee have been able to allot up to Rs. 7,500. The remainder of the estimated cost has been allotted in the current year's budget. The District Engineer reports that the work has now been completed, with the exception of turfing, which could not be done for want of rain.

Indpur and Khatra Road.—This road is about 12 miles in length, and has been commenced at the Khatra end. The last five miles of it, from Rangamatia to Khatra, were sanctioned by Government during the cess year 1881-82. The District Engineer reports that the temporary survey staff has already commenced the detailed survey of the remaining seven miles, and the necessary project will be prepared and submitted in due course. The progress made in the construction of the last five miles has been reported as fair.

Pilgrim Road.—The construction of this road outside round the town of Bankoora has for its object the preservation of the town from the contagion from the pilgrims *en route* to

Juggernath. The work was completed and paid for during the year. There is a culvert wanting over a gap.

Panighar Railway Station and Bishenpore road.—The metalling of the last 7 miles of the railway feeder road from Panighar to Bishenpore was completed and finally paid for during the year. The work done on it has been reported to be satisfactory.

Taldangra and Raipore road.—The necessary project for this road has been submitted to the Divisional Superintendent. He has, however, called for an estimate for a bridge over the Joypanda which is under preparation by the District Engineer under the instructions of the Divisional Superintendent. The bridge, however, will be beyond the means of the Committee for many years to come, and it is hoped the rules of the department will not prevent putting in hand the worst portion near Taldangra, about two miles in extent, by which means through traffic will be secured, as the land from this point to Raipore is comparatively high.

Raipore—Salboni road.—The next work worthy of notice under the head was the construction of a road from Raipore to Salbani in the Midnapore district. This road will afford very great benefit to the people of Raipore who have scarcely any means of access to the trading centres for the disposal of their produce. The work was in progress during the year and will be completed ere long. Every possible attempts are being made to open up this tract of country with means of communication.

Village roads.—About 25 village roads were constructed in the district during the year, 12 in the Sudder and 13 in the Bishenpore Sub-Division. Eleven unfinished village roads of the previous years were also completed during the year under report The total subscription in money or labour received from the villages was Rs. 677. The work of the improvement of village roads is now administered by the Committees themselves without the aid of the Engineering Establishment.

The planting of trees on the road sides which forms an item under head "Original works" deserves mention. It was carried on as previously under the contract system, and on three roads only partially by the establishment of paid coolies. 3,745 trees planted during the previous years were properly maintained during the year under report. There were some cases of failure, but on the whole the work was, as the District Engineer reports, satisfactorily done.

The objectionable procedure of keeping repair works unfinished and unpaid at the end of the year has been put a stop to. All the repair works of the year under review were completed and finally paid for before the year closed. Unfortunately as this was not contemplated when the budget was framed, no provision was made for short collections and cost of establishment in first quarter, the result has been that the account stands overdrawn. This will, however, be covered by the Government contribution of one-third towards the cost of revaluation now due for two years and for which application has been made.

DWARKANATH SEN,

For Chairman.

Abstract of a Report by the Chairman of the District Road Cess Committee, Midnapore, on the Committee's operations for the cess year 1882-83.

THE percentage of average attendance of members was 36·06, while that of the previous year was 37·70. During the year under report there were six meetings of the Branch Committee at Tumlook, and two meetings at Contai. In all the meetings of the Branch Committees there was quorum.

All the main line of communications, particularly metalled roads, received renewal coats of metal, and petty repairs to metalling where necessary, so that at the beginning of the new cess year 1883-84 the roads were found in good order. All the unmettalled roads received necessary repairs, and were never unfit for fair weather wheeled traffic.

The following are the most important and noteworthy works under the head of "Original Works" in the course of execution or executed during the year :—

(*a.*) Some small culverts have been made on road No. 3, Lodhasye to Panihatty for the purpose of irrigation, as well as to discharge surface drainage of the country.

(*b.*) About 3 miles of the most muddy portions of the Bombay road have been metalled towards the frontier to the great convenience of the public, and the road hitherto remaining in an impassable state has been opened to traffic.

(*c.*) The remaining portion of the causeway in the 17th mile of Road No. 6, Burdwan Road, has been completed, and the injuries to which the road was hitherto subject from extraordinary floods have been guarded against.

(*d.*) The whole length of road No. 8, Gurbetta to Ramgurh, which was very narrow, has been widened to 20 feet so that two carts can easily pass each other.

(*e.*) The most muddy portions of road No. 9, Chunderconah to Amlajorah, have been metalled, and the road itself repaired and widened. This is one of the principal feeder roads to Ghattal Port, and the improvements made in it have apparently tended to the development of traffic.

(*f.*) The whole length of road No. 10, Chunderconah to Gohaltore, has been widened to 20 feet, and this fully meets the requirement of traffic on the road.

(*g.*) The metalling of road No. 11, Belda to Contai, has been completed. This will make communication with Contai easy, and a considerable increase of traffic on it is already observable.

(*h.*) The work of bridging road No. 12, Dahijuri to Sildah, has made much progress. It is in contemplation to metal this road next year.

(*k.*) The metalling of road No. 25-28, Ramgurh to Cossye, has been completed. It has been considered necessary to divert the portion of road No. 25 from Cossye river to Binpore, with a view to shorten its length as well as to avoid the floods of Sarafeni river, to which the present road is subject. Thus several roads linked together will form a main line of communication between Barabhoom and Ghattal.

(*l.*) The restoration of road No. 26, Chuttergung to Ramjeebunpore, has been completed.

(*m.*) The portion of road No. 29, Satpatty to Kantapaharee, traversing the dense sal jungle near Kantapaharee has been reformed, and the shortest route from Raipore to Midnapore opened.

(*n.*) Feeder road from Lutchmapore to Jonardhonepore has been completed.

(*o.*) Feeder road connecting the Cuttack Trunk Road with Mohunpore Lock on the western terminus of the Canal has been completed, with the exception of the culverts. The construction of this bit of the road has considerably increased traffic from southern quarter of the district.

Trees have been planted on some principal roads, and those planted before have been maintained and reared. Their general growth and health are promising and satisfactory.

Work on the village roads was carried out chiefly by village Punchyats, under the supervision of the Sub-Divisional Officers, and the members of the Branch Committees; and in some cases by zemindars, planters and missionaries. Chairmen of the Branch Road Cess Committes, and the officer in charge of the village roads of the sudder sub-division were as usual allowed the assistance of a Sub-Overseer from the District Road Staff during the working season for the purpose of reporting on new proposals, checking accounts, &c.

The books and accounts of the Committee have been kept with great care and very systematically.

The annual accounts were duly examined and audited by the Sub-Committee and passed at a special meeting of the Committee held on the 11th January 1884.

The late District Engineer, Mr. Mackennie, having resigned his appointment the work has been carried on pending the arrival of his successor by the Head Overseer, Baboo Chunder Sikher Doss, who deserves much credit for the manner in which he has discharged this unusually responsible duty. The Subordinate Executive Staff have generally worked satisfactorily.

Explanatory memorandum to accompany the annual accounts.

Receipt side.—In the annual account a sum of Rs. 3,678-5-11 has been shown as "interest" on the arrear of Road Cess, but the progressive total of the monthly return for September 1883 shows Rs. 3,473-5-9 only against that head, that is less by Rs. 205-1-2. The collection of interest Rs. 205-0-2 for February 1883 was erroneously shown in the monthly return for that month against the head of "Miscellaneous" as before. This has now been transferred to its proper head.

2. The sum of Rs. 1,853-6-4 being contribution out of collection from Government Estates was shown under the head of "Miscellaneous" in the monthly account for March 1883 as usual, but in the annual account this sum has been shown under the head "Grant from Government" agreeably to the instructions conveyed in the Accountant-General's, Bengal, audit notes Nos. 063L—F, dated 16th June 1883, and 0148L—F, dated 17th September 1883.

3. *Expenditure side.*—The expenditure as shown in the annual account under the head of "Original" and "Repairs" is Rs. 51,970-5-9 and Rs. 91,500-9-10, while the expenditure in the monthly account against those heads amounts to Rs. 52,062-3-6 and Rs. 91,408-12-1 respectively, that is the expenditure of "original work" has been decreased by Rs. 91-13-9 and that of "repairs" increased by the same amount. The reason of this difference is that out of the materials collected and manufactured for original work, and the cost of which formerly charged to that head, materials worth Rs. 91-13-9 have subsequently been transferred to the head of "repairs" for repairing bridges, culverts, bungalows, &c.

4. According to previous instructions on the subject the sum of Rs. 1,558 being contributions on account of the Divisional Superintendent of Works and his Establishment was shown under "Establishment Public Works" in the monthly accounts for March 1883. In the annual account the total charges on that account for the year have been shown under distinct heading "Establishment of Divisional Superintendent of Works," *vide* Accountant-General's Circular No. 7, dated 6th July 1883.

5. In the monthly account for June 1883 there appears to have been a discrepancy of annas ten in the progressive total of heading "advance—suspense account." This discrepancy has been reconciled in the annual account. The progressive total should be Rs. 26,323-2 instead of Rs. 26,323-12.

6. The figures of the quarterly returns for the 1st, 2nd and 3rd quarters have been compared with those of the monthly accounts of this office and their sums total found to be correct. But it is not understood how the figures under the sub-heads of "Miscellaneous" in the 3rd Quarterly Returns have been arrived at. The total amount under the general head "miscellaneous" agrees, and it is only in the distribution of the total amount under the sub-heads that the quarterly return does not tally with the accounts submitted by this office. The Accountant-General will have to be asked on what principle the distribution has been made.

7. Under orders of Accountant-General, Bengal, Circular No. 7, dated 6th July 1883 the charges on account of the Divisional Superintendent of works ought to have been, entered in a separate heading, but in the Quarterly Return they have been shown under the head of "Establishment, Public Works."

Abstract of a report by the Vice-Chairman of the District Road Cess Committee, Hooghly, on the Committee's operations for the cess year 1882-83.

There has been an increase in the total length of roads under the District Road Cess Committee during the past cess year 1882-83, as shown below:—

	1881-82. M.	FT.	1882-83. M.	FT.
Metalled roads	70	87	74	87
Unmetalled roads	357	61	365	61

All repairs to roads as estimated in the Budget estimate were undertaken and duly completed within the cess year, with the exception of the Dhaniakhali road, and the road from Howrah to Jogutbullubpore, which were completed on the third week of October, and the first week of November 1883. Owing to the failure of the contractor in charge of the Jugutbullubpore road to supply materials in time, the delay was inevitable. The scarcity of rain during the latter part of the autumn of 1883, interfered with the early completion of the Dhaniakhali road. There is always heavy traffic on these two roads, and the completion of their metalling has been very great convenience to the public.

The road from Bydebatty to Bhola, being part of the road to Tarkessur, was kept in tolerable repair all throughout the year. But the want of funds and the heavy traffic carried on this road made it impossible to keep it in that state of repairs which the public expected.

The estimate for the iron girder bridge over the Mohiary khall was sanctioned in 1881-82, but no steps were taken for its construction in that year. It was only during the past year that it was undertaken, completed, and opened to traffic.

The estimate for the bridge over the Ari khall was sanctioned in April 1883, and its construction was taken in hand in the June following. Though the heavy rains of July temporarily retarded its progress, it was completed within the cess year with exception of the rails which have been since put up.

The general condition of the bridges in the district is fair, but that of the roads, both metalled and unmetalled, on which there was much cart traffic, is not at all satisfactory.

The state of the roads under Class II was much improved in the Pandua, Hooghly, and Howrah sub-divisions. The roads in the Jehanabad sub-division are yet in a very backward condition. They have been neglected since the transfer of that sub-division from Burdwan to this district. Last year estimates were framed for bringing two of the roads into a proper state of repair, and sanctioned by the Chairman, but for want of funds nothing could be done, and the roads are now in the same state as they were before.

The village roads were repaired by the local sub-committees, zemindars, and village head-men, whose work was generally satisfactory. In many instances the grants from the Committee were supplemented by local contributions. But no steps were taken to supervise the work on the village roads by any responsible agency. Measures have been taken to remove this irregularity from the present year.

The experiment of planting fruit trees has to some extent been successful. Rs. 1,081 were spent in planting fruit-trees on the Pandua to Culna, Utterpara to Kallipore, Old Benares road and Mohanad to Bhastara roads. Altogether 1,000 mangoe, mahogny, teak, and other grafts were planted during the year. The mahogny and teak plants were obtained from the Botanical garden.

The subordinate establishments of the different departments of the Road Cess gave satisfaction in the discharge of their respective duties.

The working of the Branch Committees shows that most of the members took a fair share of interest in their work.

Memorandum by the Chairman an the Annual Administration Report of the Hooghly and Howrah District Road Fund for the cess year 1882-83.

I wish to add some remarks to this report which the Vice-Chairman has prepared under section 78 of the Cess Act. As I did not join the district until the 13th November, I have not been able to see all the roads in the district, but I have seen all those in the sudder sub-division and some of those of each class in the Jehanabad and Serampore Sub-divisions. I propose to divide my remarks into four headings.

(*a*) Metalled road
(*b*) Unmetalled road } On the Committee's list.
(*c*) Village roads.
(*d*) Tree planting.

(*a.*) The metalled roads which I have seen are not in good order. They are all metalled with brick (with the exception of the Baidyabati to Bhola road), and the traffic on them is very heavy, consisting chiefly of country carts laden with bricks and produce to and from the East Indian Railway and river Hooghly.

The conditions are such as render it almost impossible to keep these roads in good order. They are repaired once a year or less often, and are then left to take care of themselves until the next periodical repairs are done. There is no such thing as maintenance or constant petty repairs or the principle that a stitch in time saves nine. For two years the Committee has had a windfall in the shape of a large increase of collections an account of the arrears of Lakraj assessments, and this has enabled it to spend a considerable extra sum on the repairs of these roads. But when the arrear collections have been gathered in it will have to fall back on its normal yearly income of only Rs. 47,000. It is impossible with this income to keep all the roads of the district in good order, and the mileage of metalled roads tends to increase yearly without any corresponding increase of income. It becomes therefore a serious question what is to be done in the future. The Jahanabad sub-division is in crying want of communications, but cannot make its voice so well heard as those parts of the Sudder and Serampore sub-divisions which adjoin the railway. In my opinion, the only chance of avoiding a complete breakdown lies in the application of constant petty repairs to metalled roads, as opposed to heavy and costly annual biennial or triennial repairs coupled with subsequent neglect. If the former plan be adopted more active and constant supervision will be necessary on the part of the district Engineer.

(*b.*) *Unmetalled roads.*— There is not much to be said about these. When once they have been bridged it is not possible to do much good except in the way of surface repair. To throw up earth every year to be blown away as dust is mere waste of money. When the road gets thoroughly worn into ruts a new coating of earth should be given from end to end, one or more roads being taken up in this way year by year as funds are available. The state of the unmetalled roads which I have seen is generally very fair, but depends entirely on the nature of the soil and the extent and nature of the traffic. No unmetalled road in the world will stand the wear and tear of constant streams of carts with narrow tyres to their wheels. Except in the rains, the roads generally afford all reasonable facilities for wheeled traffic.

(*c.*) The matter of village roads is one to which I have devoted much attention in the sudder sub-division while the sub-divisional officers have zealously taken it up in their sub-division. I found during my tour that many villagers had applied for, and had previously obtained, grants for the repair of the village paths and streets inside the village boundary though they did not lead to any open line of communication. I refused all such applications, the want being of general communications with the outside world. It was extremely difficult to ascertain how the grants made in previous years had been expended, and the absence of any such record increased the difficulty of deciding the petitions for village roads. To obviate such inconvenience in future, and to secure the permanent record of money spent and work done in village roads, I opened two registers (the form of which are attached to this memorandum) the use of which will, I think, amply repay the slight trouble involved in keeping them up. I made do grant without making a personal and local enquiry, and the sub-divisional officers have observed the same rule. The Overseers are ordered to make periodical inspections and progress reports, and the parties who undertake the work give a stamped bond to spend the money properly and give full accounts of their expenditure; with the above precautions, money is very well and usefully spent on small village roads, but without them I consider that it is merely wasted.

(*d.*) On the subject of tree planting, I have to observe that the present principle of at once planting out seeds or very small seedlings on the roads is a wrong one. A large percentage of seedlings dies, as it is impossible to water and tend them properly, or to supervise the malees employed to look after them. Not only this, but each one requires separate protection for some eight or ten years; whereas if young plants were raised in nursery gardens, and put out when two or three feet high, one fence and one malee would do for all for at least half the time of their growth. I have introduced this change and established the principle in future working.

Generally speaking, I may say that the district is very fairly well off for communications with the exception of the Jehanabad sub-division, where difficulties of flood are severely felt. But there looms in the distance the difficulty of ever increasing wants and demands, and a stationary income to meet them. Much could be done by the District Engineer by good management and constant inspection and supervision, to remeady this, but it is nevertheless a serious matter for the future.

BIMOLA CHURN BHATTACHARJY,
For Chairman.

No. 46, dated Chinsurah, the 10th March 1884.

From—JOHN BEAMES, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour herewith to submit in original, for publication in the *Calcutta Gazette*, the annual reports and accounts of receipts and expenditure of the Road Cess Funds, of the several districts of this division as noted in the margin, for the Cess year 1882-83.

Chairman, Road Cess Committee, Bancoorah's No. 21 of 28th November 1883.
Chairman, Road Cess Committee, Burdwan's No. 81 of 19th January 1884.
Chairman, Road Cess Committee, Midnapore's No 245 of 24th January 1884.
Chairman, Road Cess Committee, Beerbhoom's No. 59 of 6th February 1884.
Chairman, Road Cess Committee, Hooghly's No. 29 of 27th February 1884.

2. The total receipts in this division during the year amounted to Rs, 8,88,969-8 inclusive of Rs. 1,55,308-14-6 the balance in hand on the 1st October 1882, and of Rs. 1,01,536-8-1 under the head of advances and deposits. The net disbursements of the year amounted to Rs. 6,73,583-5-5 exclusive of advances and refunds of deposits amounting to Rs. 1,01,623-6.

The balance remaining in hand on the 30th September 1883 is Rs. 1,13,762-2-7 including the deficit balance Rs. 1,160-9-7 in the Bancoorah district.

3. The very irregular system of allowing works of repair estimates sanctioned in any one year to run over the succeeding year or years which was in vogue in almost all the districts of this division, has been put a stop to by the careful supervision and control of the Divisional Superintendent of Works; and I am glad to note that almost all the repair works of every district, sanctioned for the past cess year, have been completed within the year.

4. Attention was paid by every District Committee towards the improvement of arboriculture. New trees have been planted on the sides of many principal roads of nearly every district, and those planted in previous years, have in most cases, been carefully preserved and maintained.

5. Attention has been paid by most of the Road Cess Committees to the improvements of village roads, though some irregularities still occur. The present Chairman of the District Road Cess Committee, Hooghly, has devoted his special attention to this important branch, as well as to the plantation of trees on road-sides. The method proposed to be adopted by him for the execution of works under the former of these two heads, appears very systematic, and is calculated to yield satisfactory results in the latter.

Any person who has resigned the office of Commissioner under section eighteen, or who has ceased to be a Commissioner in consequence of his failure to attend meetings, or in consequence of his insolvency, as provided in section twenty, may be at any time re-appointed or re-elected a Commissioner; but no person removed by the Local Government from his office under section nineteen, or who has ceased to be a Commissioner in consequence of being convicted of a non-bailable offence, may be elected or re-elected a Commissioner without the sanction of the Local Government.

Appointment of Chairman.

23. The Local Government shall appoint the Chairman of every Municipality mentioned in the second Schedule of this Act.

Every Municipality, the name of which is not included in the said Schedule, shall, at a meeting, elect one of its Commissioners to be Chairman; or may, at a meeting attended by not less than two-thirds of the Commissioners, request the Local Government to appoint a Chairman.

Every Chairman, whether appointed or elected, shall hold office for three years from the date of his appointment or election, and shall be eligible for re-appointment or re-election.

A Chairman elected under the last preceding section may at any time be removed from his office by a resolution of the Commissioners in favour of which not less than two-thirds of the whole number of the Commissioners have given their votes at a meeting specially convened for the purpose.

Election of Vice-Chairman.

25. The Commissioners at a meeting shall elect one of their own number to be Vice-Chairman. He shall hold office for three years from the date of his election, and shall be eligible for re-election on the expiration of his term of office.

The Vice-Chairman may at any time be removed from his office by a resolution of the Commissioners in favour of which not less than two-thirds of the whole number of the Commissioners shall have given their votes at a meeting specially convened for the purpose.

Tenure of office under sections 21, 24 and 25.

26. The term of three years mentioned in sections twenty-one, twenty-four, and twenty-five shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding section.

Appointment or election of Commissioner, Chairman or Vice-Chairman for unexpired term of office.

27. If any Commissioner, Chairman or Vice-Chairman shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such Commissioner, Chairman or Vice-Chairman would otherwise have continued in office.

But the Local Government may, from time to time, by notification, exclude any road, bridge, or drain from the operation of this Act, and may cancel such notification wholly or in part:

99. The Commissioners, in order to prepare the valuation list, may, whenever they think fit, by notice, require the owners or occupiers of all holdings to furnish them with returns of the rent or annual value thereof; and the Commissioners, or any person authorized by them in that behalf, at any time between sunrise and sunset, may enter, inspect, and measure any such holding after having given forty-eight hours' previous notice of their intention to the occupier thereof.

Penalty for default in furnishing return.

100. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required to do so, or knowingly makes a false or incorrect return, shall be liable to a fine not exceeding twenty rupees, and to a further daily fine not exceeding five rupees for each day during which he shall omit to furnish a true and correct return; and whoever hinders, obstructs, or prevents any Commissioner or any person appointed by the Commissioners as aforesaid, from entering, or inspecting, or measuring any such holding, shall be liable to a fine not exceeding two hundred rupees.

102. Subject to the provisions of section eighty-five, the Commissioners, at a meeting to be held before the close of the year next preceding the year to which the rate will apply, shall determine the percentage on the valuation of holdings at which the rate shall be levied, and the percentage so fixed shall remain in force until the order of the Commissioners determining such percentage shall be rescinded, and until the Commissioners at a meeting shall determine some other percentage on the valuation of holdings at which the rate will be levied from the beginning of the next year:

Provided that when this Act is first extended to any place, the first rate may be levied from the beginning of the quarter next after that in which the percentage has been fixed by the Commissioners at a meeting.

The total amount of the rates shall be payable by the owner of the house, who shall thereafter be entitled to deduct from the rent which he pays for the land such proportion of the rate so paid by him as is equal to the proportion which such rent bears to the annual value of the holding.

If the owner of the house and the owner of the land do not agree in respect of the proportion of the rate so deducted by the owner of the house, the Commissioners shall, on the application of either party, make an award declaring the amount payable by each, and such award shall be final.

Tax due from non-resident owner may be recovered from occupier and deducted by him from his rent.

105. If the sum due from the owner of any holding remains unpaid after the notice of demand has been duly served, and such owner be not resident within the Municipality, or the place of abode of such owner be unknown, the same may be recovered from the occupier for the time being of such holding, who may deduct, from the next and following payments of his rent, the amount which may be so paid by or recovered from him:

Application for reduction of assessment.

107. If the value of any holding shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the valuation of the same.

Procedure upon review.

114. Every application presented under the last preceding section shall be heard and determined by not less than three Commissioners, who shall be appointed in that behalf by the Chairman. The Commissioners so appointed, after making such inquiries as they may deem necessary, may pass such order as they shall think fit in respect of such application.

The decision of such Commissioners, or of a majority thereof, in such cases shall be final.

Limitation of time for application of review.

115. Unless good cause shall be shewn to the satisfaction of such Commissioners for extending the time allowed, and save as is otherwise expressly provided in this Act, no such application shall be received after the expiration of one month from the date of publication of the notice required by section one hundred and twelve relating to the list containing the assessment, valuation, or rating in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment at the rate in respect of which the application is made, whichever period shall last expire.

Tax payable in advance.

118. The amount due by any person on account of the tax on persons, or the rate on holdings, shall be deemed to be the amount entered in the lists the notice relating to which is published under section one hundred and twelve, unless the amount entered in such lists is subsequently altered by the Commissioners as provided in this Act; in which case the amount to which the assessment or rating is so altered shall be deemed to be the amount due.

Every instalment of such tax or rate shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

Receipts to be given.

119. For all sums paid on account of any tax or rate under this Act a receipt stating the amount and the tax or rate on account of which it is paid shall be given, signed by the tax-collector, or by

If the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

Officer may break open door.

123. The officer charged with the execution of the warrant may, under the special order of the Commissioners, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance :

Provided that he shall not enter or break open the door of any room appropriated for the zánaná, or residence of women, which, by the usage of the country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

Sale how to be conducted.

124. If the sum due be not paid with costs before the time fixed for the sale, or the warrant be not discharged or suspended by the Commissioners, the moveable property seized shall be sold by auction, at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs.

The surplus sale proceeds (if any) shall be credited to the Municipal Fund, and may be paid on demand to any person who establishes his right to the satisfaction of the Commissioners, or in a Court of competent jurisdiction.

Distress or sale not unlawful for want of form.

128. No distress or sale made under this Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect, or want

of form in the bill, notice, summons, warrant of distress, inventory, or other proceeding relating thereto.

Commissioners may bring suit instead of distraining or on failure of distress.

129. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of any tax, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

130. The Commissioners may order to be struck off the books the amount of any tax or rate which may appear to them to be irrecoverable.

On payment of tax, Commissioners to give a license.

135. On receiving the amount of the tax due as aforesaid, the Commissioners, or some person authorised by them in that behalf, shall give to the person paying the same a license for the several carriages, horses, and other animals for the period in respect of which the amount is received.

Such license shall be for the current half-year and no longer.

Carriage, &c., liable to tax although the owner be absent.

136. Whenever the owner of any carriage, horse, or other animal liable to pay the said tax is not resident within the limits of the Municipality to the Commissioners of which the tax is due, the person in whose immediate possession the carriage, horse, or other animal is for the time being kept shall take out a license for the same.

Penalty.

137. Whoever keeps, or is in possession of, any carriage, horse, or other animal, without the license required by any of the three last preceding sections, shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, exclusive of the amount so payable.

138. The Commissioners, at their discretion, may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages or animals for hire, for a certain sum to be paid for the carriages or animals so kept by such person, in lieu of the tax at the rates specified in any order made by the Commissioners under sections one hundred and thirty-one and one hundred and thirty-two.

Power to inspect stable, &c., and to summon persons liable to the payment of the tax.

140. The Commissioners, or any person authorized by them in that behalf, may, at any time between sunrise and sunset, enter and inspect any stable or coach-house, or any place wherein they may have reason to believe that there is any carriage, horse, or other animal liable to the tax, for which a license has not been duly taken out.

And the Commissioners may summon any person whom they have reason to believe to be liable to the payment of any such tax, or any servant of such person, and may examine such person or servant as to the number and description of the carriages, horses, and other animals in respect of which such person is liable to be taxed.

141. On proof being given to the satisfaction of the Commissioners that a carriage, horse, or other animal for which a license has been taken out for any half-year has ceased to be kept or to be used within the Municipality during the course of such half-year, the Commissioners shall order a refund of so much of the tax for the half-year as shall bear the same proportion to the whole tax for the half-year as the period during which such carriage, horse, or other animal has not been kept or used in the Municipality bears to the half-year; but no such refund shall be allowed unless notice be given to the Commissioners within one month of the time when such use of such carriage, horse, or other animal ceased, and, except for special cause shown, the Commissioners shall pass no order for refund until after the close of the half-year in respect of which the refund is claimed.

Existing toll-bars.

157. The Local Government may, with the consent of the Commissioners at a meeting, make over to the Commissioners any existing toll-bar within the limits of the Municipality, to be administered by them until the Local Government

shall otherwise direct; every toll-bar while so administered shall be deemed to be a Municipal toll-bar, and the profits derivable therefrom, or such part thereof as shall be agreed upon between the Local Government and the Commissioners, shall be carried to the credit of the Municipal Fund.

Commissioners may establish toll-bar.

158. The Commissioners at a meeting, with the sanction of the Local Government, may establish a toll-bar and levy tolls on any bridge or metalled road which they may have constructed after the commencement of this Act, or at any place within the Municipality adjacent to such bridge or metalled road at which tolls may conveniently be levied on vehicles and animals passing over such bridge or road; and the profits derivable therefrom shall be carried to the credit of the Municipal Fund:

Provided that no such toll-bar shall be established, or tolls levied, otherwise than for the purpose of recovering the expenses incurred in constructing such bridge or road, and in maintaining such bridge or road in repair for the five years next after the construction thereof, together with interest on such expenses as hereinafter provided.

Commissioners to publish expenses, &c., of toll-bars.

159. Whenever a toll-bar shall have been established, and tolls shall be levied, as provided in the last preceding section, the Commissioners shall at the end of each year publish, by causing it to be posted up at their office, an abstract account shewing—

(1) the amount of expenses incurred in the construction of such bridge or road, and in the maintenance of the same;

(2) the amount of interest which has accrued due thereon, at the annual rate of six per centum; and

(3) the amount which has been received from the profits of the said toll-bars since its establishment.

And as soon as such expenses and interest shall have been recovered as aforesaid, such toll-bars shall be removed, and tolls shall no longer be levied on such bridge or road.

Rates of tolls to be established and published.

160. When it has been determined that tolls shall be levied on any such bridge or road, the Commissioners at a meeting shall make and publish an order, with the sanction of the Commissioner of the Division, specifying the rates at which such tolls shall be levied.

Such rates may from time to time be varied with the like sanction.

162. Whoever, having driven any vehicle or animal (not exempted from toll) through a toll-gate, refuses to pay the toll, or, with intent to evade payment of the toll, fraudulently avoids passing through such toll-gate, shall be liable to a fine not exceeding fifty rupees.

In case of non-payment of toll, vehicle, &c., may be seized and sold.

163. If the toll due on any vehicle or animal is not paid on demand, the person authorized to collect the same may seize such vehicle or animal, or any part of its burden of sufficient value to defray the toll, and shall give immediate notice of such seizure to the Commissioners.

After such seizure, the Commissioners shall forthwith issue a notice in writing that, after the expiration of ten days, they will sell the property seized by auction at such place as they may state in the notice; and if any toll, together with the cost arising from such seizure and custody, remain undischarged for ten days after the issue of such notice, the Commissioners may sell the property seized, for discharge of the toll, and of all expenses occasioned by such non-payment, seizure, custody and sale.

The surplus sale proceeds (if any) shall be credited to the Municipal Fund, and may be paid on demand to any person who establishes his right to the satisfaction of the Commissioners, or in a Court of competent jurisdiction.

Provided that if, at any time before the sale has been concluded, the person whose property has been seized shall tender to the Commissioners, or to the officer appointed by them to sell the property, the amount of all the expenses incurred and of the toll payable, the Commissioners shall forthwith release the property seized.

Notwithstanding anything contained in this section, the surplus of the sale proceeds of any property seized under this section may be devoted to the payment of any fine imposed under the last preceding section; and any property which has been seized under this section may be sold for the realization of any such fine.

175. Whenever it is provided in this Part or in Part VI that the Commissioners or the Commissioners at a meeting may require the owners or the occupiers, or the owners and occupiers, of any land, to execute any work or to do anything within a specified time, such requisition shall be made, as far as possible, by a notice to be served as provided in sections three hundred and fifty-six and three hundred and fifty-seven, on every owner or occupier who is required to execute such work or to do such thing; but, if there be any doubt as to the persons who are owners or occupiers, such requisition may be made by a notification to be posted up on or near the spot at which the work is required to be executed or the thing done, requiring the owners or the occupiers, or the owners and occupiers, of any land, to execute such work or to do such thing within a specified time; and in such notification it shall not be necessary to name the owners or occupiers.

Every requisition as aforesaid shall give notice to the persons to whom it is addressed that, if they fail to comply with the requisition, or to prefer an objection against such requisition as provided in the next succeeding section, the Commissioners will enter upon the land and cause the required work to be executed, or the required thing to be done; and that in such case the expenses incurred thereby will be recovered from the persons who are required in such requisition to execute such work or do such thing.

176. Any person who is required by a requisition as aforesaid to execute any work or to do anything, may, instead of executing the work or doing the thing required, prefer an objection in writing to the Commissioners against such requisition within five days of the service of the notice or posting up of the notification containing the requisition; or, if the time within which he is required to comply with the requisition be less than five days, then within such less time.

The Chairman or Vice-Chairman, or the Commissioners at a meeting, as the case may be, shall, after hearing the objection and making any inquiry which they may deem necessary, record an order withdrawing, modifying, or making absolute the requisition against which the objection is preferred; and if such order does not withdraw the requisition, it shall specify the time within which the requisition shall be carried out, which shall not be less than the shortest time which might have been mentioned under this Act in the original requisition.

Order to be explained orally.

179. If the person making such objection be present at the office of the Commissioners, the said order shall be explained to him orally; and if such order cannot be so explained, notice of such order shall be served as provided in section three hundred and fifty-six on the person making the objection; and such explanation of, or service of, the notice of the said order shall be deemed a requisition duly made under this Act to execute the work or do the thing required.

The Commissioners shall, if necessary, themselves supply such disinfectants or deodorants for such use at cost price, and the expense thereby incurred shall be considered as an arrear of tax, and be recoverable as such from the owner of such privy, drain, or cess-pool; or the Commissioners may, if they think fit, order that such expense shall be paid from the Municipal Fund.

Operation of Parts VI, VII, VIII, IX or X.

221. The Commissioners may apply, in pursuance of a resolution passed at a meeting specially convened to consider the question, to the Local Government, to extend to the Municipality all or any of the provisions of this Part, or of Parts VII, VIII, IX or X; or to exclude from the operation of the said provisions, or any of them, any place within the Municipality.

Local Government may order the provisions of these Parts to be in force.

And the Local Government may thereupon make an order accordingly.

222. Every such order shall be published in the *Calcutta Gazette*, and the Commissioners shall, within fifteen days of such publication, cause a copy of the same, with a translation thereof into the vernacular of the district, to be posted up at their office, with a notice of the date on which such order shall take effect, and shall cause the same to be published as prescribed in section three hundred and fifty-four.

And the said provisions shall come into force in the Municipality from the date so fixed:

Provided that the date so fixed shall not be less than fifteen days after the publication under the said section, or more than three months after the publication of the order of the Local Government as aforesaid in the *Calcutta Gazette*.

223. The Local Government, on a similar application made by the Commissioners, may at any time cancel or modify an order made under section two hundred and twenty-one, and such cancellation or modification shall be published, and shall take effect in the manner prescribed by the last preceding section.

Local Government may cancel or modify order.

Of Privies, Drains, and Excavations.

224. The Commissioners may require the owners or occupiers, or the owners and occupiers, of any land, within fifteen days, to repair and make efficient any drain, privy or cess-pool, or to remove any privy or close any cess-pool which is situated on such land.

Commissioners may require owner or occupier to repair drain, &c.

225. Privies must be properly enclosed.

226. If any person, without the written consent of the Commissioners first obtained, makes or causes to be made, or alters or causes to be altered, any drain leading into any of the sewers or drains vested in the Commissioners, the Commissioners may cause such branch drain to be demolished, altered, re-made, or otherwise dealt with as they shall think fit; and the expenses thereby incurred shall be paid by the person making or altering such branch drain.

Unauthorized drains leading into public sewers may be demolished.

227. If any land, being within one hundred feet of a sewer, drain or other outlet into which such land may, in the opinion of the Commissioners, be drained, is not drained to the satisfaction of the Commissioners, the Commissioners may require the owner, within one month, to drain the said land into such sewer, drain or outlet.

Commissioners may require owner to drain land.

228. If it appear to the Commissioners that a group or block of houses may be drained or improved more economically or advantageously in combination than separately, and a sewer, drain or other outlet already exists within one hundred feet of any part of such group or block of houses, the Commissioners may cause such group or block of houses to be so drained and improved; and the expenses thereby incurred shall be recovered from the owners of such houses in such proportions as shall to the Commissioners seem fit.

Group or block of houses, &c., may be drained by a combined operation.

Commissioners may alter any drain, &c., made contrary to their orders.

229. If any branch drain, privy or cess-pool be constructed contrary to the directions and regulations of the Commissioners, or contrary to the provisions of this Act; or if any person, without the consent of the Commissioners, constructs, re-builds or unstops any branch drain, privy or cess-pool which has been ordered by them to be demolished or stopped up, or not to be made, the Commissioners may cause such amendment or alteration to be made in any such drain, privy or cess-pool as they think fit, or may cause the same to be removed; and the expenses thereby incurred shall be paid by the person by whom such drain, privy or cess-pool was improperly constructed, re-built or unstopped.

No latrine to be constructed within fifty feet of a tank.

230 No person shall, without the written permission of the Commissioners, construct or keep any latrine, urinal, cess-pool, house-drain or other receptacle for sewage or other offensive matter, within fifty feet of any public tank or watercourse, or a tank or watercourse which the inhabitants of any locality use.

If any such excavation, cess-pool, tank or pit is made after the issue and publication of such order without such special permission, the Commissioners may require the owners and occupiers of the land on which such excavation, cess-pool, tank or pit is made, within two weeks, to fill up such excavation.

233. The Commissioners at a meeting may determine on the removal or alteration, as they shall think fit, of any projection, encroachment or obstruction which may have been erected or placed against, or in front of, any house on any road within the limits of the Municipality before the date on which the District Municipal Act, 1864, of the District Towns Act, 1868, or the Bengal Municipal Act, 1876, as the case may be, came into force in the Municipality, or in case neither of the said Acts was in force in the Municipality before the commencement of this Act, then before the date on which this Act may have been extended thereto.

Notice in writing shall be given to the owner or occupier of such house requiring him to remove or alter the said projection, encroachment or obstruction, or to shew cause before the Commissioners why he should not be required so to do; and if such owner or occupier shall fail to comply with such requisition within thirty days of the receipt of the same, or if after such owner or occupier shall have shewn cause against being required to remove or alter the said projection, encroachment or obstruction, the Commissioners shall make an absolute order directing such removal or alteration; and if such owner or occupier shall fail to comply with such order within fifteen days of the date of the same, the Magistrate may, on the application of the Commissioners, order such projection, encroachment or obstruction to be removed or altered; and thereupon the Commissioners may remove or alter such projection, encroachment or obstruction.

The Commissioners shall make reasonable compensation to every person who suffers damage by any removal or alteration under this section.

In determining the amount of compensation, the value of the land shall not be taken into consideration.

234. The Commissioners may grant permission to any person, for such period as they may think fit, to deposit any moveable property on any road, or to make an excavation in any road, or to enclose the whole or any part of any road, and may charge such fees as they may fix for such permission:

Provided that such person undertakes to make due provision for the passage of the public and to erect sufficient fences to protect the public from injury, danger or annoyance, and to light such fences from sunset to sunrise sufficiently for such purpose.

Hoards to be set up during repairs.

235 Every person intending to build or take down any house, or to alter or repair the outward part of any house, shall, if any public road will be obstructed or rendered inconvenient by means of such work, before beginning the same, cause sufficient hoards or fences to be put up in order to separate the house where such works are being carried on from the road, and shall keep such hoard or fence standing and in good condition, to the satisfaction of the Commissioners, during such time as the public safety or convenience requires, and shall cause the same to be sufficiently lighted during the night:

Provided that no person shall put up a hoard or fence without the written permission of the Commissioners, nor shall he keep up the said hoard or fence for a time longer than allowed in the said written permission.

236. The Commissioners at a meeting may direct that, within certain limits, to be fixed by them, the external roofs and walls of huts or other buildings which may thereafter be erected, or the roofs or walls of which may thereafter be renewed or repaired, shall not be made of grass, leaves, mats or other inflammable materials.

237. Before beginning to build or rebuild any house not being a hut, the person intending to build or rebuild any such house shall give notice thereof in writing to the Commissioners, and shall accompany such notice with a general description of the building which he intends to erect, and of the provision he intends to make in respect of drainage and latrine accommodation.

Notice to be given to Commissioners by persons intending to build or rebuild any house not being a hut.

238. Within fourteen days after the receipt of the notice mentioned in the last preceding section, the Commissioners may refuse to sanction the building of the house, unless it be shown to their satisfaction that proper provision is, or can be made, for drainage and latrine accommodation within the holding or in the neighbourhood thereof.

Commissioners may refuse sanction to the building of a house not to be provided with drainage and latrine accommodation.

239. The Commissioners may also, if they see fit, within fourteen days after the receipt of the notice mentioned in section two hundred and thirty-seven, require the person giving such notice to submit to them a plan showing the width of the foundation walls and the level of the lowest floor of such house by reference to some level ascertained under the direction of the Commissioners, and the Commissioners may direct that such house shall not be begun to be built without their sanction.

Commissioners may call for a plan of the width of foundation walls and the level of the lowest floor.

240. Within fourteen days after receiving the plan mentioned in the last preceding section, the Commissioners shall either signify their approval of the proposed levels and width of the foundation walls, or shall fix other levels and width of foundation walls in lieu thereof. If within fourteen days after receiving the plan as aforesaid, the Commissioners fail to signify their approval or disapproval of the levels and width of foundation walls shown in such plan, or to fix other levels and width of foundation walls, the person giving notice may, unless sanction has been refused under section two hundred and thirty-eight, proceed to build or rebuild the house in accordance with the levels and width of foundation walls shown in the plan:

On failure of Commissioners to signify approval or disapproval of the plan within fourteen days, the house may be built in the manner laid out in the plan.

Provided that the house be otherwise built or rebuilt in accordance with the provisions of this Act.

241. If any house is built, or begun to be built, without notice as required by section two hundred and thirty-seven;

Commissioners may cause house built without notice, &c., or contrary to provisions of Act, to be altered or demolished as they shall see fit.

or if such house is built, or begun to be built after refusal of and without sanction under section two hundred and thirty-eight;

or if, when a plan has been required under section two hundred and thirty-nine, the house is built or begun to be built before such plan has been approved, or before the expiration of fourteen days after the submission of such plan;

or if, after the Commissioners have directed that the house be not begun to be built without their sanction, the said house is built or begun to be built without such sanction;

or if, when levels and width of foundation walls have been fixed by the Commissioners, the house is built or begun to be built in accordance with levels and foundation walls other than those fixed;

or if the house is built, or begun to be built, in any other respect contrary to the provisions of this Act,

the Commissioners may cause such house to be altered or demolished as they shall see fit.

242. The Commissioners may prohibit the owner of any new house to let the same for occupation, until the drainage and latrine accommodation of such house shall have been inspected and approved by the municipal officers appointed for the purpose.

New house to be approved before occupation.

243. It shall not be lawful for any person to erect a hut, or any range or block of huts or sheds, or to add any hut or shed to any range or block already existing, or to enlarge any existing hut, without previous notice to the Commissioners; and the Commissioners may require such huts or sheds to be built so that they may stand in regular lines, with a free passage or way in front of and between each line, of such width as they may think proper for ventilation and to facilitate scavengering, and with such number of privies, and with such means of drainage, as to them may seem necessary, and at such a level as will admit of such drainage, and with a plinth at least two feet above the level of the nearest street.

Erection of new huts to be under the control of the Commissioners.

244. If any such huts or sheds be built without giving such notice to the Commissioners, or otherwise than as required by the Commissioners, the Commissioners may require the owners of the land on which such huts and sheds are built, and the occupiers of such huts and sheds, to take down and remove the same within one month, or to effect such alterations as they may deem necessary.

Power to direct removal of huts built without notice.

Of Sanitary Measures with regard to Blocks of Huts.

245. Whenever the Commissioners at a meeting are satisfied, from inspection, or by report of competent persons, that any existing block of huts within the Municipality is, by reason of the manner in which the huts are constructed or crowded together, or of the want of drainage and the impracticability of scavengering, attended with risk of disease to the inhabitants or the neighbourhood, they may cause the locality to be inspected by two Medical Officers, who shall make a report in writing on the sanitary condition of the said block of huts; and shall specify, if necessary, in the said report, the huts which should be removed, the roads, drains, and sewers which should be constructed, and the low lands which should be filled up, with a view to the removal of the said risk of disease.

Power of Commissioners as to inspection of huts.

246. On receipt of the said report, the Commissioners at a meeting may require the owners or occupiers of the huts, or at the option of the Commissioners the owner of

Expenses may be recovered by instalments or remitted in case of poverty.

247. The Commissioners at a meeting may order that any expenses payable in respect of any work done by them in consequence of the failure of the owners or occupiers to execute such work when required to do so under the last preceding section, shall be recovered by instalments from the person liable to pay the same; or if it should appear to them that the said person is unable by reason of poverty to pay the same, may order the same, or any portion thereof, to be paid out of the Municipal Fund.

Sale of huts.

248. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be sold separately, if such sale can be effected, and the proceeds shall be paid to the owner of the hut, or, if the owner be unknown, or the title disputed, shall be held in deposit by the Commissioners, until the person interested therein shall obtain the order of a Civil Court of competent jurisdiction for the payment of the same.

Markets, slaughter-houses, &c., to be properly drained.

249. Every owner, or occupier, or farmer, of any place for the sale of meat, poultry, fish, or vegetables, or of any slaughter-house, within the limits of a Municipality, shall cause such drains to be made therein as shall be considered sufficient by the Commissioners, and (if required so to do by the Commissioners) shall cause all the floors and drains to be paved with stone or burnt brick, and shall also cause a supply of water to be provided, sufficient for keeping such place or slaughter-house in a clean and wholesome state.

Sale of unwholesome food or drink.

250. Any Magistrate, on the application of the Commissioners or any of their officers setting forth that there is just cause to believe that any article which has been rendered or has become noxious or unfit for use as food or drink for man, is in the possession of any person for the purpose of being sold, or offered or exposed for sale, within the limits of a Municipality, as food or drink for man, may grant a warrant to enter upon the premises of such person, and to search for and seize such article.

And if it appear to the said Magistrate that the same is noxious or unfit for such use, he shall order it to be forfeited and disposed of in such way as to him shall seem proper.

Power to Commissioners to enter and inspect markets, shops, &c., and to seize unwholesome articles exposed for sale.

251. The Commissioners, or any person authorized by them in that behalf, may at all reasonable times enter into and inspect any market, buildings, shop, stall, or place used for the sale of meat, poultry, fish, vegetables, corn, bread, flour, wine, spirits, butter, ghee, or other food or drink, or as a slaughter-house, and may examine any of the aforesaid articles of food or drink which may be therein; and in case any of the aforesaid articles of food or drink appear to be intended for the food or drink of man, and to be unfit for such food or drink, may seize the same.

And if it appear to a Magistrate that any of the aforesaid articles of food or drink is unfit for the food or drink of man, he shall order the same to be destroyed, or to be so disposed of as to prevent its being exposed for sale or used for such food.

Registry of shops for sale of European drugs.

252. No shop or place shall be kept for the retail sale of drugs recognized by the British Pharmacopœia, not being also articles of ordinary domestic consumption, unless the same shall have been registered in the office of the Commissioners. Any keeper of such shop or place failing to register the same within two months after this section shall come into force, or within two months from the date of the establishment of such place, shall be liable to a fine not exceeding one hundred rupees. The Commissioners shall, upon registration, grant the keeper of such shop or place a license which he shall be bound to display in some conspicuous part of his premises.

Certificated dispensers.

No person shall compound, mix, prepare, dispense, or sell any drug in any such registered shop or place unless he be duly certified as a fit person to be entrusted with such duties under rules made for that purpose by the Local Government:

Provided that the provisions contained in the second clause of this section shall not come into operation until after the expiration of a period of six months from the publication of a notification to that effect in the *Calcutta Gazette* by the Local Government.

Nothing in this section contained shall be construed to apply to the sale of drugs used by practitioners of indigenous medicines, whether recognized by the British Pharmacopœia or not, when such drugs are not sold in a shop or place where medicines recognized by such Pharmacopœia are dispensed upon prescription.

Inspection of drugs.

253. The Commissioners, or any person authorized by them in that behalf, may at all reasonable times enter into and inspect any place, kept for the sale of drugs, or in which drugs are sold, and if they have reason to suspect that any drug in the said place is adulterated, or by reason of age or the effect of climate has become inert or unwholesome, or has otherwise become deteriorated in such a manner as to lessen its efficacy, to change its operation, or to render it noxious, may remove the same on giving a receipt therefor, specifying the nature and quantity of the drug removed, and its approximate value; and if it appear to a Magistrate that the said drug removed as aforesaid is adulterated or has become inert, unwholesome, or deteriorated as aforesaid, he may order the same to be destroyed, or to be so disposed of as to him may seem fit.

If it shall appear to the said Magistrate that the drug so removed is not adulterated or has not become inert, unwholesome, or deteriorated as aforesaid, the person from whose shop or place it has been taken shall be

entitled to have it restored to him, and it shall be in the discretion of the said Magistrate to award him such compensation as he may think proper, not exceeding the actual loss which has been sustained.

If the drug removed as aforesaid is not brought before a Magistrate, it shall be restored to the person from whose shop or place it was taken, and such person shall be entitled to compensation for any actual loss which he may have sustained by the removal of the said drug.

254. Within three months from the date on which this and the six next succeeding sections may come into force as provided in section two hundred and twenty-two, every place which is used as a burial or burning-ground for corpses shall be registered as such by the owner thereof in the office of the Commissioners, but no fee shall be charged for such registry.

No new or disused burial or burning-place henceforth to be used without leave of Government or of Commissioners.

255. No burial or burning-ground, whether public or private, shall be made or formed, or, having lapsed into disuse, shall be again used as such, otherwise than with the permission of the Commissioners, or under the authority of the Local Government.

Commissioners may order certain burial or burning-grounds to be closed.

256. If it shall appear to the Commissioners at a meeting that any public or private burial or burning-ground is dangerous to health or offensive to the tax-payers, or to the inhabitants of the neighbourhood, and also that a suitable place for interment or burning, as the case may be, exists within a convenient distance, and is open and available to the inhabitants of the Municipality, the Commissioners shall give public notice of their intention to close such burial or burning-ground, and shall consider any objections which may be preferred within fifteen days of the publication of such notice; after considering such objections they may, by notification to be affixed on some conspicuous part of the ground, appoint a time, not being less than two months, for the closing of such burial or burning-ground.

If any building is attached to, and used in connection with, a burning-ground closed under this section, the Commissioners shall, if the owner of such building make an application to them in that behalf, take over the same on payment of a fair price therefor.

Prohibition to bury or burn in unregistered ground.

257. After the expiration of the three months, mentioned in section two hundred and fifty-four, no corpse shall be buried or burnt otherwise than in a place which is borne on the register of the Commissioners as an open burial or burning-ground; but the Commissioners may grant special permission for a corpse to be buried or burnt elsewhere.

Commissioners may cause corpses to be burnt or buried according to the religious tenets of the deceased.

258. After the expiration of not less than twenty-four hours from the death of any person, the Commissioners may cause the corpse of such person to be burnt or buried, and the expenses thereby incurred shall be recoverable as a debt due from the estate of such person. In every such case, the corpse shall be disposed of, so far as may be possible, in a manner consistent with the religious tenets of the deceased.

Commissioners may provide places to be used as burial or burning-grounds.

259. The Commissioners may levy a fee in respect of such license and the renewal thereof, and may impose such conditions upon the license as they may think necessary.

Commissioners may, in certain cases, order the use of slaughter-houses and the carrying on of dangerous and offensive trades, to be discontinued.

262. If it be shewn to the satisfaction of the Commissioners at a meeting that any place licensed under section two hundred and sixty-one, is a nuisance to the neighbourhood, they may, notwithstanding anything contained in the said section, give notice to the occupier to discontinue the use of such place within one month after the date of such notice.

310. The rate imposed under the last preceding section upon holdings shall be paid by the occupiers thereof by quarterly instalments in advance; but no rate shall be leviable until the lamps in the portion of the area to be lighted shall have been lighted; nor shall any rate be leviable for any quarter or portion of a quarter antecedent to such lighting.

314. Every owner who, under the provisions of the last preceding section, may be entitled to recover any sum from any occupying tenant of any holding or of any portion thereof, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to such owner by such tenant in respect of so much of such holding as may be in the occupation of such tenant.

Situation of gas-pipe or other gas-work to be altered at the expense of the Commissioners.

Provided that such alteration be not such as permanently to injure such pipe or work, or to prevent the gas from flowing as freely and conveniently as before; and the expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the Commissioners out of the Municipal Fund as well to the person to whom such pipe or work belongs as to all other persons.

318. If the person to whom any such pipe or work belongs, or under whose control it may be, do not proceed forthwith, or as soon as conveniently may be, after the receipt of such notice, to cause the same to be raised, sunk or altered in such manner as the Commissioners require, the Commissioners may themselves cause such pipe or work to be raised, sunk or altered as they may think fit:

If owner, &c., neglect to make alterations, the Commissioners may cause the same to be made.

Provided that such works be not permanently injured thereby, or the gas prevented from flowing as freely and conveniently as before.

RESOLUTION ON THE REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR 1883.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 6th May 1884.

RESOLUTION.

READ—

The Report on the Lunatic Asylums in Bengal for 1883.

Read again—

The Report for 1882, and the Resolution recorded upon it.

The number of admissions into the asylums, which had fallen in 1882 to 165, the smallest number on record, rose to 209 during the year under review. The increase was most marked in the case of males, of whom 184 were admitted against 144 in the previous year, while the number of females admitted was 25 against 21 in 1882. Criminal lunatics contributed chiefly towards the increase. The number of re-admissions was the same as in the preceding year, viz. 23, with this difference that, whereas the number in 1882 was composed of 20 males and 3 females, the re-admissions in 1883 were of males only. The daily average population of the asylums was 878·67 against 867·12 in the previous year. The lunatics who remained in the asylums at the close of the year numbered 907, of whom 724 were males and 183 were females.

2. The total number of persons treated for insanity was 1,081, as compared with 1,056 in 1882 and 1,094 in the preceding year. The number of

recoveries was 90 against 83 in 1882, but the number of cases in which there was an improvement fell from 34 to 27. The percentage of recoveries on the total number treated for the different kinds of insanity was, in the case of acute mania, 16·81, chronic mania 6·22, melancholia 4, acute dementia 5·71, and chronic dementia 1·43. The percentages are lower in every case than the corresponding proportions in the previous year, except in the case of chronic mania. These figures, however, are, as has been pointed out by the Surgeon-General on previous occasions, quite unreliable for scientific purposes, so long as complete uniformity does not exist in the various asylums in the diagnosis of different forms of mental disease. In his present Report he writes:—"In my last Report I spoke of the uncertainty of nomenclature in the hands of different Superintendents, who are required to record all cases under headings which can be said to afford only a general classification. In 1883 changes in the superintendence of asylums were unusually frequent, and I conclude, from the entire course of events in that year, that the changes affected the nomenclature of disease. Thus there were 92 new cases of acute mania, and a total number of 232 cases treated with 48 cases of recovery and improvement with discharge. In 1882 there were 69 admissions and a total of 200 cases with 47 cases discharged. Going back to 1881, we find, again, 99 admissions and 213 cases in total, with 55 of recovery and improvement. Recovery from acute mania within a year is frequent, and it is probable that if practice as to nomenclature had been the same in the two later years, the figures would have been somewhat differently arranged. The same must be said of chronic mania. There is fluctuation in the proportion of recoveries which points to uncertainty of names." So much at least is certain that taking all kinds of insanity together, the percentage of recoveries on the total number of cases treated was higher in 1883 than in the previos year.

3. The number of inmates in the Dacca and Cuttack Asylums at times exceeded the nominal capacity of the wards; but there was no real overcrowding in either of these institutions, as harmless lunatics were allowed, as in previous years, to sleep in the verandahs, which are not included in the estimate of capacity of the buildings.

4. The following table shows the number of criminal lunatics treated in the asylums during the last three years:—

1	2			3			4			5			6			7			8			9

The steady increase in the number of criminal lunatics, which was noticed in the Resolution recorded last year, was continued in the year under review. The admissions and re-admissions increased in the aggregate by 18 when compared with the preceding year. In the Report for 1881, a statement showing the offences with which the criminal lunatics then in confinement were charged, was given for the purpose of ascertaining whether there had been any increase of crime among lunatics at large, which might be attributed to the operation of the orders of the Government of India issued in 1876. These orders pointed out that persons suffering from the temporary results of sickness, intemperance or debauchery, and those whom their friends ought to support, were not proper objects of charity; and that, besides criminal lunatics, only those patients should be received in State asylums who were absolutely dangerous, or who, having no friends or resourses, were in the acute stage of mental disease in which there was most hope of recovery under medical treatment. The return submitted with the Report for 1881 did not show that there had been any increase of crime in consequence of these orders. The Report for 1882 did not furnish a similar return, and the Surgeon-General

was asked to include it in future reports, provided this could be done without difficulty. In accordance with these orders, a very elaborate and interesting table has now been submitted, showing the offences with which the criminal lunatics, who were admitted into the asylums between 1874 and 1883, were charged. A perusal of this table strengthens the inference that there has been no increase of crime in consequence of the operation of the orders issued in 1876. The fluctuations that appear are not more than must be expected when considerable numbers are being dealt with. The Surgeon-General makes the following observations :—"The first columns of the table, showing commitment for graver crimes, present numbers which were all exceeded in the earlier years, except the second (column headed 'Attempt to murder'); but these are not the crimes of which the record would probably be affected by the change of practice. The result, if there were any, would probably appear under the head of theft, trespass, suicide, mischief, bad behaviour, bad livelihood, &c., and these do not increase either relatively to the whole, or absolutely in such manner as to support any imputation against the existing rules of admission to asylums."

5. The causes of insanity were unknown in 98 out of the 232 cases admitted and re-admitted during the year. Of the cases in which causes were assigned, 108 cases were ascribed to physical and 26 to moral causes. The following table shows the number of cases in which the cause of insanity is attributed to intemperance and the use of drugs :—

Patna	17	27	7	2
Cuttack	10	10	.....	2
Berhampore ...	6	12	.....	6
Total ...	98	76	15	43

In commenting on intoxication as a prevalent cause of insanity, the Surgeon-General makes the following appropriate remarks :—"I have said before that occurrences in the asylums show that the statements on this point are below—I might say very much below—the truth, and that on the other hand resort to intoxication is sometimes assigned as the cause of a derangement of which it is only an early result. There were in all 76 admissions from ganja and bhang in 1883, and only 34 recoveries. If the cases were rightly ascribed, the proportion was small, and again proves that, with increased admissions, there was no increase of cases of mere temporary intoxication among them."

6. There has been a gradual and satisfactory improvement in the health of the lunatics during the last few years, and this was especially marked in 1883. The admissions into hospital numbered only 235 against 394 in 1882 and 385 in 1881. The following table shows the prevalence of the principal diseases in the year under report :—

Phthisis	3	5	6	10	10	10	3	.....	1	1	23	26
Cholera	2	2	8	.....	5	2	.....	.....	.....	.....	15	4

There was no increase in the number of cases of anæmia and debility except at Patna, where the number rose from 14 to 17. Diarrhœa, dysentery and fevers fell considerably on the whole, while there was no material variation in pulmonary disease. Cholera re-appeared at Dullunda and Patna. There were two cases in the latter asylum, both of which proved fatal. No fault was found with the drinking water, which is supplied from the best well in the neighbourhood and passed through a standard filter, but the water used for bathing should, as suggested by the Surgeon-General, be examined. The supply of water for the shower-baths in the Dullunda Asylum again failed during the year, and the inmates had to use tank water for bathing purposes. Arrangements have, however, been made since the close of the year to improve the water-supply in this asylum. It is satisfactory to observe the absence of cholera and the reduction of dysentery, diarrhœa and fever at Dacca, following immediately on the introduction of filtered water into that asylum. At Berhampore the absence of dysentery, which had been largely prevalent, was remarkable. Cases of accident and injury occurred at Dullunda, Dacca and Patna. At Dullunda a violent epileptic ruptured his spleen during a fit and died. The other cases were few in number and of comparatively little importance.

7. The general improvement in the health of the lunatics was accompanied, as might have been anticipated, by a reduction in mortality. The deaths numbered only 52, which is the smallest number on record, the corresponding figures in 1880, 1881, and 1882 being 109, 84, and 87 respectively. The largest number of deaths—thirteen—was from phthisis. The number of deaths from cholera was 2 out of 4 persons attacked. There were 6 deaths from apoplexy, 5 from diarrhœa, 4 from dysentery, and 3 from fevers. The total number of deaths from all causes was at Dullunda 12, at Dacca 13, at Patna 15, at Cuttack 3, and at Berhampore 9. The marked decrease in the mortality from zymotic disease testifies to the efficiency of the sanitary arrangements in the asylums.

8. The following table shows the receipts and expenditure in each asylum during 1883 :—

The total expenditure on the asylums during the year was Rs. 82,835-9-7, with a daily average of 878·67 inmates. There was an increase of Rs. 1,202 over the expenditure of the previous year, which is attributed to the increase in the number of persons treated during the year under review. The total cost per patient was Rs. 94-4-4 against Rs. 94-2-3 in 1882, and the net cost of each inmate, after deducting the amount realized from friends of patients, and the net profits from manufactures, was Rs. 86-13-8, against Rs. 82-7-2. The total cost on account of establishment was Rs. 37,427 against Rs. 39,702 in the previous year. This reduction was partly due to the fact that the arrangement by which the charge of the Dullunda Asylum was entrusted to the First Resident Surgeon, General Hospital, was in force throughout the year, and not for a portion only, as in 1882. Part, however, of the reduction was apparent only, and due to the circumstance that the salary of the Officiating Overseer, an Assistant Surgeon, was paid from the budget of the Medical Department. The reduction was partly neutralized by a slight increase in expenditure caused by the filling up of some offices at Dullunda which had been vacant in 1882, and by annual increments of salary at Berhampore.

9. The money outlay on account of diet was Rs. 20,294 against Rs. 19,260 in 1882. This is due to the comparative dearness of food, and not to any material change in the dietaries. The average cost of diet per head was highest at Dullunda, where it amounted to Rs. 42-14-11, and lowest at Cuttack, where it was Rs. 19-11-11. The charge for clothing was Rs. 2,836. Of this sum, Rs. 1,418 represents the cost price of articles manufactured in the asylums. The corresponding figures in 1882 were Rs. 2,467 and Rs. 1,806. The amount expended on raw materials, for manufacture was Rs. 27,376 against Rs. 27,038. The estimated value of raw materials, manufactured goods, and plant and machinery on 1st January 1883 was Rs. 61,404. The total debit was therefore Rs. 88,780. The amount paid into the treasury was Rs. 19,984; the cost of manufactured goods consumed in the asylums was Rs. 12,701, and the estimated value of the stores in stock at the close of the year was Rs. 61,524. This makes a total of Rs. 94,209. The excess of credits over debits was Rs. 5,429, but, after adjusting certain items shown in Statement XI appended to the Report, the net profit on manufactures amounted to Rs. 5,547. This profit is, however, as explained last year, no proper measure of success, the articles consumed in the asylums being charged at cost price, profit being allowed on outside sales only.

10. In the foregoing paragraphs only the native asylums of the Province have been considered. Regarding the European Asylum at Bhowanipore, it is observed that on the 1st January 1883 there were 27 patients remaining over from the preceding year. Twenty-four were admitted in 1883 against 20 in 1882, of whom three were from the Army. Of the 51 patients under treatment, 3 were discharged cured, 10 were despatched to Europe under the Merchant Shipping Act or otherwise, 8 were transferred to the care of friends, and one died. This death was of a man who had been admitted in a very emaciated condition, the consequence of chronic diarrhœa Twenty-nine persons remained in the asylum at the close of the year. The female ward was, as in former years, constantly full, and admission had to be refused to several applicants. The total expenditure amounted to Rs. 19,860 against Rs. 21,136 in 1882, the decrease being chiefly due to the transfer of the asylum to the charge of the Resident Surgeon, General Hospital, of which the effect was felt during the entire year. There was also a decrease in the average cost of diets as compared with the previous year, when a large number of patients had, under accidental circumstances, been admitted into the asylum in a weak and emaciated condition, and had to be kept up by extra quantities of food. The average net cost to the State of each lunatic was Rs. 165.

11. The Lieutenant-Governor is glad to acknowledge the care and attention bestowed by the Superintendents on the Asylums under their charge, and to find that they bear unanimous testimony to the good conduct of the subordinate officers. He appreciates the labours of Mr. and Mrs. DeVere, the Deputy Superintendent and Matron of the Bhowanipore Asylum. Mr. Lawton, the Overseer, and Mrs. Lawton, who acted as Matron during the absence, on sick leave, of Mrs. DeVere, are also well spoken of by the Surgeon-General. The management of the asylums throughout the Province during the year was excellent, and reflects credit on the Head of the Department.

ORDER—Ordered that a copy of this Resolution, together with a copy of the Report, be submitted to the Government of India, in the Home Department, for information.

Ordered also that a copy of this Resolution be forwarded to the Surgeon-General, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Offg. Secretary to the Government of Bengal.

FEMALE MEDICAL SCHOLARSHIPS.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 6th May 1884.

RESOLUTION.

READ—

Two letters from the Director of Public Instruction, dated 4th and 6th June 1883, with enclosures, on the subject of admitting females to the classes of the Calcutta Medical College, and the Government letter, dated 28th June 1883, addressed to the Director, communicating the orders of the Lieutenant-Governor thereon.

Read again—

The Rules of 26th July 1882 for the award of Junior and Senior Scholarships.

Two letters from the Director of Public Instruction, dated 7th February and 18th March 1884, regarding the transfer to Medical Colleges of scholarships held by female students, and the grant of special scholarships to such students.

In June 1883 the important question of the admission of females to the classes of the Calcutta Medical College came before the Lieutenant-Governor for decision, and the principle that all possible facilities should be offered for the training of female medical practitioners was deliberately affirmed from the standpoint of general policy as well as of individual freedom. The grounds for this decision, which it is hoped will confer a lasting benefit upon the people of Bengal, have been set forth at length in the letter of 28th June quoted in the preamble to this Resolution. It is needless to repeat them here. An opportunity has now arrived for giving immediate effect to the policy thus laid down, and furthering the cause of female medical education in Bengal in a manner which promises to yield speedy results.

2. Under the existing rules for the grant of scholarships for girls, three junior scholarships of Rs. 20, Rs. 15, and Rs. 10 a month respectively, and tenable for two years in some collegiate institution approved by the Director of Public Instruction, are open annually for competition at the Entrance Examination to female candidates educated in any school in Bengal. Two senior scholarships, worth Rs. 25 and Rs. 20 a month respectively, and tenable for the same term, and on the same conditions as the junior scholarships, are open for competition at the First Examination in Arts to female candidates educated at any college in Bengal affiliated to the University of Calcutta. In January 1882, Miss Ellen D'Abreu and Miss Avala Das, who had passed the First Arts and Entrance Examinations respectively from the Bethune School, were awarded, the first a senior scholarship of Rs. 25 a month, and the second a junior scholarship of Rs. 20 a month, each tenable for two years. After holding their scholarships in the College classes of the Bethune School for nine months, they joined the Medical College of Madras, where their scholarships expired in December 1883. They have now applied, through the Principal of the Madras College, who strongly supports their application, for permission to hold their scholarships during the remainder of their course of study. Miss D'Abreu has entered the B. M. class, which requires a training for five years, and Miss Avala Das the L. M. S. class which occupies four years. The Director of Public Instruction recommends an extension of the term of the scholarships for three years and nine months in the case of the former, and for two years and nine months in the case of the latter lady. The Director also reports that Miss Virginia Mary Mitter, who gained a senior scholarship of Rs. 20 at the First Arts Examination in January 1884, wishes to hold her scholarship in the Calcutta Medical College; and that Miss Bidhu Mukhi Bose, who passed the First Arts Examination at the same time, but did not gain a scholarship, is anxious to study medicine, and prays that, as a special case, a scholarship may be granted to her for that purpose.

3. In recommending these several applications for the favourable consideration of Government, Mr. Croft puts forward the important proposal that special scholarships of Rs. 20 a month, tenable for five years in the Calcutta Medical College, should be awarded for the next ten years to all female candidates who enter that institution after passing the First Arts Examination, whether they have gained scholarships in that examination or not. He shows that

in all probability the cost of the scheme would be trifling in comparison to the benefits which it would confer upon the women of Bengal, and points out that the principle of granting stipends is by no means a new one, but was regularly resorted to in the early days of the Medical College as an inducement to male students of medicine. Thus, in the year 1838-39, there were 50 students in the Medical College, all of whom "received monthly stipends ranging from Rs. 7 to Rs 12 according to their seniority and deserts." Whatever reasons existed forty years ago for encouraging male students to fit themselves for medical work, are equally applicable now to the case of female students.

4. The existing senior and junior scholarships, which are tenable for only two years, are clearly inadequate to the purpose now in view, and a strong case has been made out for granting special scholarships of a duration proportioned to the length of the course of study in the Medical College. The Lieutenant-Governor has, therefore, after full consideration, accepted the conclusion that the demand in Bengal for female medical practitioners requires to be met, in the first instance, by measures of special encouragement; and he readily sanctions Mr. Croft's proposals as offering a fair prospect of attaining the end in view within a reasonable time. Mr Croft shows that, assuming an average of two pupils a year, the cost of the scheme will rise from Rs 480 in the first year of the ten years' period to Rs. 2,400 in the last. It will then decline, as scholarships expire by lapse of time. In the present stage of the question, the Lieutenant-Governor is unwilling to impose any limitations on the number of scholarships granted. Even if that number should rise beyond what may now be expected, there will, it is believed, be no difficulty in meeting the charge.

5. The general lines of the scheme being thus determined, it remains to apply them to the particular cases which have given rise to Mr. Croft's proposal. It is understood that Miss D'Abreu and Miss Avala Das will continue their studies in the Madras Medical College until they return to practise their profession in Bengal. The Lieutenant-Governor sanctions the grant to both of them of scholarships of Rs. 20 a month from the date on which their original scholarships expired until the completion of their course of study. Scholarships of the same value, tenable for five years in Calcatta, will also be granted to Miss Virginia Mary Mitter and Miss Bidhu Mukhi Bose. All of the four scholarships now sanctioned will be termed "Female Medical Scholarships," and provision will be made in the Education Budget for the grant of similar scholarships to all females willing to study medicine in the Medical College for the next ten years. Only the experience of years can show whether the educated women of Bengal will avail themselves of the facilities now offered to them, and prove, by real work, that they are fit for the duties and responsibilities which some of the more advanced among them are anxious to assume.

By order of the Lieutenant-Governor of Bengal,

A. P. MacDONNELL,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE ROYAL BOTANICAL GARDENS, CALCUTTA, FOR THE YEAR 1883-84.

FINANCIAL DEPARTMENT—AGRICULTURE.

Darjeeling, the 9th May 1884.

RESOLUTION.

READ—

The Annual Report on the Royal Botanic Gardens, Calcutta, for the year 1883-84.

The completion of the general scheme for improvements last year left little to be done in the way of original work. The planting out of the palm-house, the erection of which had been completed during the previous year, was the most noticeable work carried out in the Garden during 1883-84. For this purpose, plants that had outgrown the limits of the former low-roofed conservatories were transplanted, while the interspaces between the larger plants were filled in by lower-growing species of various kinds—*aroids*, *marantas*, *selaginellas*, and the like. The palm-house already presents a handsome appearance, and the general effect of it will be greatly enhanced as the plants continue to grow. The steam-pump, which was lately erected to keep the river water in the Garden tanks at a high level throughout the year, has proved a success. These ornamental lakes, besides improving the appearance of the Garden, have also conduced to its healthiness

2. The distance and inaccessibility of the Garden from Calcutta greatly impair its value as a health and pleasure resort. A service of passenger steamers has recently been established, which call at several points within the port, one of the calling places being the Mattiabruj ghât, opposite the Garden. Dr. King has suggested that, if a landing-stage were erected by Government on the Howrah side of the river, at some place close to the Garden, the steamers might be induced to call there, and thereby render it much more accessible to the public. The Lieutenant-Governor would be glad to see this done if it does not involve a large expenditure. A communication on the subject will be addressed to the Agents of the Steamer Service.

3. The economic plants which engaged the Superintendent's attention during the year were the *Sabai* grass, the paper mulberry (*Broussonetia papyrifera*), the *Cinnamon* plant yielding the *Cassia* bark of commerce, and the Soy bean. The *Sabai* grass was extensively distributed in various parts of the Province, and its suitability as a paper fibre has been established beyond doubt. The bark of the paper mulberry, which has an easy and rapid growth, was reported on by a paper-manufacturer, and pronounced to be "an admirable paper material." Dr. King believes that the plant is capable of producing one of the very best paper fibres known—a fibre at once strong and fine, and requiring very little bleach. Experience has shown that the plant grows as well in the drier climate of Durbhunga as in the lower parts of Bengal; and with a view of extending the cultivation of the tree, Dr. King is having a large number of plants prepared for issue and for planting out in vacant spots along the Garden boundary. A further consignment of the *Cinnamon* plant was received from Hong-Kong during the year. The plants, though healthy, are quite young; and as they seem to grow slowly, it will be some time before their suitability to the soil of Bengal can be ascertained. The Soy bean, of which Dr. King had arranged for a supply from Japan, was distributed during the year among planters and others for experimental cultivation. The result, as was anticipated, has been a failure.

4. The experiment of utilizing the ornamental lakes in the Garden as a breeding ground for Gourami fish has also proved a failure. One of these lakes was stocked with a quantity of this fish, which had been supplied by the Hon'ble H. S. Thomas of the Madras Civil Service; but on the lake being dragged some months after, not a single fish could be found. The Superintendent, however, proposes to make a further trial.

5. Owing to the insufficient accommodation afforded by the old herbarium, it had not been possible to arrange and name a large collection of dried plants received during the past few years; but since the completion of the new building, this work has made considerable progress under Mr. Brace's

supervision. A beginning was also made in classifying the large number of botanical pamphlets which the Garden library contains. Very valuable contributions were received in the herbarium during the year from the Royal Garden at Kew, and from Government officers and other gentlemen both in India and other countries. Among the chief contributors were Mr. Kunstler, Mr. Gamble, Mr. Talbot, Dr. Schlich, Mr. Duthie, Dr. Trimen, Mr. Levinge, Mr. Ford, Dr. Cooke, Mr. Hallett, Mr. Maries, Mr. Clarke, Mr. Woodrow, Mr. Hildebrand and Dr. Hay. The interchange of seeds and plants went on actively during the year. Twenty-three thousand eight hundred and nine living plants and 3,716 packets of seeds were distributed, the principal recipients being, as usual, Station Committees, Cantonment Magistrates, and Superintendents of Hospitals and Jails. A considerable number of plants was also sent to the International Exhibition in Calcutta. On the other hand, 9,179 plants and 1,038 packets of seeds were presented to the Garden by various contributors. The receipts from the sale of surplus plants amounted to Rs. 1,345-11-9, while the whole of the budget allotment of Rs. 70,350 was spent.

6. For the third year in succession, the Lloyd Botanical Garden at Darjeeling suffered from the ravages of the cockchaffer grub. Specimens of this grub and of the beetle into which it develops have been sent to a specialist in London for identification and report, but no answer has yet been received. Dr. King's proposal to suspend all distribution of living plants from the Garden, in case the grub shows itself again this year, commends itself to the Lieutenant-Governor. A similar grub, it is stated, has proved very destructive in Ceylon to coffee planted in *patana* or grass land. Fortunately the Darjeeling grub has not as yet displayed any partiality for tea.

7. The Lieutenant-Governor desires to acknowledge the excellent work done by Dr. King and his subordinates during the past year.

ORDER—Ordered that a copy of the Report and of the Resolution be forwarded to the Government of India, in the Revenue and Agricultural Department, for information.

Ordered also that a copy of the Resolution be forwarded to the Superintendent of the Botanical Gardens for information.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Offg. Secretary to the Government of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS IN BENGAL FOR THE MONTH OF APRIL 1884.

DURING the month of April temperature increases rapidly in Northern India. The area of maximum temperature includes the Central Provinces, West Orissa, Chutia Nagpur, South Gya and the districts in Central India bordering on the Central Provinces. Concurrently with the increase of temperature pressure diminishes. The total diminution of the month is the result of a series of oscillations in which the downward movement is greater than the upward. The meteorological actions in the Province are similar, but stronger, and more developed than in the month of March. Easterly winds, the continuation partly, if not mainly, of winds down the Assam valley prevail along the foot of the hills in North Bengal and Behar. South-westerly winds from the Bay of Bengal, varying in strength considerably with the period of day, blew over South and Central Bengal. In Central and South Behar and Chutia Nagpur westerly dry winds, the continuation of the air current blowing down the Gangetic valley in Upper India, prevail. Usually during the month the sea winds extend their influence over a larger area of the Province, increasing the humidity and give more or less frequent showers of rain.

The main effect of the convergence of these three air currents, varying so widely in strength, humidity and other characteristics, is to give frequent disturbances, chiefly thunderstorms, generally local in character, but occurring as a group or series over a large part of the country. The barometric indications of these small local storms are very doubtful.

The rainfall of the month is almost entirely due to these storms. The average distribution of the rainfall in Bengal for the month of April is simple. The lines of equal rainfall run mainly north and south, or parallel to the hills on the borders of Eastern and Northern Bengal. To the east of a line running through Julpigoree, Rungpore, Serajgunge, Burrisal and Chittagong, the rainfall varies from 4 to 6 inches. The rainfall diminishes westwards, and to the west of a curved line running through Bettiah, Durbhunga, Doomka, Hazaribagh and the Cuttack Hills the average rainfall for the month of April is less than one inch. It is least in Shahabad, where it is barely one-fifth of an inch.

The meteorology of the past month has been very unusual. The first fortnight was characterized by the same features as the previous month, viz. unusually high temperature, diminished air pressure, excessive dryness of the air, and an almost entire absence of thunderstorms and rain-showers. This culminated in three or four days of intense heat and dryness, lasting from the 12th to the 16th, when a rapid change took place. The westerly winds in Behar gave way : easterly winds advanced northwards and westwards : frequent thunderstorms occurred over the greater part of the Province, which gave rainfall above the average over nearly the whole of Bengal. Temperature hence decreased rapidly and was generally below the normal, and concurrently pressure increased slightly and was above the mean for the period until the last two days of the month. The meteorology of the second half of the month thus stands in striking contrast to that of the first half.

Atmospheric pressure.—The barometer oscillated rapidly and within narrow limits at the commencement of the month. It fell rather rapidly on the 7th. A series of thunderstorms occurred over the greater part of Bengal on the afternoon of that day, which caused the barometer to rise again. It oscillated slightly for several days, and then fell suddenly on the 13th and 14th. The fall amounted to a tenth of an inch in Behar, and nearly a sixth of an inch in North Bengal. Pressure was hence considerably below the normal of the day on the 14th. It increased slightly during the next four days, and oscillated within comparatively narrow limits until the 25th, when a rapid rise occurred, lasting until the 27th. This was followed by a still more rapid fall on the 28th and 29th. During the latter part of the month the barometer moved very unequally in different parts of the Province, and occasionally at adjacent stations, inuicating a disturbed state of the atmosphere. Frequent thunder storms occurred during this period, when the barometer was generally above its normal height. The average pressure of the month was slightly in excess for the great majority of stations. The excess averaged ·015″ for the Central Bengal stations, and ·02″ for the East Bengal stations. Pressure was normal in Behar and very slightly below it in Orissa and the adjacent districts of South-West Bengal.

Temperature.—The first fortnight was marked by high temperature over the whole Province. The 12th to the 16th was a very hot period, and preceded the general change in the weather already described. The temperature fell rapidly over the greater part of the Province during the next four or five days, and was for the remainder of the month below the average in every part of the Province except Chutia Nagpur and South Behar. During the first half of the month the mean temperature was 1° above the normal temperature of the period in East Bengal, 2° in South-West Bengal and Chutia Nagpur, and 3½° in Behar.

The highest maximum in shade temperatures of the month at the majority of stations were registered during the period. The following table gives a few of the more remarkable :—

	Highest maximum, April 1884.	Highest maximum temperature registered in period; April.
Cuttack	109·9 on the 15th	109·6 in 1881
Purneah	107·8 „ „	108·1 in 1879
Berhampore	107·7 „ „	111·7 in 1881
Gya	108·8 „ 30th	113·2 in 1881
Burdwan	107·2 „ 15th	108·7 in 1881
Calcutta	103·5 „ „	102·2 in 1881

The temperature was hence higher in Orissa and the adjacent districts of South-West Bengal than in any corresponding month on record. At Calcutta (Alipore) the temperature was considerably above that in any previous year since the opening of the observatory in 1876. The maximum temperatures recorded in Behar were not high as compared with previous years, but this was due to the unusually large rainfall over the greater part of the Province and the prevalence of cloud during the latter part of the month. During the second half of the month the mean temperature was 1° below the normal average of the period in Orissa and Chutia Nagpur, 2½° in South Behar, 3° in South-West Bengal, 3½° in North Behar and 4° in East Bengal.

The combination of these two opposite variations was to give a mean daily temperature for the month in defect in Bengal and Orissa, and very slightly in excess in Chutia Nagpur and Behar. The deficiency was greatest in East Bengal, for which it averaged 1½°. The excess in Behar and Chutia Nagpur was small, nowhere exceeding ¾°.

Winds.—During the first fortnight westerly winds prevailed over the whole of Behar and Chutia Nagpur, and a large portion of Central and North Bengal, occasionally extending eastwards as far as Rungpore and Serajgunge. The southerly winds had a much stronger westerly component than usual. On the 17th the westerly winds gave way rapidly and were displaced by easterly winds in Central Bengal and North Behar, and were variable in South Behar and Chutia Nagpur. At the end of the month winds ranging between south and east were prevalent throughout the Province.

Humidity.—The contrast between the meteorological features of the first and second fortnights of the month was most strongly shown in the humidity and rainfall. The extreme dryness of the air in Behar, Chutia Nagpur, and Central Bengal, which formed a marked feature of the month, was continued and intensified during the first fortnight Lower humidities were observed on the 15th and 16th than have been observed for many years. The following are a few of the most remarkable measures of the humidity observed on these two days :—

Midnapore	6 per cent on the		16th
Dinagepore	6	„	15th & 16th
Dehree	6	„	15th
Hazaribagh	6	„	15th
Bhagulpore	6	„	2nd
Gya	8	„	16th
Ranigunge	10	„	15th
Balasore	11	„	15th
Burdwan	11	„	15th
Purneah	11	„	16th
Motihari	11	„	14th
Arrah	11	„	15th

The air on these two days was almost as dry in South Behar and Chutia Nagpur as it is in the hottest and driest weather in the Rajputana desert, North Sind, or the adjacent districts of the Punjab. The air became damper from the 17th in consequence of the setting in of strong sea winds which rapidly extended to Behar. The effect of this was, however, not fully felt in South Behar and Chutia Nagpur until the 22nd. The increase in the humidity was so great that it was from 5 to 20 per cent. above the normal average of the period during the last ten days of the month.

Rain.—Thunder-showers, which gave moderate rain, fell in Bengal (except the 24-Pergunnahs, Midnapore, Howrah districts of South-West Bengal, and the Cooch Behar, Maldah, Julpigori and Darjeeling districts of North Bengal) on the evening of the 7th. Thunderstorms again occurred on the afternoon of the 17th in South-West and East Bengal. During the remainder of the month frequent showers (which generally accompanied thunderstorms) fell in Bengal, and to a less extent in Orissa and the Sonthal Pergunnahs. One or two light local showers of no importance occurred in Behar and Chutia Nagpur.

The rainfall of the month hence occurred almost entirely during the second fortnight. It was above the average in all districts of Bengal, except the 24-Pergunnahs, Howrah,

Hooghly, Burdwan, Burrisal, Rungpore and Darjeeling, in each of which there was a slight deficieney.

Eastern Bengal and the eastern districts of South-West Bengal (*i.e.* Jessore and Khulna) received the largest amounts absolutely and relatively to the average. The excess averaged from 20 to 100 per cent. above the normal.

The rainfall was below the average over the whole of Chutia Nagpur and Behar (with the exception of the district of Purneah), and in the Pooree and Cuttack districts of Orissa. The deficiency was most marked in these two last districts, as they usually receive a fair amount of rain brought by norwesters from the Orissa Hills.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of April 1884:—

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.

CALCUTTA,

The 12th May 1884.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE WEEK ENDING 9TH OF MAY 1884.

THE week under review has been one of slight general and almost continuous disturbance. Pressure, as is frequently the case at such periods in the hot weather, was above the average. The barometric movements were, however, unequal and irregular over the Province, an indication of abnormal and local atmospheric action and of general disturbance throughout the whole or a large portion of the Province. Frequent thunderstorms occurred in almost every district which have given rainfall considerably above the average over a large part of the Province, and more especially in those districts of Behar and South-West Bengal, which received deficient rainfall during the previous fortnight. Temperature was hence considerably reduced, and the weather has been unusually cool for the season of the year.

Atmospheric Pressure.—The barometer was low on the 2nd and slightly above the average. Pressure increased from that date until the 6th, after which it diminished rapidly until the 9th. During this period the barometer fell two-tenths of an inch in Behar and West Bengal, and upwards of a quarter of an inch in East Bengal. Notwithstanding this considerable decrease on the two last days of the week, the mean pressure was above the average, more especially in Central Bengal and Behar. Orissa, Chutia Nagpur, and the south-western districts of South-West Bengal formed an area of low pressure during the week as they have done for some time previous.

Temperature.—In consequence of the unusually large rainfall of the week, the weather has been unusually cool. The only stations which recorded maximum temperatures exceeding 105° were Chyebassa and Gya. The highest readings of the maximum thermometer at these stations were 107° and 105·2° respectively. The decrease in the temperature is, as a glance at the observations show, directly dependent on the rainfall. It is greatest in South-West Bengal, for which the mean temperature was nearly 6° below the normal for the period. The deficiency averaged 4½° for Behar and Chutia Nagpur and 3½° for East Bengal. It was least in Orissa, for which it was only 1°. The greatest reduction of temperature occurred at Berhampore, Burdwan and Jessore.

Winds.—Moderately strong sea winds have been blowing across the Bengal coast during the past week, which have extended their influence over the whole Province, giving south and south-east winds over South and Central Bengal, and east winds over North Bengal, Behar, and variable winds in Chutia Nagpur.

Humidity.—In consequence of the unusual prevalence of easterly winds, the humidity of the air has been higher than usual during the week. The following gives the average 10 A.M. humidity of the week in different parts of the Province, and the normal 10 A.M. humidity in the month of May for comparison :—

	Average humidity 10 A.M. of week.	Normal average 10 A.M. humidity.
Orissa	68	64
South-West Bengal	76·5	70
East Bengal	75	75
North Behar	73	60
South Behar	50	47

Rainfall.—The week has been one of almost constant atmospheric disturbance. Frequent thunderstorms have occurred in every part of the Province. They have been most frequent and probably most severe in South-West Bengal. The 5th (*i. e.* the 24 hours preceding 6 P. M. of that day) was the day of most general rainfall. The only portion of the Province which received no rain on that day was South Behar. Rain, however, extended to that area on the 9th, when showers were received in every district of Behar except the Gya district. The general result of the week's rainfall has been that Behar, Chutia Nagpur and South-West Bengal have received double of their normal amount. The rainfall was on the whole normal in East Bengal and slightly below the average in the case of North Bengal.

The rainfall was deficient in the Pooree and Cuttack districts of Orissa. Every district in South-West Bengal, except Moorshedabad, received rain in excess of the normal amount. In the Dacca, Comillah and Mymensingh districts the rainfall of the week was from twenty to fifty per cent. below the average. The corresponding districts in North Bengal, in the neighbourhood of the hills, viz. the Rungpore, Bogra and Julpigoree districts as well as the Darjeeling Hill Tracts, also received rainfall (from 40 to 60 per cent.) below the normal amount. The Gya district was the only one in Behar where the rain was below the average. The rainfall in the Pubna and Shahabad districts was irregularly distributed, but was on the whole much above the average.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 9th May 1884 :—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community taken in February 1881 was not reliable, owing to the Europeans being at a minimum in that month. The number of the natives remains [illegible] to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded [illegible] results of the census under this head not having been recorded under the authorized form of age classification.

General remarks on the fluctuation of principal staples carried over East Indian Railway during five weeks ending 29th March 1884.

Increases.

Coal.—This increase is due to large despatches to foreign railways.

Piece-goods.—Attributable to fair demand at up-country stations.

Iron.—This increase is assignable to large despatches of heavy machinery to mofussil stations for Jute Indigo Mills, &c.

Grain and pulses (excluding wheat and rice).—Local demand due to partial failure of crops.

Railway Material, Foreign.—Large quantities of material were forwarded for the construction of the State Railways nort the Ganges.

Saltpetre.—Due to moderate demand in the Calcutta market.

Brass.—Improved demand, principally at Mirzapore and Benares.

Indigo Seed.—The increase in this seed is due to a good crop attended with low prices.

Linseed.—Calcutta market being favourable accounts for the increase in this staple.

DECREASES.

Wheat.—This decrease is due to absence of demand in English and Continental markets owing to the American crop having been unusually good, coupled with large stocks being held in the home markets and declining prices.

Rice.—This decrease is accounted for by scanty rainfall and partial failure of crops in consequence.

Sugar, unrefined.—Due to failure of crops for want of rain.

Jute, manufactured.—Want of demand for gunny-bags owing to depressed state of the wheat market.

Lac.—No business transacted in this staple owing to low prices.

Rape-seed.—There was an increase in the weight carried, but a decrease in the earnings owing to short distance traffic.

Salt.—This is due to ordinary fluctuation and the excessive despatches which were made last year.

Spices.—Ordinary fluctuation of trade is the only cause that can be assigned for this decrease.

Hides.—This decrease is due to limited demand in Calcutta.

Cotton.—An increase in weight attended with a decrease in freight is attributable to consignments having been carried somewhat shorter distances than in 1883.

A.—Instructions for the guidance of public vaccinators under the provisions of Act V (B.C.) of 1880:—

1. According to the provisions of this Act, the parent or guardian of every child born in any place in which the Act is in force shall, within one year after the birth of such child; and the parent or guardian of every unprotected child under the age of 14 years brought to reside, whether temporarily or permanently in any such place, within six months after such child's arrival at such place, or if the child be at the time of its arrival less than one year old, within one year and three months after its birth, and the parent or guardian of every unprotected child living in any such place at the date of this Act coming into force, and whose age at such date exceeds one year, but does not exceed fourteen years, shall, within six months from the said date, take it, or cause it to be taken to a public vaccine station to be vaccinated, or shall, within such time as aforesaid, cause it to be vaccinated by some public vaccinator.

Periods within which vaccination of unprotected children should be procured.

2. Whenever a public vaccinator finds that a child, who ought to have been vaccinated according to the above provisions, remains unprotected, he shall ask the parent or guardian of such child to have it forthwith vaccinated, and explain to him the liabilities he will incur if he declines to do so; and if the parent or guardian of such unprotected child does not comply with the vaccinator's requisition, the latter shall at once bring the matter to the notice of the Civil Surgeon or other principal Civil or Military Medical Officer of the district or cantonment in order that legal proceedings may be taken against the parent or guardian of such unprotected child.

Action to be taken by public vaccinators when they find unprotected children who ought to have been vaccinated according to the provisions of the Vaccination Act.

3. Public vaccinators must be very careful to supply the Civil Surgeon or other principal Civil or Military Medical Officer of the district or Cantonment with correct information, for if they fail to prove their statements before the Court, they will be liable to pay any damages which the Magistrate may order for the unnecessary trouble of the person whom they have caused to be prosecuted.

Vaccinators must be very careful to supply Civil Surgeon, &c., with correct information.

4. Whenever a public vaccinator finds that a person whose age exceeds 14 years is still unprotected, he shall ask such unprotected person to get himself forthwith vaccinated; and in the event of the latter declining to do so, the public vaccinator shall bring the circumstance to the notice of the Civil Surgeon or other principal Civil or Military Medical Officer, in order that the said unprotected person may be served with a notice in form of Schedule (D) annexed to the Act, requiring him, within fifteen days after the service of the same, to submit himself to a public vaccinator to be vaccinated.

Action to be taken by vaccinators with reference to unprotected persons.

5. Vaccinators should endeavour to ascertain—

(*a*) Whether children born in any place in which the Act is in force have had their births registered at the police station of the section, and been served with notices. Information ought at once to be given to the Registrar in cases in which this duty has been neglected.

(*b*) Whether any child under 14 years of age, not protected by vaccination, inoculation, or small-pox, has been brought to reside in any place in which the Act is in force. In such case also information ought to be given at the police station in order that a notice may be served.

6. When, in order to facilitate the vaccination of unprotected persons, public vaccine stations have been opened in the different parts of any municipality or other place in which the Act is in force, and the days and hours of public vaccinators' attendance at these public vaccine stations have been fixed and published as required by section 14, the public vaccinators attached to each of the vaccine stations must attend at them on the specified days and within the specified hours, and vaccinate all unprotected persons free of all charges.

Public vaccine stations opened at different places to facilitate vaccination of all unprotected persons.

Vaccinators are bound to vaccinate all unprotected persons that resort to public vaccine stations free of all charges.

7. The name, age, caste, &c., of all persons vaccinated at public vaccine stations shall be carefully entered in the vaccine register provided for the purpose.

Vaccinators to enter name in the vaccine register.

8. Vaccinators shall instruct the parent or guardian of every vaccinated child to bring it back to the station on the fourth or fifth day after the operation, that they may see whether all the points of vaccination have taken. If there be a failure of one or more points, they should be careful to repeat vaccination at those points, and enter the fact of their having done so in the remark column of the vaccine register. The vaccinators shall again direct the parent or guardian to bring the child once more on the seventh or eighth day, that they may ascertain and enter in their register the final result of the operation.

Inspection of vaccinated children.

9. If the operation proves successful, the vaccinators must deliver to the parent or guardian a certificate to that effect in the form of schedule (C.) If it proves unsuccessful, the vaccinators must forthwith again vaccinate the child, and issue instructions for its inspection as before.

Vaccinators to grant certificate of successful vaccination.

When unsuccessful, vaccination to be repeated.

10. If a vaccinator finds that a child whom he has three times unsuccessfully vaccinated is insusceptible of successful vaccination, he should deliver to the parent or guardian of such child a certificate in the form of Schedule (B).

Vaccinators to grant certificate of insusceptible vaccination.

11. If a vaccinator shall be of opinion that a child is not in a fit state to be vaccinated, he shall forthwith deliver to the parent or guardian of such child a certificate in the form of Schedule (A).

Certificate of postponed vaccination to be given by vaccinators.

12. This certificate shall remain in force for three months, but shall be renewable for successive periods of three months until the vaccinator shall deem the child to be in a fit state for vaccination, when the child shall, with all reasonable despatch, be vaccinated, and a certificate of successful vaccination given in the form of Schedule (C) if warranted by the result.

13. A public vaccinator shall on no account charge any person for granting certificates of successful vaccination, of postponed vaccination, or of insusceptibility to vaccination, whether the same be granted at a public vaccine station or elsewhere.

No fee to be charged for granting certificate.

14. Every public vaccinator who gives to any parent or guardian a certificate in any of the forms of Schedules (A), (B), and (C) shall, within 21 days after giving the same, transmit a duplicate thereof to the Registrar of Births of the police section of the municipality where the birth of the child on whose account such certificate was given has been registered, or in which the child, if its birth has not been registered, resides.

Duplicates of certificates to be sent to to Registrar within 21 days.

15. When a public vaccinator attends at the request of the parent or guardian elsewhere than at a public vaccine station for the purpose of vaccinating a child, he shall charge a fee of four annas for every such vaccination. He is to inspect the child on the fourth and seventh or eighth day, and grant certificates as in cases of vaccination in the stations. No fee is to be charged for inspection and for granting certificates.

Vaccination at private houses.

Fees to be charged.

16. Public vaccinators are to grant printed receipts for amounts paid to them as fees. These amounts are to be deposited at the office of the Civil Surgeon or other principal Civil or Military Medical Officer every Saturday, or oftener if that officer so orders. The vaccinators are warned not to misappropriate any portion of the fees to themselves, for if they do so they are liable not only to be dismissed from the department, but also to be criminally prosecuted.

Receipts for fees to be given to the parent or guardian, and the amount collected should be deposited at the office of the Civil Surgeon, &c., every week

Punishment for misappropriation of fees.

17. To ensure successful vaccination, the following cardinal points are to be remembered by every vaccinator—viz. good virus, a clean lancet, and the healthy constitution of the person to be vaccinated

Selection of lymph.

Vaccinators should use none but the best virus; they should remember that vaccination with bad virus is worse than no vaccination; for it not only does not protect the person from attack of small-pox, but brings discredit on both the vaccinator and vaccination. The vaccinators should not only use good virus, but take it from those persons only who are free from constitutional diseases, especially syphilis. Lymph should never be taken from a child who has an eruption on his skin, lumps about the anus or genital organs, bad teeth, or a sore throat or cold. In fact, none but perfectly healthy children should be used as subjects for conveyance of lymph. A clean lancet should invariably be used; when a foul lancet is used, it produces an amount of irritation in the vesicles which renders success doubtful. In ordinary times persons in good health are only to be vaccinated, but in times of epidemic every unprotected person, whether in sound health or otherwise, should be vaccinated. There is no fear in vaccinating pregnant women.

Good virus should always be used.

Healthy persons are only to be vaccinated in ordinary times

Exception in times of epidemic.

18. In cases of good and successful vaccination, the following phenomena are observed in the places where the virus is inserted:—No change takes place until the third day, when the points of insertion of the virus appear like red spots or musquito bites. On the fourth day these spots look like little pimples. On the fifth and sixth days the pimples enlarge into vesicles and contain clear lymph. On the seventh day the vesicles are fully developed. On the eighth day areolæ form around the vesicles. There is sympathetic fever from this day. On the ninth day the contents of the vesicles become perfectly yellow, and the surrounding inflammation becomes more intense. After the tenth day a crust gradually forms, brownish-black in colour and of considerable thickness, and should fall off from the 18th to the 20th day, or two days earlier in the hot season. It should leave a well-depressed cicatrix, with marked edges and floor lined and pitted.

The period at which the lymph is to be taken.

19. Lymph should be taken on the sixth and seventh days in the winter season, and on the fifth and sixth days in the hot and rainy seasons.

20. In taking lymph the vesicles are to be punctured from the top, and not from the side. If the vesicles be punctured at the side, the inner septa of the vesicles would prevent the flowing of the lymph into the seat of puncture. The upper surface should not be scraped off. It should only be punctured, and if the lancet be placed flatly an abundance of lymph will flow on it.

Manner of taking the lymph.

The lymph thus taken on the point of the lancet is to be inserted in at least four different places, two on each arm, one above and the other below the insertion of the deltoied muscles, from an inch to an inch and a half apart from each other. The virus is to be inserted below the scurf or upper skin, but not deep enough to draw blood. Three such punctures are to be made in each place thus.

Manner of inserting the lymph.

21. The vaccinators must be kind and courteous towards the people that come to the public vaccine stations to have their children vaccinated. The people from their ignorance of the vaccine disease will ask many useless and tedious questions of the vaccinators, but the latter should not get annoyed at this. They should particularly explain everything which the parent or guardian of vaccinated children may want to know. While vaccinating at private houses, they should be equally kind and courteous in their manners, and although the law does not prohibit their taking any reward or present from persons able and willing to pay, they should make no demands.

B.—Instructions to Registrar—

1. The Bengal Vaccination Act, 1880 (Act V of 1880), requires of Registrars of Births the following duties connected with compulsory vaccination, in addition to those duties relating to the registration of births and deaths which the law imposes upon them:—

2. On the registration of the birth of a child, the Registrar shall deliver to the person giving information of such birth a printed notice in the form of Schedule E appended to the Act.

Section 18.

3. The Act further requires the parents and guardians of children under 14 years of age not born, but brought to reside, whether temporarily or permanently, in any place in which the Act is in force, to have them vaccinated within six months of arrival, or if at the time of arrival they are below one year of age, within 15 months of birth. On such cases coming to the knowledge of Registrars, a notice should be served in Schedule E, altered according to circumstances. Such cases should be included in the register of vaccination, column 4 being left blank.

4. These notices will be issued to Registrars in the form of a book, each notice having a counterfoil which will, when filled in, constitute the minutes of the notices required by section 20 of the Act.

5. Vaccinators are directed by the Act when a person or child is successfully vaccinated, to transmit to the Registrar a duplicate copy of the certificate (Schedule C), the original of which has been handed to the parent, or guardian or person. Similarly, when the vaccinator considers it advisable to postpone vaccination on account of ill-health or unfitness from any other cause, a certificate to that effect (Schedule A) is given to the parent, or guardian, or person and a duplicate thereof sent to the Registrar; and when a person or child is found insusceptible of vaccination, a certificate (Schedule B) is given, and a duplicate sent to the Registrar. These duplicate certificates (schedules A, B, and C) of

postponed, unsuccessful, and successful vaccination should be filed in separate bundles, and the information conveyed by them entered in the proper columns of the registers.

6. A register of vaccination shall be kept in the following form, of which columns 1, 2, 3, 4, and 5 will be filled up on issue of the notice (Schedule E), and the remaining columns on receipt of the duplicate certificate mentioned in the last paragraph :—

Section 21.

Register of vaccination for

Serial No.	Name of child.	Date of birth.	No. of entry in register of birth.	Date of notice Schedule E.	Date of certificate of successful vaccination—Schedule C.	Date of certificate of insusceptibility—Schedule B.	Signature of Registrar.

7. An additional column will be in future added to the ordinary "Register of Births" in which an entry will be made referring to the "Number in the Vaccination Register." Thus these two registers—the "Register of Births" and the "Vaccination Register"—will contain references to each other, and no difficulty can be experienced in ascertaining whether a certificate has been received regarding the vaccination of any child whose birth has been registered.

8. When a certificate has been received of the postponement of vaccination (Schedule A), an entry should be made in the special "Register of postponed vaccination" (Schedule F) prescribed by the Act Care should be taken that a child, regarding whom a certificate of this kind is received, is eventually vaccinated, and unless a renewed certificate of postponement has been received, an entry should be made of the name in the return mentioned in the next paragraph.

Section 22.

9. As soon after the first of every month as possible, a return will be forwarded to the Civil Surgeon or other Principal Civil or Military Medical Officer in the following form, showing the cases in which notice has been given or certificate of postponement has been received, and the period mentioned in the notice or certificate of postponement has expired without receipt of a certificate of successful vaccination or insusceptibility (Schedule B or C). A case once returned in this form need not be entered again, except in the instance of a fresh postponement :—

Return of cases in which notice of vaccination has been served, but certificate has not been received for the month of

Name of child.	Name of parent or guardian.	Residence.	Date of issue of notice.

10. It is obviously desirable, for the purpose of ensuring that every child born in any place in which the Act is in force shall be vaccinated, that every endeavour should be made to render the registration of births as perfect as possible. Every endeavour should therefore be made to ascertain and cause the registration of every birth occurring in any place in which the Act is in force.

5. For clause *(e)* of rule 14, chapter VI, pages 114, 115, Criminal Rules and Orders (1883), substitute the following :—

(*e.*) [*Depositions, &c., to be translated—C. O. No.* 4 *of* 28*th February* 1884.]—In Sessions cases, every vernacular (1) document, (2) deposition, or (3) examination of an accused person, admitted in evidence at the trial, shall be translated into English ; and a copy of such translation fairly written out shall be incorporated in the record. The translation of more than one document, deposition, or examination shall not be written on one sheet of paper.

After the words " incorporated in the record " in (revised) clause (*e*), rule 14, chapter VI, page 114, Criminal Rules and Orders (1883), insert the following :—

" Provided that, when a vernacular document, the contents of which are not relevant, is used in evidence for a limited purpose, such as to prove a signature, or handwriting, or the nature of writing materials, or the like, it shall not be necessary to make an English translation of the contents of such document."

General letter No. 3, dated Calcutta, the 23rd April 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar, High Court,
To—All Sessions Judges and Magistrates in Bengal and Assam.

As considerable inconvenience in reading the records of criminal cases has been found to result from the practice of recording evidence on both sides of the paper, I am directed to request that in future all depositions may be taken down on one side of the paper only. A margin of one-fourth of the sheet should be kept blank. The Superintendent of Stationery will be directed, when next supplying paper for depositions to Sessions Judges and Magistrates, to furnish a certain proportion of blank half-sheets with a ruled margin. These half-sheets should be used to finish any deposition the whole of which cannot be written upon the paper with a printed heading on which it has been commenced.

General letter No. 5, dated Calcutta, the 18th April 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar, High Court,
To—All District and Sessions Judges and District Magistrates in Bengal and Assam.

THE Court having reason to suppose that an impression prevails with some officers that the term " recent legislation " used in the instructions noted on the margin regarding the preparation of annual reports on the Administration of Civil and Criminal Justice is limited to the legislation of the year with which the report is concerned, I am directed to state that no such limitation was intended. The effect of the legislation of any particular year can very rarely be observed before the close of that year. The term was therefore intended to embrace the legislation of comparatively recent years, the results of which may have become observable during the year under report.

As a matter of convenience, however, it is inexpedient that any practice which is established in any particular district should be disturbed without good reason.

DISTRICT ROAD FUND.

NOTIFICATION No. 215.

The 20th May 1884.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Hazareebagh, Lohardugga, Manbhoom and Singbhoom for the cess year 1882-83, together with the remarks thereon of the Commissioner of Chota Nagpore are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,

Under-Secy. to the Govt. of Bengal, P. W. D.

Abstract of a report by the Chairman of the District Road Cess Committee, Hazaribagh, on the Committee's operations for the cess year 1882-83.

THE road cess was levied at the maximum rate in the district. The demand of cess on lands and mines during the year amounted to Rs. 44,170 against Rs. 34,658 in the previous year. The total amount recoverable in the year, including the arrears of last year, was Rs. 45,605, of which Rs. 44,378 were collected, leaving an outstanding balance of Rs. 1,227 at the close of the year.

There were five meetings held by the District Road Committee and six by the Giridi Branch Committee during the year, at all of which a full quorum was obtained, and the attendance of the members was fair.

The construction of culverts on the Hazaribagh and Chattra road, and the Giridi and Kharukdiha road, was taken up in the year 1881-82, but no satisfactory progress was then made in the work. During the year under report all the culverts on the Giridi and Kharukdiha road were completed, and about three-fourths of the sanctioned number of culverts on the Hazaribagh and Chattra road were constructed. One inspection bungalow at Manjhidi on the Gola and Gobindpore road has been built during the year. A pucca well 45 feet deep has also been made at Ramghur.

The existing metalled and fair-weather roads have been repaired and maintained in proper order, and they are passable for carts.

Rupees 11,500 were allotted for village roads during the year. Of this sum, Rs. 9,858 were expended, viz. Rs. 3,864 in the head-quarters sub-division, and Rs. 5,994 in the Giridi sub-division. The works in the former were executed under the supervision of the District Engineer, and those in the latter under the supervision of the Branch Committee.

No new trees have been planted during the year: 14,147 trees planted out along district roads have been maintained, and a few trees kept up in the compound of each inspection bungalow.

The several establishments under the Road Committee have, on the whole, worked well.

GIRINDRA NATH MITTER,
Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Lohardugga, on the Committee's operations for the cess year 1882-83.

THE cess was levied at the maximum rate in the district. There was no difficulty in collecting it at head-quarters, but the same difficulty as in previous years was felt in the realization of cesses in the Palamow sub-division. This, however, will be removed in the ensuing year, as the re-valuation of the district has been completed. The road cess is by no means unpopular in the district, as the people now understand that the money is spent for their benefit.

There were eleven meetings held during the year by the District Road Committee, of which nine were special and two ordinary. One special meeting was adjourned for want of a quorum. The attendance of both the official and non-official members of the Committee was very unsatisfactory, as out of six official and six non-official, three official and two non-official did not attend six consecutive meetings, and were consequently struck off the list under section 115 of Act IX (B.C.) of 1880. The average attendence was four, against six of the previous years.

One permanent masonry bridge of one span of 30 feet was commenced and built up to springing level during the year, and four brick masonry culverts were commenced and completed. A portion of the Hinu diversion line has been finished with earthwork, turfing and temporary bridges. In addition to these, some expenditure was incurred in making surveys on the Kuru and Lateyhar, Lateyhar and Daltongunge, Ranchi and Serai and Gurwah and Majhwan roads.

The greater portion of the amount expended on village roads was used for making hill roads passable: about eight village roads were maintained and two newly opened.

The work of tree-planting has been extended over six miles of roads. The total length planted out up to the end of the year is 65 miles. The trees planted in previous years are thriving well.

The different establishments under the Committee have done their work satisfactorily.

Abstract of a report by the Chairman of the District Road Cess Committee, Manbhoom, on the Committee's operations for the cess year 1882-83.

THE working of the Cess Act was, on the whole, satisfactory. The total demand on account of cesses for the year was Rs. 31,387, and the outstanding arrears of the previous year amounted to Rs. 265, making an aggregate demand of Rs. 31,652. The whole of this amount, with the exception of Rs. 1,755, was realized during the year, together with Rs. 2,532 on account of future quarters. The total collection, therefore, exceeded the demand by Rs. 777.

A meeting of the District Road Committee was convened regularly every month, and there was no meeting without a quorum being formed. Of the 18 members (6 official and 12 non-official), none failed to attend any meeting during the year, and the average attendance at each meeting was 7.

There is no Branch Committee in the district. The maintenance of village and other communications in the Gobindpore sub-division was carried out under the management of the Sub-Divisional Officer. Village roads in the sudder sub-division have been repaired and improved by construction of rough stone and wooden culverts in several places.

The works done during the year were chiefly restricted to the maintenance of all the finished roads in the district, excepting a few small culverts on the Roghoonathpore-Hazaribagh road, and one at the boundary of the Roghoonathpore-Ranigunge road, and a couple of wells in the compounds of the Nodiara and Thoolin Cart Serais, which were constructed. Portions of the Purulia-Chybassa and Purulia-Bankoorah roads were greatly improved by gravelling in muddy places and turfing side slopes of the roads. The road from Roghoonathpore towards Ranigunge was also improved, it being realigned and made of full breadth in several old portions, chiefly between Saltora and the boundary. The old famine road from Damdah on the Chybassa road towards Koilapal *via* Barrabazar and from Roghoonathpore towards Hazaribagh were also taken up and generally repaired to make them fit for traffic.

There have been no changes in the working establishment during the year.

C. H. GARBETT,
Chairman, District Road Committee, Singbhoom.

CHYEBASSA,
The 6th January 1884.

No. 263D.R., dated Chota Nagpore, the 24th March 1884.

From—J. F. K. HEWITT, ESQ., Commissioner of Chota Nagpore,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith the reports and accounts received from the several District Road Committees in this division on the operations of the District Road Funds during the cess year ending with 30th September 1883.

2. The dates on which the several reports and accounts have been received in this office are as follow :—

Hazaribagh	...	...	...	3rd January 1884.
Lohardugga	...	...	...	29th February ,,
Manbhoom	...	...	...	17th January ,,
Singbhoom	...	...	...	9th January ,,

3. The Cess Act, IX (B.C) of 1880, was in full force in the three cess districts of this division,—Hazaribagh, Lohardugga and Manbhoom. In Singbhoom a sum of Rs. 10,000 was assigned by Government as grant-in-aid—*vide* their letter No. 404T.F of 6th June 1883. No contribution from the Dalbhoom estate was credited to the District Road Fund, as was the case in the year before last, as the estate passed out of the management of the Court of Wards during the year under report.

4. From the commencement of the current cess year the Cess Act has been introduced in pergunnah Dalbhoom only in the district of Singbhoom, and the valuation of the pergunnah is in progress.

5. In Hazaribagh, Lohardugga and Manbhoom the road cess was levied at maximum rates.

6. The subjoined statement shows the number of members constituting the Road Cess Committees in each district, and their attendance at the meetings of the Committees during the year under report.

7. In Hazaribagh there were five meetings of the Committee, all of which were presided over by the Chairman, and in all a full quorum was obtained, and the attendance of the members was fair. The other particulars regarding the meetings are shown in the above statement. There is only one Branch Committee at Giridih, the sub-divisional head-quarters, in which six meetings were held during the year under report, and the attendance of the members is reported to have been satisfactory.

8. In the Lohardugga district there were eleven meetings of the District Road Committee, of which nine were special and two ordinary. One special meeting was adjourned for want of a quorum. The average attendance was four against six of the previous year. The attendance of the official and non-official members of the Committee was very unsatisfactory, for out of six official and six non-official, three official and two non-official members did not attend six consecutive meetings, and their names were consequently struck off the list under section 115 of Act IX (B C.) of 1880. As the time came for recasting the Road Cess Committee, new members have been appointed under Bengal Government order No. 98, dated 30th November 1883. All who attended showed great interest in the proceedings. Regarding Palamow Branch Road Committee, the Assistant Commissioner has said nothing.

9. In Manbhoom a meeting was convened regularly every month, and there was no meeting without a quorum. The average attendance in this district was seven. There is no Branch Road Committee in the Govindpore sub-division. The Sub-Divisional Officer was in charge of the roads in his sub-division during the year under report.

10. In the Singbhoom district there was only one meeting held during the year under review. It was attended by three official and nine non-official members.

11. The table below shows in a convenient form the arrear and current demands as well as percentage of collections on current demands, of the three cess-paying districts o this division :—

Districts.	Demand.		Collection.		Total demands.	Total collection.	Prcentage of collection on current demand.
	Arrear.	Current.	Arrear.	Current.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Hazaribagh	1,436	44,170	1,433	42,939	45,606	44,372	97·3
Lohardugga	908	46,044	908	44,808	46,952	45,716	97·2
Manbhoom	247	26,515	238	24,769	26,762	25,007	93·4
Total ...	2,591	1,16,728	2,579	1,11,516	1,19,319	1,15,095	98·6

12. The total current and arrear collections of the past year amounted to 98·6 per cent. of the current demand, against 105 per cent. in the previous year. The falling off is mainly attributable to the exclusion from the past year figures of all sums collected as advances for future years and interests on arrears. In Hazaribagh and Lohardugga the collections exceeded 95 per cent. of the current demand, while in Manbhoom they equalled it very nearly.

13. The following statement shows the percentage of the total cost of all establishments, including contingencies, on the total of the actual receipts of the District Road Funds in the cess districts of this division :—

Districts.	Actual Receipts of the year.				Total cost of establishment, including contingencies.	Percentage cost of establishment on total demand.
	Cess on lands.	Cess on mines.	Miscellaneous receipts.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	
Hazaribagh	42,567	1,848	5,445	49,869	10,343	20·74
Lohardugga	45,714	13	6,586	52,313	13,628	26·05
Manbhoom	24,918	1,488	3,682	30,088	7,511	24·96

14. The percentage of the cost of establishment on the total demand was highest in Lohardugga, being above the maximum or 25, which was exceeded owing to the employment of an extra establishment for the revaluation of the district. In Manbhoom it very nearly approached the maximum rate, while it was the lowest in Hazaribagh, falling below the maximum by nearly 4·25.

15. The following statement shows the total funds at the disposal of hte several Road Committees, including balances of previous year, together with the percentage of the cost of different estaolishments :—

Districts.	Total income of the year.	Total cost of establishment.	Percentage of cost on income.	Total revenue under Cess Act.	Cost of establishment and contingencies of office of collection.	Percentage.	Expenditure on works.	Percentage cost of works on total income.	Cost of establishment on works.	Percentage cost of establishment on expenditure on works.
	Rs.	Rs.		Rs	Rs.		Rs.		Rs.	
Hazaribagh ...	51,022	10,343	20·2	44,415	1,896	4·2	34,511	67·5	7,032	20·3
Lohardugga ...	64,209	13,628	21·2	45,753	6,940	15·1	32,618	50·8	5,861	17·9
Manbhoom ...	45,018	7,511	14·4	26,521	1,291	4·8	28,403	63·0	4,717	16·6
Singbhoom ...	17,764	1,919	10·8	...	...	...	7,032	39·5	1,750	24·8

16. It will be seen from the above statement that in the districts of Lohardugga and Singbhoom the amount spent on works is proportionately less than in the other two districts during the year under report. In Hazaribagh and Manbhoom the proportion of the expenditure on works to the total available income was above 50 per cent. of the latter, while in Lohardugga and Singbhoom the proportion was only about 50 and 39 per cent. respectively. The comparatively high percentage of cost of establishment in the office of collection in Lohardugga was due to the cost of revaluation establishment, while in Hazaribagh and Manbhoom this percentage was nearly equal. The ratio of the cost of the working establishment to the outlay on works was highest in the non-cess district Singbhoom and lowest in Manbhoom. In Hazaribagh the ratio was comparatively higher than in the other two cess districts owing chiefly to the entertainment of extra Sub-Overseers during the year under report.

17. *Original Works.*—In Hazaribagh the construction of culverts on the Hazaribagh and Chatra road and the Giridih and Kharakdiha road was taken up in the year 1881-82, but no satisfactory progress was then made in the work during the year under review All the culverts on the Giridih and Kharakdiha road were completed, and about three-fourths of the sanctioned number of culverts on the Hazareebagh and Chatra road were constructed.

One inspection bungalow at Manjhidi on the Gola and Govindpore road was built during the year. A pucca well 45 feet deep has also been constructed at Ramghur. The provision in the budget estimate under this head was Rs. 12,919, exclusive of Rs. 4,000 provided for village roads. Of the former, Rs. 10,869 have been spent on the above-mentioned works.

18. In Lohardugga one permanent masonry bridge of one span of 30 feet was commenced and built up to springing level, and four brick masonry culverts were commenced and completed. A portion of the Hinu diversion line has been finished, with earthwork turfing and temporary bridges. In the budget estimate the sum of Rs. 11,100 has been provided for under this head, out of which only Rs. 4,037-1-4 have been spent on the roads named in the margin * In addition to the above, some expenditure was incurred in making surveys on the Kuru and Lateyhar, Lateyhar and Daltongunge, Ranchi and Tarai, and Gurwah and Majhigowan roads. A sum of Rs. 4,554 has been transferred from this head to that of repairs.

*Ranchi and Lohardugga road.
Lohardugga and Chatra roads.
Boundary of head-quarters.
Do. of sub-division.
Daltongunge and Maharajgunge.

19. In Manbhoom the construction of one culvert of 6 feet span in the Roghunathpore and Raneegunge road, and a small culvert on the Roghunathpore and Hazareebagh road, was taken up in hand. The only works completed under this head consisted of two wells in the compound of the Nodiarah and Tholin cart serais. The amount budgeted for these works was Rs. 2,200, of which only Rs. 1,734 were spent during the year of report.

20. In the district of Singbhoom altogether 22 small culverts were built on the Midnapore, Bandgaon, and Burrakur roads respec ively. The amount provided for in the budget estimate under this head was Rs. 2,834, of which nearly the whole was spent during the year under review.

21. *Repairs.*—In Hazaribagh the existing metalled and fair-weather roads have been repaired and maintained in proper order, and the Deputy Commissioner reports that they are passable for carts.—Under this head there was in the sanctioned budget estimate a provision for expenditure during the year of Rs. 26,986, of which Rs. 23,643, or about 87·5 per cent., was expended during the period under report.

22. In Lohardugga 450 miles of roads have been thoroughly repaired. The work consisted of filling, cutting, levelling, dressing, sloping banks of streams, turfing slopes, cutting side drains and repairing and renewing temporary bridges from 3 to 25 feet spans and fencing over 50 miles of roads. A sum of Rs. 25,104 was first allotted under this head in the budget for 1882-83, but a sum of Rs. 4,554 was subsequently transferred from original works to this head, as stated in paragraph 18 of this report. By adding thereto the unexpended budget balance of previous years paid during 1882-83, a total of Rs. 31,999-7 is obtained, out of which Rs. 28,540 odd annas was spent during the year under review, and the balance of Rs. 3,458-9 will be paid during 1883-84 in addition to the sums provided in the current year's budget. The Deputy Commissioner says it is a matter of regret that nothing definite is yet known as to what line the Cuttack-Benares Railway or the Gya extension will take, as until this is known the Committee is uncertain what roads will ultimately become the most important.

23. In Manbhoom the works were chiefly restricted to the maintenance of all the finished roads in the district. Portions of the Purulia-Chyebassa and Purulia-Bankoora roads were greatly improved by gravelling in muddy places and turfing side slopes of the roads. The road from Roghunathpore towards Raneegunge was also improved, it being realigned and made of full breadth in several old portions, chiefly between Saltora and the boundary of the district. Certain old famine roads were also taken up and generally repaired to make them fit for traffic. A sum of Rs. 26,025 was provided for in the budget estimate, out of which Rs. 23,532 was spent on the above work during the year under report.

24. In Singbhoom substantial repairs have been executed to a total length of 36 out of 71 miles of the Midnapore road and surface repairs to the remainder. The Burrakur road has been repaired according to requirements along its entire length, and some realigned portion standing over since last year has been completed. The Deputy Commissioner reports that the approaches to the new culverts in this portion of the road remains incomplete for want of funds. Thorough repairs have also been done to portions of the roads noted in the margin, and petty repairs to the remainder. Seven wooden culverts on roads Nos. 2 and 3 have also been repaired. The staging bungalow at Bandgaon on road No. 1 has likewise been thoroughly repaired.

1. Chyebassa and Ranchi road.
2. Gorjan road.
3. Jointghur road.

25. The following statement shows the amount estimated and spent on village roads :—

	Estimated amount for expenditure on village roads.	Actual expenditure on village roads.	Total amount spent on all works.
	Rs.	Rs.	Rs.
Hazaribagh	11,500	9,858	34,511
Lohardugga	4,500	3,983	32,618
Manbhoom	4,000	2,497	28,403
Singbhoom	637	337	7,032

26. Of the total expenditure in Hazaribagh, Rs. 3,864 were spent in the head quarters and Rs. 5,994 in the Giridih sub-division in both original and repair works The village roads in the former are reported to be fit for wheeled traffic. In the latter their condition has been improved.

27. In the Lohardugga district the greater portion of the amount expended under this head was used for making hill roads passable. About eight village roads were maintained and two newly opened.

28. The greater portion of the total expenditure in Manbhoom under this head was incurred in the sudder sub-division in the maintenance of 56 miles of village roads. In the Govindpore sub-division the road to Toondi, an important line, was taken up for repairs, and some worse parts were made passable by sloping approaches to ravines and construction of cheap stone culverts. Two new village roads were also started—one from Govindpore to Nagarkerri, and the other from Rajgunge on the Grand Trunk road towards Nowaghur *viâ* Katras. The Deputy Commissioner states that the latter will eventually prove a very important one when it is extended to Telmoochi on the Damooda, so as to join with the old Ranchi road and the road towards Purulia *viâ* Chass.

29. In Singbhoom 29 miles of village roads in three different lines were thoroughly repaired and 13 culverts thereon repaired. Petty repairs according to requirements were also done to eight other roads, including repairs to wooden culverts and construction of two kutcha rubble stone masonry.

30. *Plantation.*—No new trees were planted along roadsides during the year in the district of Hazaribagh, as the Committee had not money to spare for the purpose. Fourteen thousand one hundred and forty-seven trees previously planted along the roads have been maintained.

31. In Lohardugga the work of tree-planting has been extended over six miles of roads. The total length planted over up to the end of the year is 65 miles. The trees planted in previous years are thriving.

32. In the district of Manbhoom nursery plantations have been made in the compound of police road posts, and trees planted along the sides of some of the roads, and a young tree nursery has been started at Purulia. A great deal, however, still remains to be done, and as trees take time to grow, no great results will in any case be visible for some years to come.

33. In Singbhoom 2,244 mango and jack fruit seedlings were planted and enclosed during the past year on the Burrakur, Midnapore, Bandgaon, and Jyntgurh roads.

34. The establishments entertained in the several districts are reported to have worked well during the past year.

35. The accounts of the District Road Committee of Lohardugga was last inspected by the Examiner of Public Works Accounts on the 15th January 1881: those of the Hazaribagh and Manbhoom Committees by the Examiner of Local Accounts in September and October 1883, respectively. And those of the Singbhoom District Road Fund, by the last mentioned officer, in the beginning of January 1884.

cause serious injury or annoyance to the Public, or to any class or body of persons.

When a Commissioner or Magistrate makes any order under this section, he shall forthwith forward a copy thereof, with a statement of his reasons for making it, to the Local Government, which may thereupon rescind the order or direct that it continue in force with or without modification, permanently or for such period as it thinks fit.

If that duty is not performed within the period so fixed, the Local Government may appoint the Magistrate of the District to perform it, and may direct that the expense of performing it shall be paid, within such time as it may fix, to the Magistrate from the Municipal Fund.

If the expense is not so paid, the Magistrate, with the previous sanction of the Local Government, may make an order directing the person having the custody of the balance of the Municipal Fund to pay the expense, or so much thereof as is from time to time possible, from the balance, in priority to any or all other charges against the same.

Power of exemption.

92. If any person mentioned in the assessment list shall at any time after the publication thereof have ceased to occupy any holding in respect of the occupation of which he has been assessed, or if the means and property in respect of which he has been so assessed shall have been reduced, the Commissioners may on his application exempt him from his assessment, or may revise the same ; and such exemption or revision shall take effect from such date as the Commissioners may direct.

Penalty for default in furnishing return.

100. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required to do so, or knowingly makes a false or incorrect return, shall be liable to a fine not exceeding twenty rupees, and to a further daily fine not exceeding five rupees for each day during which he shall omit to furnish a true and correct return; and whoever hinders, obstructs, or prevents any Commissioner or any person appointed by the Commissioners as aforesaid, from entering, or inspecting, or measuring any such holding, shall be liable to a fine not exceeding two hundred rupees.

Annual value of holding how to be ascertained.

101. The gross annual rent at which any holding may be reasonably expected to let, shall be deemed to be the annual value thereof, and such value shall accordingly be determined by the Commissioners, and entered in the valuation list:

Provided that, if there be on a holding any building or buildings, the actual cost of erection of which can be ascertained or estimated, the annual value of such holding shall in no case be deemed to exceed an amount which would be equal to seven and a half per centum on such cost, in addition to a reasonable ground rent for the land comprised in the holding:

Provided also that where the actual cost so ascertained shall exceed one lakh of rupees, the percentage on the annual value to be levied in respect of so much of the cost as is in excess of one lakh of rupees shall not exceed one-fourth of the percentage determined by the Commissioners under Section one hundred and two.

Provided further that, in estimating the annual value of a holding under this section, the value of any machinery that may be on such holding shall not be taken into consideration.

102. Subject to the provisions of section eighty-five, the Commissioners, at a meeting to be held before the close of the year next preceding the year to which the rate will apply, shall determine the percentage on the valuation of holdings at which the rate shall be levied, and the percentage so fixed shall remain in force until the order of the Commissioners determining such percentage shall be rescinded, and until the Commissioners at a meeting shall determine some other percentage on the valuation of holdings at which the rate will be levied from the beginning of the next year:

Provided that when this Act is first extended to any place, the first rate may be levied from the beginning of the quarter next after that in which the percentage has been fixed by the Commissioners at a meeting.

103. As soon as possible after the percentage at which the rate is to be levied for the next year shall have been determined under the last preceding section, the Commissioners shall cause to be prepared a valuation and rating list, which shall contain the following particulars, and any others which the Commissioners may think proper to include:—

The total amount of the rates shall be payable by the owner of the house, who shall thereafter be entitled to deduct from the rent which he pays for the land such proportion of the rate so paid by him as is equal to the proportion which such rent bears to the annual value of the holding.

If the owner of the house and the owner of the land do not agree in respect of the proportion of the rate so deducted by the owner of the house, the Commissioners shall, on the application of either party, make an award declaring the amount payable by each, and such award shall be final.

Tax due from non-resident owner may be recovered from occupier and deducted by him from his rent.

105. If the sum due from the owner of any holding remains unpaid after the notice of demand has been duly served, and such owner be not resident within the Municipality, or the place of abode of such owner be unknown, the same may be recovered from the occupier for the time being of such holding, who may deduct, from the next and following payments of his rent, the amount which may be so paid by or recovered from him:

Provided that no arrear of rate, which has remained due from the owner of any holding for more than one year, shall be so recovered from the occupier thereof.

Power of Commissioners in cases of excessive hardship.

106. Whenever, from the circumstances of the case, the levy of the rate on any holding in the Municipality would be productive of excessive hardship to the person liable to pay

the same, the Commissioners at a meeting may reduce the amount payable on account of such holding, or may remit the same.

Application for reduction of assessment.

107. If the value of any holding shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the valuation of the same.

109. The Commissioners may, at any time substitute for any name mentioned in the valuation and rating list, the name of any person to whom any holding mentioned therein shall have been transferred.

Such person shall be liable to pay the rate payable on such holding from the first day of the quarter next after the date of the transfer.

Remission or refund on account of vacant holdings.

110. When any holding has been vacant for sixty or more consecutive days during any year, the Commissioners shall remit, and, if the rate has been paid, shall refund, one-half of so much of the rate of that year as may be proportionate to the number of days the said holding has remained unoccupied:

Provided that the owner of such holding, or his agent, has given to the Commissioners notice in writing of the vacancy thereof, and that the application for refund is made within six months from the date on which such notice is delivered at the office of the Commissioners.

The amount of tax to be remitted or refunded shall be calculated from the date of the delivery of such notice.

Penalty.

111. Whoever, being the owner of any holding for which a remission or refund of the rate has been made under the last preceding section, fails to give notice of the re-occupation of such holding within ten days of such re-occupation, shall be liable to a fine not exceeding three times the amount of rate payable quarterly on such holding

Of general provisions relating to the tax on persons and the rate on holdings and to the recovery of the same.

Publication of notice of assessments.

112. When the assessment list of the tax upon persons, or the valuation and rating list of the rate on the annual value of holdings, shall have been prepared or revised, the Chairman shall sign the same, and shall cause it to be deposited in the office of the Commissioners, and shall cause the notice in form (A) or the notice in form (B) of the third Schedule (as the case may be) to be published in the manner prescribed by section three hundred and fifty-four.

Application for review.

113. Any person who is dissatisfied with the amount assessed upon him, or with the valuation or rating of any holding,

or who disputes his occupation of any holding, or his liability to be assessed or rated,

may apply to the Commissioners to review the amount of assessment, valuation, or rating, or to exempt him from the assessment or rate.

Procedure upon review.

114. Every application presented under the last preceding section shall be heard and determined by not less than three Commissioners, who shall be appointed in that behalf by the Chairman. The Commissioners so appointed, after making such inquiries as they may deem necessary, may pass such order as they shall think fit in respect of such application.

The decision of such Commissioners, or of a majority thereof, in such cases shall be final.

Limitation of time for application of review.

115. Unless good cause shall be shewn to the satisfaction of such Commissioners for extending the time allowed, and save as is otherwise expressly provided in this Act, no such application shall be received after the expiration of one month from the date of publication of the notice required by section one hundred and twelve relating to the list containing the assessment, valuation, or rating in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment at the rate in respect of which the application is made, whichever period shall last expire.

116. No objection shall be taken to any assessment or rating, nor shall the liability of any person to be assessed or rated be questioned, in any other manner or by any other authority than in this Act is provided.

Office hours for payment of taxes.

117. By notification to be posted up in their office, the Commissioners shall declare at what hours of each day (not being a Sunday or other recognized holiday) the office shall be open for the receipt of money and the transaction of business.

Tax payable in advance.

118. The amount due by any person on account of the tax on persons, or the rate on holdings, shall be deemed to be the amount entered in the lists the notice relating to which is published under section one hundred and twelve, unless the amount entered in such lists is subsequently altered by the Commissioners as provided in this Act; in which case the amount to which the assessment or rating is so altered shall be deemed to be the amount due.

Every instalment of such tax or rate shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

Receipts to be given.

119. For all sums paid on account of any tax or rate under this Act a receipt stating the amount and the tax or rate on account of which it is paid shall be given, signed by the tax-collector, or by

some other officer authorized by the Commissioners to grant such receipts.

Bill and notice of demand to be presented.

120. At any time within six months after any sum has become due on account of any tax or rate, the Commissioners shall cause to be presented to the person liable to the payment thereof a bill for the said sum, which shall contain a statement of the period and of the tax or rate on account of which the charge is made.

If the amount mentioned in such bill be not paid on presentation thereof, a notice of demand in the form marked (A) in the fourth Schedule, with copy of the bill appended thereto, shall be served on the person liable to pay the same, and such notice of demand may be served at any subsequent time :

If not paid in fifteen days, process of distress may issue.

121. If any person, after service upon him of such bill and notice, shall not, within fifteen days of the service of such notice, or from the date of any order made on an application for review under section one hundred and fourteen, pay the sum due, either to the Commissioners at their office, or to some person authorized by them to receive the money, or shew to the Commissioners sufficient cause for not paying the same, the amount of the arrear due, with costs on the scale shewn in the table of fees marked (B) in the fourth Schedule, may at any time within three months after the date of service of the said notice, or of the order made on an application for review as aforesaid, be levied by distress and sale of any moveable property belonging to the defaulter, except ploughs, plough-cattle, tools, or implements of agriculture or trade, wherever found, or of any moveable property belonging to any other person, subject to the same exceptions, which may be found within the holding in respect of which such defaulter is liable to such tax or rate.

If the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

Distress how to be made.

122. Every warrant of distress and sale under the last preceding section shall be issued by the Commissioners, and shall be in the form marked (C) in the fourth Schedule.

Distress shall be made by actual seizure of moveable property, and the officer charged with the execution of the warrant shall be responsible for the due custody thereof.

Such officer shall make an inventory of all moveable property seized under the warrant, and shall give not less than ten days' previous notice of the sale, and of the time and place thereof, by beat of drum, in the Municipality or Ward in which the property is situated, and by serving on the defaulter a notice in the form marked (D) in the fourth Schedule :

Officer may break open door.

123. The officer charged with the execution of the warrant may, under the special order of the Commissioners, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance :

Provided that he shall not enter or break open the door of any room appropriated for the zánaná, or residence of women, which, by the usage of the country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

Sale how to be conducted.

124. If the sum due be not paid with costs before the time fixed for the sale, or the warrant be not discharged or suspended by the Commissioners, the moveable property seized shall be sold by auction, at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs.

The surplus sale proceeds (if any) shall be credited to the Municipal Fund, and may be paid on demand to any person who establishes his right to the satisfaction of the Commissioners, or in a Court of competent jurisdiction.

127. If no sufficient goods or chattels belonging to a defaulter, or being upon the premises in respect of which he is assessed or rated, can be found within the Municipality, the Magistrate may, on the application of the Commissioners, issue his warrant to any officer of his Court for the distress and sale of any personal property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any personal property belonging to the defaulter within the jurisdiction of any other Magistrate whatsoever, and such other Magistrate shall endorse the warrant so issued, and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Commissioners.

Distress or sale not unlawful for want of form.

128. No distress or sale made under this Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect, or want

of form in the bill, notice, summons, warrant of distress, inventory, or other proceeding relating thereto.

Commissioners may bring suit instead of distraining or on failure of distress.

129. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of any tax, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

Irrecoverable taxes.

130. The Commissioners may order to be struck off the books the amount of any tax or rate which may appear to them to be irrecoverable.

133. In any Municipality in which a tax has been imposed under section one hundred and thirty-one the owner of every carriage, horse, and other animal specified in the said Schedule shall, within the first month of each half-year, forward to the Commissioners a statement in writing, signed by him, containing a description of the carriages, horses, and other animals liable to the tax, for which he is bound to take out a license.

On payment of tax, Commissioners to give a license.

135. On receiving the amount of the tax due as aforesaid, the Commissioners, or some person authorised by them in that behalf, shall give to the person paying the same a license for the several carriages, horses, and other animals for the period in respect of which the amount is received.

Such license shall be for the current half-year and no longer.

Carriage, &c., liable to tax although the owner be absent.

136. Whenever the owner of any carriage, horse, or other animal liable to pay the said tax is not resident within the limits of the Municipality to the Commissioners of which the tax is due, the person in whose immediate possession the carriage, horse, or other animal is for the time being kept shall take out a license for the same.

Penalty.

137. Whoever keeps, or is in possession of, any carriage, horse, or other animal, without the license required by any of the three last preceding sections, shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, exclusive of the amount so payable.

Commissioners may compound with livery stable-keepers.

138. The Commissioners, at their discretion, may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages or animals for hire, for a certain sum to be paid for the carriages or animals so kept by such person, in lieu of the tax at the rates specified in any order made by the Commissioners under sections one hundred and thirty-one and one hundred and thirty-two.

139. The Commissioners shall, from time to time, cause to be prepared and entered in a book, to be kept by them, and to be open to the inspection of any person interested therein, a list of the persons to whom, during the then current half-year a license has been given, and of the carriages, horses, and other animals in respect of which they have paid the tax.

List of persons licensed to be prepared.

140. The Commissioners, or any person authorized by them in that behalf, may, at any time between sunrise and sunset, enter and inspect any stable or coach-house, or any place wherein they may have reason to believe that there is any carriage, horse, or other animal liable to the tax, for which a license has not been duly taken out.

And the Commissioners may summon any person whom they have reason to believe to be liable to the payment of any such tax, or any servant of such person, and may examine such person or servant as to the number and description of the carriages, horses, and other animals in respect of which such person is liable to be taxed.

141. On proof being given to the satisfaction of the Commissioners that a carriage, horse, or other animal for which a license has been taken out for any half-year has ceased to be kept or to be used within the Municipality during the course of such half-year, the Commissioners shall order a refund of so much of the tax for the half-year as shall bear the same proportion to the whole tax for the half-year as the period during which such carriage, horse, or other animal has not been kept or used in the Municipality bears to the half-year; but no such refund shall be allowed unless notice be given to the Commissioners within one month of the time when such use of such carriage, horse, or other animal ceased, and, except for special cause shown, the Commissioners shall pass no order for refund until after the close of the half-year in respect of which the refund is claimed.

Fee for registration.

144. Any person becoming possessed of any cart which has not been registered for the then current period of registration, shall register the same within one month from the date on which he may have become possessed thereof, and the Commissioners shall grant registration in any such case on payment of such amount of the fee as shall bear the same proportion to the whole fee for the current period of registration as the unexpired portion of the current period of registration bears to the whole of such period; and such fee shall be calculated from the date on which such person may have become possessed as aforesaid.

Proportionate payment of fee.

145. When the ownership of any registered cart is transferred within any period of registration, it shall be registered anew within one month of the transfer in the name of the person to whom it has been transferred, and a fee not exceeding four annas shall be paid for every such last-mentioned registration.

Transfer of ownership.

146. Whoever keeps, or is in possession of, a cart not duly registered as required by any of the three last preceding sections, shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix thereto the registration number as required by section one hundred and forty-two, shall be liable to a fine not exceeding five rupees.

The surplus sale proceeds (if any) shall be credited to the Municipal Fund, and may be paid on demand to any person who establishes his

right to the satisfaction of the Commissioners, or in a Court of competent jurisdiction.

Provided that if, at any time before the sale is concluded, the person whose cart has been seized shall tender to the Commissioners, or to the person authorized by them to sell the cart, the amount of all the expenses incurred, and the registration fee payable by him, the Commissioners shall forthwith release the cart so seized.

Every requisition as aforesaid shall give notice to the persons to whom it is addressed that, if they fail to comply with the requisition, or to prefer an objection against such requisition as provided in the next succeeding section, the Commissioners will enter upon the land and cause the required work to be executed, or the required thing to be done; and that in such case the expenses incurred thereby will be recovered from the persons who are required in such requisition to execute such work or do such thing.

Provided that in any case in which the Chairman or Vice-Chairman shall have certified his opinion as aforesaid, and the objection shall in consequence thereof have been heard and disposed of by the Chairman or Vice-Chairman, the person making the objection may, if the requisition made upon him is not withdrawn on the hearing of his objection, pay in the said sum of three hundred rupees to the Commissioners as the cost of executing the work or doing the thing required; whereupon such person shall be relieved of all further liability and obligation, in respect of executing the work or doing the thing required, and in respect of paying the expenses thereof; and the Commissioners themselves shall execute such work, or do such thing, and shall exercise all powers necessary therefor.

Order to be explained orally.

179. If the person making such objection be present at the office of the Commissioners, the said order shall be explained to him orally; and if such order cannot be so explained, notice of such order shall be served as provided in section three hundred and fifty-six on the person making the objection; and such explanation of, or service of, the notice of the said order shall be deemed a requisition duly made under this Act to execute the work or do the thing required.

Imposition of water-rate.

The said water-rate shall be paid by the occupiers of the holdings by quarterly instalments in advance.

280. The annual value of holdings shall be the value determined by the Commissioners for the imposition of the rate on holdings under the provisions of Part IV of this Act, or if no such rate on holdings be imposed, the annual value shall be ascertained and determined in the manner provided in that Part. And the provisions of sections ninety-six to one hundred and nine (both inclusive), and one hundred and twelve to one hundred and thirty (both inclusive), shall *mutatis mutandis*, and so far as they are not inconsistent with the provisions of this Part, be applicable to the assessment and collection of the water-rate.

Occupier paying water-rate may deduct one-fourth from rent due to owner.

281. Whenever the person by whom the water-rate shall have been paid or from whom the said rate shall have been recovered, is not the owner of the house or land in respect of which the water-rate shall have been assessed, such person may recover from the owner one-fourth of the water-rate so paid or recovered, and may deduct the same from the rent payable by him to such owner.

When house is unoccupied, owner to pay one-fourth of water-rate.

282. Whenever any house or land has been unoccupied during an entire quarter, the owner of the said house or land shall pay to the Commissioners one-fourth of the sum which would have been payable as water-rate by the occupier if such house or land had been occupied.

283. Whenever any quarterly instalment of the water-rate shall have been paid in respect of any house or land, and such house or land shall, during the quarter for which such instalment shall have been paid, cease to be occupied, the person who shall have paid such water-rate shall be entitled to be repaid by the Commissioners three-fourths of such sum as shall bear to the amount paid by him the same proportion which the residue of the quarter bears to the entire quarter:

The date on which the said notice is delivered at the office of the Commissioners shall, for the purposes of this section, be deemed to be the date on which the house or land ceased to be occupied.

284. Whenever any house or land which shall have been unoccupied shall begin to be occupied during any quarter, there shall be forthwith payable by the occupier in respect of such house or land a sum calculated at one-fourth of the rate that would have been payable if the house or land had been occupied during the entire quarter for the period during which the house or land was not occupied, and the full rate for the residue of the quarter.

286. The provisions of sections three hundred and twelve, three hundred and thirteen, and three hundred and fourteen shall be applicable to this Part, provided that the owner shall not be entitled to recover from any occupying tenant more than three-fourths of the water-rate that would but for this proviso be recoverable by him under the said sections.

287. In any Municipality to which the provisions of this Part shall be extended, the Commissioners shall provide a supply of water within the limits of the Municipality; and for this purpose it shall be lawful for them to cause such mains and pipes to be laid, and such tanks, reservoirs or other works to be made and constructed, as shall be necessary for the supply of water in the chief public streets; and they may also erect in all such streets sufficient and convenient stand-pipes or pumps for the use of the inhabitants of the Municipality for domestic purposes.

for the execution of such works to be paid or deposited before such works are executed:

And such charges and expenses shall be recoverable in the same manner as the water-rate.

292. Any officer authorized in that behalf by the Commissioners may, between the hours of seven in the forenoon and five in the afternoon, enter into or on any house or land supplied with water as aforesaid in order to examine all pipes, works, and fittings connected with the supply of water, and to ascertain whether there be any waste or misuse of such water:

And if such officer at any such time be refused admittance into such house or land for the purposes aforesaid, or be prevented from making such examination, the Commissioners may forthwith cut off the supply of water from such house or land:

Provided that nothing hereinbefore contained shall authorize an entry into any room appropriated for the zenana or residence of women, which, by the custom of the country, is considered private, unless a notice in writing of not less than four hours be given.

When pipes are out of repair, Commissioners may turn off water.

293. In the event of any pipes, works or fittings connected with the supply of water to any house or land being at any time found, on examination by any officer of the Commissioners authorized in that behalf, to be out of repair to such an extent as to cause waste of water, the Commissioners may cause the water to be turned off from such house or land, after giving notice in writing of not less than twenty-four hours, and may recover from the occupier of such house or land the expense incurred for turning off the water.

Supply for business.

294. The Local Government shall cause the plan to be published for one month in the *Calcutta Gazette*, and the Commissioners shall publish it in the vernacular within the limits of the Municipality; and after such publication, and after consideration of any objections which may be raised to it, or alterations suggested in it, the Local Government may, if satisfied that the lighting proposed in the plan is proper and sufficient, sanction such plan, or may refuse its sanction thereto, or may return it to the Commissioners for alteration in certain particulars to be specified by it, and when altered may sanction it as altered. The Local Government shall cause its sanction to any plan to be notified in the *Calcutta Gazette*, and shall at the same time cause the plan sanctioned to be published in the said *Gazette*.

Lighting-rate not exceeding three per centum may, after sanction of plan, be imposed on holdings.

309. After notification by the Local Government in the last preceding section mentioned, it shall be lawful for the Commissioners to impose an annual rate not exceeding three per centum of their annual value upon all holdings situated within such portion of the said area for the purpose of defraying the whole expense of lighting:

Proviso as to portions already lighted.

Provided that, as regards any portion of the said area already lighted with gas, for the future lighting of which a plan shall have been sanctioned by the Local Government under the provision of the last preceding section, if it shall appear that the estimated proceeds of the said rate at three per centum will not be sufficient to defray the whole expense of such lighting, it shall be lawful for the Commissioners to impose a rate sufficient to defray the whole expense of lighting such portion.

Rate payable by occupiers quarterly in advance.

310. The rate imposed under the last preceding section upon holdings shall be paid by the occupiers thereof by quarterly instalments in advance; but no rate shall be leviable until the lamps in the portion of the area to be lighted shall have been lighted; nor shall any rate be leviable for any quarter or portion of a quarter antecedent to such lighting.

And the provisions of sections ninety-six to one hundred and nine (both inclusive), and one hundred and twelve to one hundred and thirty (both inclusive), shall *mutatis mutandis*, and so far as they are not inconsistent with the provisions of this Part, be applicable to the assessment and collection of the lighting-rate.

314. Every owner who, under the provisions of the last preceding section, may be entitled to recover any sum from any occupying tenant of any holding or of any portion thereof, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to such owner by such tenant in respect of so much of such holding as may be in the occupation of such tenant.

Owner may recover rate so paid as rent.

315. Every occupier shall be liable to the lighting-rate for the time of his occupation. When any person shall have been an occupier for a part only of any quarter, he shall be liable only for so much of the rate for that quarter as may be proportionate to the number of days during which he shall have been an occupier.

If the occupier fail to give such notice within such period, he shall be liable to the rate assessed on such holding for the whole quarter, although he may have occupied for a part only of such quarter; and in cases to which the provisions of section three hundred and twelve apply, the rate assessed on such holding for the whole quarter shall be recoverable from the owner, if such owner has failed to give notice that such holding is unoccupied, within seven days from the date on which it ceased to be occupied.

Notice of cession of occupancy to be given within seven days.

316. When the name of the owner or occupier of any holding is not known, it shall be sufficient to designate him, in any notice served or proceeding held under this Part, as the owner or the occupier of the holding on which the rate is assessed, and without further description.

317. If the Commissioners deem it necessary for the purposes of this Part to raise, sink or otherwise alter the situation of any gas-pipe or other gas-work laid in any portion of the said area, they may from time to time, by notice in writing, require the person to whom any such pipe or work belongs, or under whose control it may be, to cause forthwith, or as soon as conveniently may be, any such pipe or work to be raised, sunk or otherwise altered in position, in such manner as the Commissioners may direct:

Situation of gas-pipe or other gas-work to be altered at the expense of the Commissioners.

Provided that such alteration be not such as permanently to injure such pipe or work, or to prevent the gas from flowing as freely and conveniently as before; and the expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the Commissioners out of the Municipal Fund as well to the person to whom such pipe or work belongs as to all other persons.

318. If the person to whom any such pipe or work belongs, or under whose control it may be, do not proceed forthwith, or as soon as conveniently may be, after the receipt of such notice, to cause the same to be raised, sunk or altered in such manner as the Commissioners require, the Commissioners may themselves cause such pipe or work to be raised, sunk or altered as they may think fit:

If owner, &c., neglect to make alterations, the Commissioners may cause the same to be made.

Provided that such works be not permanently injured thereby, or the gas prevented from flowing as freely and conveniently as before.

No. 168E. of 15th January 1884, from Manager, Calcutta and South-Eastern and Nalhati State Railways.

OBSERVATIONS.—In Resolution No. 1023R.E. of the 28th February 1883, noted above, it was stated:—"The progress made in the employment of native drivers and shunters is considered on the whole satisfactory. The real difficulty still is to obtain men with the necessary qualifications, and to overcome the aversion the men have to attend the night schools provided for them. * * * They should, however, be employed to the fullest extent on goods trains, and the Lieutenant-Governor trusts that the officers in charge of lines will not relax their efforts to see that this order is carried into effect."

2. The reports for the year 1883 show that the following progress has been made in the employment of native drivers and shunters on the railways under the orders of this Government:—

NORTHERN BENGAL STATE RAILWAY.—The Locomotive Superintendent reports as follows:

There are now two teachers attached to the school—one to teach Bengali and the other Hindi.

The numbers of pupils on the rolls are 25, of whom five learn Bengali and twenty Hindi: the average daily attendance is 12.

The comparative statement showing the number of native drivers employed in the various grades during the year 1882-83, and the salaries drawn in each grade, is as under:—

1882.				1883.			
Grade. Rs.	No. of men.	Salary. Rs.		Grade. Rs.	No. of men.	Salary. Rs.	
20 to 40	1	38	7 Drivers, 9 Shunters, and 1 Assistant shunter.	20 to 40	1	38	12 Drivers, 7 Shunters, and 1 Assistant shunter.
	1	30			1	30

	3	24			3	26	
	4	22			1	24	
	3	20			3	22	
	2	17			5	20	
	1	16			1	18	
	1	14			3	16	
					1	14	

Of the 12 drivers, one was transferred from this railway to the Calcutta and South-Eastern State Railway line in May last; two are employed in the Kaunia and Dharlla Railway line; and two in running trains in the Rungpur Branch, and seven in the main line, working goods trains.

The seven shunters are employed as yard shunters at Saidpur, Sara, and Siliguri.

The assistant shunter is employed at this station.

All these men, except one, are working in a satisfactory manner. They are regular in attendance.

The two drivers of the Kaunia and Dharlla Railway line have been awarded a reward of Rs. 5 each at the end of last half-year for keeping their engines clean and in good order.

TIRHOOT STATE RAILWAY.—The Assistant Locomotive Superintendent states as follows in his letter No. 632D., dated 30th December 1883, to the Manager :—

The number of men employed for the years 1881, 1882, and 1883 compare as follows :—

Grade.		1881.	1882.	1883.
Drivers ...	Rs. 15 to 40	...	2	5
Shunters ...		3	2	5*
Assistant shunters ...		...	1	2
		3	5	12

From these figures you will see that the number of available enginemen and shunters has been doubled in the last year. You will also note that we have now eight men capable of working trains, and two others who should be fit to go out on the line in another six or eight months' time.

No alteration in the mode of supplying men has been made during the year. The old rule of promoting cleaners to firemen, firemen to shunters, and shunters to drivers having been pursued, each man undergoing a careful examination before he is promoted to shunter, and again when he is promoted to driver. At the present time there are some five men having worked their way up to posts of first firemen and shed tindals, who are fit to be promoted to shunters whenever they may be required, two of whom are now actually employed in shunting in the Somastipur yard during the present increase in the number of working trains.

As regards the progress made to teach the men to read and write, a night school has been started here since March last, and a school-master purposely employed to conduct the same. The attendance has been satisfactory on the whole.

During the year eight failures have occurred to engines under the charge of native drivers. Since the 1st of this month no Europeans have been employed on goods, local or material trains, the work having been entirely and satisfactorily performed by natives. An up and down local, an up and down goods, two ballast, and one material train having been regularly running.

It is therefore clear that our present staff of native enginemen is sufficient for our requirements until the line opens out or the traffic increases, and I consider that they have performed the work allotted to them for the year in question in a satisfactory manner.

CALCUTTA AND SOUTH-EASTERN AND NALHATI STATE RAILWAYS.—The Locomotive Superintendent reports :—

Arrangements have been made to establish a night school on the Calcutta and South-Eastern State Railway, similar to that established at Saidpur, with a view to give a rudimentary education in Bengali and Hindi to these men, as well as to the workshop apprentices.

The comparative statement showing the number of native drivers employed in various grades on the Calcutta and South-Eastern and Nalhati State Railways during the year 1882-83, and the salaries drawn in each grade, is as under :—

Calcutta and South-Eastern State Railway.

The seven drivers are employed in running trains.

Of the four shunters, one died in June last, and the three are employed as yard shunters at Calcutta and Diamond Harbour.

The assistant shunter is employed at Calcutta.

All these men have given little trouble. They are regular in attendance and careful in the performance of their duties.

* Three of these men are actually working trains at present time

Three drivers of the Nalhati line, and two of the Calcutta and South-Eastern State Railway line, can read and write.

RESOLUTION.—The large increase in the number of native drivers and shunters employed during 1883, as compared with the number during 1882, and the favourable reports with reference to the attendance of the men, and the satisfactory performance of the duties entrusted to them, are a sufficient proof that the training of natives for employment on locomotive engines has now passed beyond the experimental stage, and that the difficulties at first experienced in carrying out the measure have been fairly overcome.

It is noted, however, that the men are as yet employed only on goods, local, or material trains, and though, with the class of men now obtained, this limitation may be advisable for the present, and for some time to come, the Lieutenant-Governor trusts that every endeavour will be made to obtain the services of a class of men of somewhat superior intelligence, who, with the necessary experience, might reasonably be expected to become competent for the working of fast mail trains. With that object in view, the night schools now provided (the attendance at which is still somewhat unsatisfactory) should be made as efficient as possible by granting prizes for regular attendance, and by regulating the pay of the men on promotion according to the result of their examinations.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Secretary to the Government of India, Public Works Department, for information; also to the Managers of the Northern Bengal, Tirhoot, and the Calcutta and South-Eastern and Nalhati State Railways for information and guidance.

Ordered also that this Resolution be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

S. T. TREVOR, *Col.*, R.E.,

Secretary to the Government of Bengal.
